**Another Syndicate.**

A despatch from Winnipeg, dated August 18th, says: "Another colonization syndicate, with millions of dollars of American capital behind it, has been formed for the purpose of purchasing and settling western lands and mining development." Mining is only a secondary consideration, "landlordism" being the primary object. The intention of the syndicate is to get hold of a million acres of choicest Canadian land and settle it with the best class of farmers from Ohio and neighboring states, each of whom will have to pay whatever rent the syndicate can wring out of him without leaving him worse off than a daily laborer. Or the land will be "held for a rise" until people shall be compelled to purchase it. The syndicate ought not to be permitted to obtain the land, which belongs to the whole community, and which no government has a moral—though it has a legal—right to dispose of; but that it will grab the land, and that, too, at an absurdly low price, can scarcely be doubted. The practice of selling to capitalists or giving to railway companies the people's patrimony in huge blocks has been going on far too long, but the time is coming when it will be stopped, for the Socialist schoolmaster is abroad and his pupils are daily increasing in number. An article on our first page, from an American paper, says that six men control the Government of the United States and can have any law passed that pleases them. We have not yet come to that in Canada, but the trend is in that direction, and every alienation of public lands has a tendency to make millionaires and masters of a few and slaves of the many. As wealth increases on the one hand, so, on the other, does poverty, and the contemplation of the two extremes makes thoughtful people wonder how long the present system will last, and whether it will end in Socialism or a frightful war between the exploiters and the exploited. That it will end in one or the other is inevitable.

**They Want Railroads, Too.**

The *Globe* says: "Farmers in South Dakota have embarked in a co-operative scheme with a capital of \$50,000,000. The object is to secure better prices for their products, and they propose to buy and sell grain, live stock and all kinds of produce, and to establish warehouses, elevators and stock yards. This makes a record in co-operative ventures." That's all right, but what will it profit them to have warehouses, elevators and stock yards if they don't own railroads on which to send their produce to market? When the invention of labor-saving implements enabled farmers in landlord ridden countries to raise crops at less expense than formerly, the landlords quietly raised the rents, and thus reaped more benefit from the labor-saving implements than their tenants did. And so it will be with the farmers of South Dakota, only that the railways will exploit them instead of the landlords. The thing is sure. Just wait and see.

**Canadian Banker Visits Butte.**

Under the above heading the Butte, Montana, *Miner* of July 30th says: John McEachern, of Elmvale, Ontario, Canada, and a banker of the firm of McKeeggie & Co., Toronto, is visiting Butte on a tour of the west. Mr. McEachern holds the responsible position of secretary of the Private Bankers' Association of Canada, which represents many millions. He is very enthusiastic about the many things to be seen above and below ground at Butte, and has visited all the big mines and seen the rich ores blasted from the many veins, dips and stopes, and followed this through its many interesting stages at the great smelters at Anaconda, which place he visited last week. Mr. McEachern is much impressed with the hustle and bustle of Butte, which he declares is equal to any city in the east. He is accompanied by his wife, and they are the guests of Mr. and Mrs. J. A. Fritchard while in the city. They leave for the coast this week to visit Spokane, Seattle and other points, returning by Vancouver and the Canadian Pacific railway to Toronto.

**Powles' Corner.**

(Correspondence of the Gazette)

Mr. G. H. Dunn and Mr. F. Perrie, of Cameron, have been in this section threshing. The grain is yielding well, and both men have several jobs ahead of them. Prospects are good for a busy season.

The school here opened last Monday morning with the usual attendance, under the charge of Mr. Thos. Mark and Miss E. F. Campbell.

Ploughing has commenced. The ground is all right for such work, and perhaps will be until it freezes up; and farmers intending to sow fall wheat will have a better chance than in past years, when the ground was so dry.

We copy from the Forester that there are 826 members in the Ottawa Court of Foresters, and there are 20 members of the Ontario Legislature who are I. O. F. members.

Miss M. Richards, of Lindsay, spent a week visiting relatives here.

Mrs. George Davidson, of Peterboro, is visiting at the Hewie Bros'.

Johnston, the farm recently purchased by him from Mr. James Pollard. Mr. Cooper will take possession next March, and will make a desirable neighbor.

At the time of writing harvesting is at a standstill. It is to be hoped that we may get fine weather to wind up the harvest, which is good considering the wet season.

Miss Susie Worsley and her sister Etta, of Rochester, are enjoying a visit to their parents, Mr. and Mrs. E. Worsley.
