

Rev. Dr. Gardiner, of Belleville, uncle of the bride. The bride appeared really handsome, and was richly and tastefully attired. She was attended by her sister Lillian of Tweed, and the groom by his brother, George Jewell, of Fenelon Falls. Congratulations at the close of the ceremony were hearty, and deservedly so, as seldom brighter prospects for a happy future lie before a bridal pair. An array of useful and costly presents did honor to the bride, while the company were feasted sumptuously at the generous board of their cheerful and happy host. Having spent a very enjoyable evening the friends retired, expressing best wishes for all concerned in their new relationship. The bride is one of Fenelon's most highly esteemed young ladies, and the groom is an industrious and popular young man.

Mr. Wilson of the Lindsay Post cycled from Sturgeon Point to the Falls last Friday, and paid the *Gazette* a visit before he left.  
Mrs. J. H. Howry, with her two children and two maids, arrived at the Falls from Saginaw, Michigan, last Saturday, and will remain all summer.

Miss Keenan, Miss Cadotte, Miss Bernadette O'Leary and Mr. Cadotte, all of Lindsay, who have been camping out at Pleasant Point, reached the Falls last Sunday morning in time to attend church, and spent the rest of the day until 6.30 p. m. at the residence of Mrs. Hand.

#### Powles's Corners.

(Correspondence of the *Gazette*.)

Fall wheat has already been cut in this part. The McGee Bros. have the heaviest and best in the section, about 30 bushels to the acre all around and a fine sample. On one field they expect a yield of 35 bushels to the acre.  
Mrs. John Simms and Sammie are visiting relatives in Owen Sound. Miss E. Hartwick of Cobocook spent a week with relatives in this community. Mr. A. Edwards of Manilla was through here and called on us. He represents Chase Bros.' nurseries.  
There is great joy at present in the home of Mr. J. C. Parrish—a bouncing baby girl.  
A POT OF MONEY.—During the present week J. W. Howry & Sons have paid out no less a sum than \$12,500 in wages alone. Where is the man who says they are "not much good to the Falls?"  
A COW KILLED.—A few days ago a cow owned by Mr. George Littleton got upon the railway track, and, disregarding the warning shrieks of the engine of an approaching train, was run over and so badly injured that her recovery was impossible, and she was therefore promptly killed to put her out of pain.  
DENTAL.—Dr. Neelands, dentist, of Lindsay, will be at the McArthur House, Fenelon Falls, on the arrival of the Greyhound on Monday evening, and will remain over Tuesday, the 21st. He will have a complete gas (vitalized air) apparatus for painless extracting, also the best pain obtenders. Call early, as he can only remain one day.  
MURDERED.—A slate colored cat with an orange ribbon round its neck was lying dead on the main street, nearly opposite the post-office, early on Monday morning, and the fox-terrier owned by Mr. Barker, (who came to the Falls a few days ago with pianos and organs for sale) is suspected of having murdered it. If the dogs in town would kill 75 per cent. of the cats, and a lion or tiger would come along and kill 95 per cent. of the dogs, the village would be a much pleasanter place to live in than it is at present.

EXCURSION.—The Methodist Sunday School of Fenelon Falls will hold their annual excursion and picnic on Tuesday next, July 21st, to Chemong Park, per steamer Crandella, which will leave the lock wharf at Fenelon Falls at 8 a. m., and returning will leave Chemong at 4 p. m. Return fare 30c.; children 15c. The committee will spare no pains to secure the safety and enjoyment of young and old. All are invited to come.

AT WORK AGAIN.—Joe Chabot, who on the night of the 16th ult. was so frightfully scalded in Mr. John A. Ellis's mill, actually went to work again on Monday last, in less than a month after his right arm, side and leg were literally parboiled. It is said to be exceedingly difficult to kill a French Canadian, especially when spiritual exaltation makes him almost incapable of physical suffering, and it certainly appears to be so in Mr. Chabot's case.

TOO BAD.—A few weeks ago we sent accounts to a number of far away subscribers who owe for from two to six volumes of the *Gazette*, and only one of them remitted the amount of his indebtedness. It is too bad, but no doubt the others intend to settle as soon as they can spare the necessary trifle, and we hope it will be before long, as business is always dull with us about midsummer and overdue dollars are anxiously looked for and prove exceedingly acceptable.

THE GLORIOUS TWELFTH.—On Sunday last, the 12th of July, the Orangemen and True Blues of the Falls and its vicinity attended the Methodist church, the pastor of which, Rev. T. P. Steel, preached an appropriate sermon, and on Monday the brethren went by special train to Kinmount, where the day was celebrated in grand style. Amongst the speakers was Sam Hughes, who, it was remarked, did not boast of his "victory" on the 23rd ult., and, for a wonder, said very little about himself. After the Orangemen returned to their lodge room from the church on Sunday they passed a hearty vote of thanks to Rev. Mr. Steel for his excellent sermon.

