

SAW THE BATTLE.

Mode 150 Miles and Wired Four Columns, All Within Thirty Hours.

The greatest feat ever performed by a war correspondent was that of Archibald Forbes in the Serbian War of 1876. The nearest telegraph station, Semlin, was distant 120 miles from the scene of the battle, and the available riding nags were of the worst possible description. As soon as Mr. Forbes knew the result of the battle, he rode off at a gallop, and all night long he kept at it, changing horses every 15 miles, and forcing them on at the top of their speed. At nine o'clock next morning, some from head to foot, he was clattering over the stones of the Belgrade main street, and never drew rein until he reached the ferry boat. At Semlin, one long drink of beer, and then at once to the task of writing, hour after hour against time, the tidings of which he was the bearer. After he had written his story of the battle and put it on the wires, he lay down in his clothes, and slept 20 hours without once awakening. He had witnessed the battle, which had lasted 6 hours, ridden 120 miles, and written and dispatched to the Daily News a telegraphic message, four columns in length, all in the space of 30 hours.

AS TO LOOKS.

The woman who is indifferent to her looks is no true woman. God meant women to be attractive, to look well, to please, and it is one of her duties to carry out this intention of her Maker. But that dress is to do it all, and to suffice is more than we can be brought to believe.

Just because we do love to see girls look well as well as to live to some purpose, we would urge upon them such a course of reading and study as will confer such charms as no modiste can supply.

A well-known author once wrote a very pretty essay on the power of education to beautify—that it absolutely chiselled the features; that he had seen many a clumsy nose and thick pair of lips so modified by thought awakened and active sentiment as to be unrecognizable. And he put it on this ground that we so often see people, homely and unattractive in youth, bloom, in middle life, into softened Indian Summer of good looks and mellow tones.

WONDERFUL SUNLIGHT.

From a comparison of the relative intensity of solar, lunar and artificial light, as determined by Profs. Euler and Wollaston, it appears that the rays of the sun have an illuminating power that it is wonderful in the extreme. According to their deductions the illuminating power of the "great day star" is equal to that of 14,000 candles, at a distance of one foot, or of 3,500,000,000,000,000,000,000,000 candles at a distance of 95,000,000 miles. From the above figures it follows that the amount of light which flows from the solar orb could not be produced by the daily burning of 200 globes of tallow, each equal to the earth in magnitude.

Mr. Woodware—That young fellow you have in your office is the most conceited puppy I ever ran across. Mr. Queensware—Yes, I know; but you must remember he is young yet, and his character is not fully formed. He has never been tried by fire. Mr. Woodware—Then you had better fire him.

Nervous

People wonder why their nerves are so weak; why they get tired so easily; why they do not sleep naturally; why they have frequent headaches, indigestion and Nervous Dyspepsia. The explanation is simple. It is found in that impure blood feeding the nerves on refuse instead of the elements of strength and vigor. Oplade and nerve compounds simply deaden and do not cure. Hood's Sarsaparilla feeds the nerves pure, rich blood; gives natural sleep, perfect digestion, is the true remedy for all nervous troubles.

A GOOD SAMARITAN.

Having Found Health He Points the Way to Others.

His Advice Was Acted Upon by Mr. Miles Pettit, of Wellington. Who, as a Result, Now Rejoices in Renewed Health and Strength.

From the Picton Times. Mr. Miles Pettit, of Wellington, was a recent caller at the Times office. He is an old subscriber to the paper, and has for years been one of the most respected business men of Wellington. He is also possessed of considerable inventive genius, and is the holder of several patents for his own inventions. The Times was aware of Mr. Pettit's serious and long continued illness, and was delighted to see that he had been restored to health. In answer to enquiries as to how that had been brought about, Mr. Pettit promptly and emphatically replied "Dr. Williams' Pink Pills did it." Being further interrogated as to whether he was willing that the facts should be made public, he cheerfully consented to give a statement for that purpose, which in substance is as follows:—He was first attacked in the fall of 1892, after assisting in digging a cellar. The first symptom was lameness in the right hip, which continued for

nearly two years. It then gradually extended to the other leg and to both feet. The sensations were a numbness and pricking, which continued to get worse and worse, until he practically lost control of his feet. He could walk but a short distance before his limbs would give out, and he would be obliged to rest. He felt that if he could walk forty rods without resting he was accomplishing a great deal. He had the best of medical attendance and tried many medicines without any beneficial results. He remained in this condition for about two years, when he unexpectedly got relief. One day he was in Picton and was returning to Wellington by train. Mr. John Soby, of Picton, was also a passenger on the train. Mr. Soby, it will be remembered, was one of the many who had found benefit from Pink Pills and had given a testimonial that was published extensively. Having been benefitted by Dr. Williams' Pink Pills he has ever since been a staunch friend of the medicine, and noticing Mr. Pettit's condition made enquiry as to who he was. Having been informed, Mr. Soby tapped him on the shoulder and said, "Friend you look a sick man." Mr. Pettit described his case, and Mr. Soby replied, "Take Dr. Williams' Pink Pills, I know from experience what virtue there is in them and I am satisfied they will cure you." Mr. Pettit had tried so many things and failed to get relief that he was somewhat skeptical, but the advice was so earnestly given, and given so earnestly, that he concluded to give Pink Pills a trial. He bought the Pink Pills, used them according to the directions, which accompany each box, and was cured. His cure he believes to be permanent for it is now fully a year since he discontinued the use of the pills. Mr. Pettit says he believes he would have become utterly helpless had it not been for this wonderful health restoring medicine.

The experience of years was proved that there is absolutely no disease due to a vitiated condition of the blood or shattered nerves, that Dr. Williams' Pink Pills will not promptly cure, and those who are suffering from such troubles would avoid much misery and save money by promptly resorting to this treatment. Get the genuine Pink Pills every time and do not be persuaded to take an imitation or some other remedy from a dealer, which, for the sake of extra profit to himself, he may say is "just as good." Dr. Williams' Pink Pills make rich, red blood, and cure when other medicines fail.

QUAINT ENGLISH CUSTOM. Once in five years the Mayor of Newcastle, England, is rowed up the river in an Elizabethan barge, and, landing at a village green, gives the prettiest girl he sees and kisses her a sovereign, to clinch Newcastle's right to the foreshore. Some of those old English customs are not so very silly after all.

Cold in the Head.—Nasal Balm gives instant relief, speedily cures. Never fails. Waiter (at club restaurant)—"Ready with your order, sah?" City Sportsman (back from a week's fishing)—"Give me some fish; I'm tired to death of other things."

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.
