'Thirty-One Killed.

AN AWFUL RAILWAY ACCIDENT.

OMAHA, July 12.—An appalling accident to an excursion train occurred early last evening at Logan, Iowa, 35 miles east of this city, on the line of the Chicago & Northwestern Railroad, in which 31 persons, living in this city, Council Bluffs, Missouri Valley and intervening points, were killed and 40 injured. The train consisted of fifteen coaches, loaded down with members of the Union Pacific Pioneer Association of Omaha and their families and friends. The excursion party left Omaha early in the day, picking up recruits at Council Bluffs, Missouri Valley and Woodbine, Ia. Its destination was Logan, Iowa. About 7 this evening the journey home was commenced. The train had hardly passed the limits of the city, and was rounding a curve, when down brakes was whistled, and then came a crash. The excursion train had been run into by a fast freight, and all the coaches were dented. This has been a day of general mourning in Omaha. The crowds of anxious people at the depot did not scatter with the break of day, although the excitement of the night wore off as relatives and friends of the dead ones became convinced of the worst. About 7 o'clock the first funeral train from the scene of the catastrophe arrived at the Union Depot, and there was an involuntary push forward to gratify a morbid desire to learn the news from those who had been in the disaster. The first train contained many of the more seriously injured, and as the poor unfortunates were lifted, in blankets, from the car, the groans of the wounded mingled with the agonized sobs of relatives and friends. Twenty passengers were taken in ambulances to St. Joseph's Hospital. Several of them cannot hope to live more than a few hours. At 8.30 o'clock the train carrying the dead was sighted coming across the long Union Pacific trestle. As it drew up to the station a special cordon of police guarded the approaches and kept the crowd back. Seventeen bodies laid on pine boards and covered with a plain muslin shroud were taken one by one and placed in a long row on the door of the baggage-room. Those silent forms gave evidence of the force of yesterday's collision. Headless trunks, bodies without limbs, limbs without bodies, were gathered in that small space. Occasionally some one would recognize the features of a son or a daughter. Kind friends would gently lead them from the room, and the body would be ticketed and sent to the undertaker's.

Wonderful Warships.

TWO ENORMOUS NEW BRITISH CRUISERS.

NEW YORK, July 12.—A London special says: "The enormous unarmored cruiser Terrible, recently built on the Clyde for the British navy, maintained a speed of twenty knots an hour on her recent maiden trip from Glasgow to Portsmouth, and it is asserted that her maximum speed was 24 knots, which is certainly remarkable in view of her size and length, 14,200 tons and 500 feet respectively. Not less remarkable is the Terrible's coal-carrying capacity, enabling her to steam 25,000 miles without re-coaling. Her sister ship, the Powerful, is soon to be in commission, and then the British Admiralty may claim to hold the world's record in this class of vessels. The naval experts are not satisfied, however. They are still crying aloud for more men, more quick-firing guns and such like things, which, of course, mean more money. The leader of the malcontents, Capt. Lord Charles Beresford, loses no opportunity of warning Englishmen that they are living in a fool's paradise and being deceived by the very people who ought to tell them the whole truth. No doubt, he says, we are gradually remedying the grave defect of too few ships, but what is the use of building ships if you do not at the same time increase the number of men? This distinguished critic pledges his veracity as a man that if war were declared tomorrow a score of powerful warships would have to remain in port for lack of sailors and stokers to man them, and this for the sole reason that the Governments of the day, Tory and Liberal alike, fear to face the necessary expenditure and so keep the strength of the navy's personnel below what should be the standard, even in a time of peace.

Ontario Marriage Law.

TORONTO, July 11.—On the first of August next the Marriage Act passed at the last session of the Local Legislature will come into force. The act provides that before procuring a marriage license each of the contracting parties shall make an affidavit stating the date on which the ceremony is to be held; that they are each full eighteen years of age and that there is no legal bar to their marriage. A record of these affidavits will be kept by the issuer of the license, and he will forward to the Registrar-General's department the names, ages, occupations and religion of the contracting parties. These new features of the marriage law were added at the suggestion of the Ministers, who discussed them pretty fully at their meetings.

Fool And Not Rogue.

Just now the *Mail and Empire* is busy making repairs in the throne of supremacy which crumbled under their lordships the bishops and archbishops and vicars general of Quebec on June 23. It would be good for Canada if the whole country understood the truth, that the French-Canadians of Quebec defied the clergy, superior and inferior, on election day. Foolish journals assume that in this case the country's good will be the party's evil, and they shout that the defeat of Government in Quebec is part of the vast design of the hierarchy which accepts the ignominy of apparent defeat in order to clutch the profits of real victory. The results of the election indicated that the hierarchy of Quebec was a fool, and now party organs would have the country believe that the hierarchy aforesaid is a sad rogue, which deluded both the Government and the country.—*Telegram.*

Coal in Algoma.

TORONTO, Ont., July 10.—A syndicate composed of gentlemen living in Toronto, Ottawa, Sudbury and Buffalo recently learned of what they thought would prove to be a good thing in Algoma, and they sent Prof. Mickle, of the Toronto School of Practical Science, to investigate. Prof. Mickle is an eminent mining expert, and consequently the syndicate has confidence in the report he sends them, which is enough to turn the heads of most men who have a good thing at stake. The good thing is that coal has been discovered in Algoma, and Prof. Mickle says the deposit is extensive and of fair quality. The deposit is located within thirty miles of Sudbury, and convenient to the Canadian Pacific Railway. The members of the syndicate decline to permit their names to be made public at present. Further news is expected to reach the city to-night, and the lucky men are confident, from what they have already heard from Prof. Mickle, that the discovery will create a boom in the iron industry of Algoma.

"Highwaymen" are Women.

WILKESBARRE, Pa., July 11.—The gang of Highwaymen which has been causing so much trouble around Warrior run and Sugar Notch, near here is composed of women. This startling discovery was made and is now the talk of the two towns. Henry Wilson, who lives in an outlying portion of Warrior run, was going home last night, shortly before 12 o'clock, when at a lonely spot on the road three persons sprang at him from an empty lot and demanded his money. He turned to run, but they were too quick for him and one of them caught him. Wilson grappled with his assailant, and there was a short and desperate struggle, during which Mr. Wilson discovered that the robber wore skirts, had long hair and emitted a couple of decidedly feminine shrieks as Wilson's blows struck true. Then her companions came to her assistance and Wilson was knocked down and relieved of his watch and some money, and the highway robbers disappeared in the darkness. Wilson hurried back to the town, told his story, and a number of men hurried to the spot, but the women had made their escape. It is supposed that they are responsible for several hold-ups which have taken place in that vicinity during the last few weeks.

Manitoba crop reports continue to be of a gratifying nature. A good wheat harvest is assured.