THE GALWAY MAJORITY.—As it is persistently stated in some parts of the back country that Galway gave a majority for Sam Hughes at the late election, we give the figures for the two polling divisions in that township from the official returns as published in the *Warrior* of the 3rd inst.:—Galway East, 11 for Hughes, 61 for McLaughlin and 4 for Delamere; majority for McLaughlin, 50. Galway West, 20 for Hughes, 36 for McLaughlin and 17 for Delamere; majority for McLaughlin, 16. Total majority for McLaughlin in the whole township, 66.

A COLLISION.—A good while after dark last Saturday night Mr. R. B. Sylvester was driving home to the Falls, and, just as he turned the corner at the boundary, near Mr. J. B. Fisk's, a rig coming from the village turned it also and a collision occurred. Soon after the involuntary antagonists had parted company Mr. Sylvester's mare began to cough so violently that he got out and examined her and found that she was bleeding from a wound in her chest. Upon reaching the Falls he put her under the shed at Twomey's hotel, and then went for Dr. Mason, whose house is only a few yards distant. When they returned to the shed the mare was lying down, but got up again, and the doctor, upon probing the wound, found that a shaft of the buggy with which she collided had penetrated to the depth of seven inches at the base of the wind-pipe, and that she was actually breathing through the hole. He did what he could for her and she is still alive, but there is not much hope of her recovery.

PEDDLERS.—One of our business men asked us to note the fact that peddlers of dry goods and other wares go through the country paying in trade ten cents per dozen for eggs which they sell for cash in Lindsay at eight cents per dozen. This means, of course, that an article sold for eight cents cash has two cents added to the price when it is given in exchange for a dozen of eggs; but the innocent farmers' wives think they are getting 25 per cent. more for their "hen fruit" from the peddlers than from the village merchants, who allow for butter, eggs, etc., as much as they can get for them and pay for them in goods at cash prices. We are told also that peddlers' licenses in this county are so low that the holders have an unfair advantage over store-keepers who pay rents, taxes and other rates.

RUNAWAY TRUCKS.—About half past 11 o'clock last Friday night Howry & Sons' yard engine drew a train of a dozen trucks laden with lumber from the mill to a distant part of the piling ground; and after it had left them and gone off for some empty trucks, the laden ones by some means got started and commenced to run back towards the mill. The engine whistle was blown vigorously and persistently as a warning

to the men to keep off the track, and the cars, passing the mill, ran to the end of the track, which terminates at the back of the little wooden building located near the Lindsay street entrance to the yard and used as an office by the night watchman. Fortunately, the downward grade of the track was so slight that the cars only punched a hole about a foot square through the rear wall of the office; had it been steeper they would have gone clear through and temporarily blockaded the Queen's highway. The blowing of the whistle brought a great many of our villagers from their beds under the impression that there was a fire, and, not seeing any, they went back wondering what in the world all the row was about.

A lot of land on Corobill, in London, with a front of twenty-four feet, facing the Bank of England, was sold recently at a price equivalent to \$12,000,00 an acre, or about \$285 a square foot.

A number of Stayner cats have been poisoned this summer for killing chickens. It has now transpired that the cats were not guilty. A festive family of skunks did the business.

A report on the state farms in north Carolina, which are operated by convicts, shows there are now 5000 acres in corn and 400 in cotton, and that the condition of the crops is 25 per cent. better than last year at this date.

In a lot of old paper stock received lately at a mill in Andover, Connecticut, was a Bible, the inscription in which reads: "This Bible was used in the pulpit by the Rev. Stephen West, pastor in Stockbridge, Mass., from 1759 to 1818."

A man near Newkirk, Okla., recently took his neighbor's cat, saturated its tail with kerosene and set it on fire, thinking it would run home and burn the neighbor out. Instead it turned and jumped into the barn of the perpetrator and burned it down.

Appropos of Queen Victoria's entrance upon the sixtieth year of her reign, it may be noteworthy that the walking stick which she carries in her old age is made of a branch of the historic oak of Charles II. Fastened to its top is a tiny Indian idol, part of the loot of Seringapatam.

A curious court-martial case was held at Chatham a few days ago, when two Royal Engineers were sentenced to 28 days' hard labor for desertion. It was stated at the enquiry that the prisoners were born on the same day, commenced going to school together, started work together, enlisted in the army together, deserted together, were arrested together and tried by court martial together.

An unusual number of persons have applied at the Pasteur Institute in New York city for treatment to protect them against rabies following dog bites since the beginning of this year, says the Sun. The success of the treatment so far has been remarkable. There has not been a single death among the patients so far this year, the institute doctors assert, and, according to last year's report, there were but two deaths among those treated. In only one case do the doctors admit that the treatment was a failure.
