

SNOW BLOCKADE.—Last Monday morning the train from Haliburton reached the Falls on time or within a very few minutes of it, but she had experienced so much difficulty in getting through, (as was shown by the snow and ice on the engine,) that she did not leave here until a plough had come down from Lindsay and cleared the cut near Hall's crossing, which is about the most troublesome in winter of any on the line. As no snow had fallen for some days, and the surface of the drifts was believed to be frozen hard, the fact that the train was delayed occasioned a great deal of surprise, but the heat of the sun had probably weakened the crust in some localities, and a strong wind had managed to scrape up enough of the "beautiful" to partially blockade the track.

ACCIDENT.—Last Saturday afternoon Bruce Letts, about 7 years old, the eldest son of Mr. Wm. Letts, who lives south of the river, got rather badly hurt while squabbling with some other children. Two of them were sons of Mr. Thomas Lane, who is Mr. Letts's nearest neighbor. Little Bruce had got possession of a lath, which some of the other boys wanted to take from him, but which he would not give up. During the dispute they all went into Mr. Lane's wood-shed, where Bruce fell or was thrown down upon his back, and while he and the elder of the Lanes both had hold of the lath, the younger Lane, a little fellow about six years old, got an axe and made a blow at the lath, but unfortunately struck Bruce Letts's right hand, the first and second fingers of which were so badly cut that Dr. Wilson, to whom the little fellow was taken, has fears that one of them will always be stiff. Hearing loud voices, Mr. Letts went over to see what was the matter, but was a couple of seconds too late to prevent the accident.

RAILWAY ACCIDENT.—On Friday last a smash-up on a small scale occurred near Troy Hill station, about ten miles east of Gooderham, on the Ironclad, Bancroft & Ottawa Railway, while a train, consisting of an engine, tender and one passenger car, was running its regular trip. At the point mentioned the car was thrown upon its side into the shallow ditch by the track in consequence of a wheel breaking, and was almost immediately set on fire by the upsetting of the stove. Mr. Hutchison, superintendent of the road, (who was, as far as we can learn, the only occupant of the car,) was badly hurt, and in order to get him out the upper, or glass, half of the car door had to be smashed, as the door itself could not be opened. He was carried to the nearest shelter, and a lorry was at once sent to Kinmount, a distance of thirty miles, for Dr. Frost, who was in attendance upon Mr. Hutchison as soon as possible, but we have not heard the nature or extent of his injuries. The car was a total wreck, but the engine and tender did not leave the track, as the coupling pin broke when the car fell into the ditch.

McCALLUM'S goods are all new, and at prices better than bankrupt stock goods.

DIED OF EXHAUSTION.—On Wednesday of last week Mrs. Nathan Day of Lakeview Farm, Fenelon, and her son Mark, about 17 years old, drove to the Falls in a cutter drawn by a fine black mare 8 years old, and, notwithstanding the present low price of horse-flesh, worth at least \$60. They came on the ice, landing near the site of Greene & Ellis's mill, and about 8 at night left for home, taking the same route, but had scarcely gone a rod from shore when the mare broke through into water about seven feet deep, the cutter remaining on the ice. Young Day did what he could to help the beast out, while his mother went up to the old boarding house close at hand and returned immediately with Mr. John Sheehy, who took the mare by the bridle to keep her head above water and sent the boy to Mr. Garratt Barry's, about a quarter of a mile nearer the village, for more help. Mr. Barry was back with him in a very few minutes, but by the time they reached the spot the mare was at her last gasp from cold and exhaustion, though Mr. Sheehy had prevented her from drowning. It was found that she was a short distance from the regular track when she broke through, but it was where two or three sleighs had passed without mishap the previous day.

A Really Good Cup of Tea

Is not only comforting and agreeable, but it is also very beneficial to one's health; but for years past Canada has been noted for the poor class of teas used, which have a bad effect upon the nerves. During the past few years, in fact, since "Salada" Ceylon tea has been introduced, Canadians have shown their appreciation of fine teas. It has been admitted by eminent physicians that no tea is so free from harmful qualities as Ceylon tea, and no Ceylon teas are so beneficial, as well as delightful, as "Salada," which is sold in lead packets, thereby preserving all the delightful fragrance that tea has on the estate. "Salada" tea can be obtained in Fenelon Falls only at W. L. ROBSON'S.
