

CHURCH DEDICATION.—The formal dedication of the new Presbyterian church is to take place on Sunday, November 10th, and the services will be conducted, morning and evening, by the Rev. John Hay, M. A., B. D., of Cobourg, who will also address a mass meeting of the Sabbath school children and young people in the afternoon. On the evening of Monday, November 17th, the ladies of the congregation will give a supper in Dickson's hall from 5 until 8 o'clock, after which a programme of choice music and recitations will be rendered in the new church. Admission, 25 cents; children 15 cents. After the posters announcing the date of the dedication, etc., had been issued, it was ascertained that the Rev. D. Y. Ross of Cannington, agent of the Upper Canada Bible Society, would be able to be present and lend his valuable services on Monday evening.

HERRINGS.—The delicious little fresh water herrings that commence "running" about this time of year—generally after the first fall of snow—made their appearance several days ago at Rosedale, where many bushels of them have already been captured by means of the small dip-nets used for the purpose. From some reason they always arrive at the Falls a little later than at Rosedale, and but very few were caught here until Wednesday, when they came up to the usual fishing ground in considerable numbers. They are a toothsome delicacy that suits everybody's palate, and they sell readily at from 25 to 50 cents per pailful, according to the season's crop. Some complain that, on account of their smallness, it takes too long to open and scale them; but it is a waste of time and labor to do either, as their single intestine shrivels under the influence of heat into an almost invisible string that can be removed with the head after cooking, and the scales melt into a soft brown crust that tastes just like the rest of the fish. Many persons object to eating the roes and the milts, but this prejudice is not shared by old country people who have been accustomed to Yarmouth blotters and other "round" herrings, as those that have not been opened are called.
