

in which the non-Catholics of Canada have no part. When the Presbyterians or Anglicans or Methodists or Baptists get into a racket over their church government, the Roman Catholics always mind their own business and let us fight it out amongst ourselves. We, too, can afford to leave them alone when they are trying to settle their disputes with their ecclesiastics. As far as the school question is concerned, the mission of Mr. Laurier's friend to Rome has nothing whatever to do with it. The question was practically settled long ago and to the satisfaction of all those who opposed the coercion of Manitoba. This being the case, if there was a particle of sincerity in the cry of those who favored the remedial bill, they would now drop the discussion of religious and sectarian topics and try to keep bad blood out of our politics."

Personals.

Miss Lollie McKay left yesterday morning to take a course in a nurse's training school in a hospital at Brooklyn, N. Y.

Mr. Chas. Perrin, for several months book-keeper in Howry & Son's office, left yesterday morning for Saginaw, Michigan.

Miss Hillock, of the Lindsay Collegiate Institute staff, spent last Saturday and Sunday at Mrs. James Dickson's at the Falls.

Mrs. E. R. Vail left yesterday morning with her children for her home at Boston, Mass., after a four months' visit to her relatives at the Falls.

Mr. Thomas Archer returned home on the 16th inst. from the North Shore, where he has been in the employ of the Longford Co. for the past nine months.

Mrs. R. McDougall returned home last Saturday from a two months' visit to relatives at Duluth, Minnesota, and Barron, Wisconsin. While at the residence of her mother, Mrs. Joseph Currier, at Barron, a number of neighbors were invited, and, although only about seventeen persons were present, the following eleven countries were represented: England, Canada, America, Australia, Ireland, Scotland, Sweden, Norway and Denmark. They all spoke the English language with more or less fluency and correctness, but the great number of nationalities in so small an assemblage gives an idea of the percentage of foreigners there must be in the population of the United States. On her way home Mrs. McDougall saw the millinery exhibitions in the leading establishments in St. Paul, Minneapolis and Detroit, and obtained some information that will be of use to her in her business.

FROST.—There was so hard a frost during Tuesday night that ice about the eighth of an inch thick formed on still water. Two or three other night frosts have been reported this fall, but they were so slight that no evidences of them were seen the following mornings, except by very early risers.

RIPE RASPBERRIES.—On Friday of last week a wild raspberry bush, bearing flowers and fruit, some of the latter being perfectly ripe, was found on Mr. Wm. Dodd's farm, lot 11, con. 5, in the township of Somerville. A fall crop of berries is of sufficiently rare occurrence to deserve notice, so Mr. Dodd broke a branch off the bush and brought it to the *Gazette* office to furnish the raw material for this paragraph.

A BIG FISH.—The Peterborough *Times* says: "One of the largest fish ever caught in these waters was landed in Buckhorn Lake by Messrs. Galbraith and Daniels. The gentlemen hail from Buffalo and feel highly elated over the catch, a maskinonge weighing 42½ lbs." This is the biggest fish, by long odds, taken in any lake in this vicinity for many years—that is, as far as we remember. Early in the present season the capture of a 35-pounder in Scugog Lake was reported, but Messrs. G. and D.'s victim beats it by the weight of a good-sized fish.

SOME FOUR HUNDRED (400) SAMPLE HATS. Call and choose your Millinery early at Mrs. McDougall's.

NOMINATION DAYS.—County councillors as well as township councillors are henceforth to be elected by the people, and the nomination day for county councillors will, this year, be on Monday, December 31st, two weeks before the first Monday in January, which is always polling day. The township, town and village nominations will be held as formerly, on the Monday immediately preceding polling day, while the county council nominations will be held on the Monday preceding that, or two weeks before polling day.

OUR OLD OPPONENT HURT.—We see by the *Millbrook Reporter* that Mr. G. H. Small, foreman in that office, met with a painful accident a few days ago while running a Gordon press, in which his fingers were so badly crushed that it

is feared one of them will have to be amputated. Mr. Small, it will be remembered, was the proprietor of the *Record*, which had a brief existence a few years ago in this village, where there is no more chance of a second paper existing than there is of an opera house proving profitable. We hope our old opponent's accident—like the similar one that befell us in 1892—may have much less serious consequences than at first appeared probable.

"TRADE AND GET RICH."—A lecture on the above subject will be given on Monday evening, Sept. 28th, in the Methodist church, by Rev. A. Carman, D. D., General Superintendent of the Church. A sumptuous festival will precede the lecture, and will be served in the basement from 5 to 8 p. m. There will also be addresses by resident and other ministers and choice music by the choir. Admission, 25c.; children 15c. On Sunday, Sept. 27th, Rev. Dr. Carman will preach at 10.30 a. m. and 7 p. m.

CORRECTION.—We have received a letter from Mr. John D. Smith informing us that the statement made in last week's *Gazette* that he had said that the sawmill would be rebuilt was an error; as what he really said was, that if the Howrys determined to rebuild, any insurance money that the Estate might get would be at their disposal for that purpose. Whether the Howrys will stay at or leave the Falls has not, as far as we know, yet been decided upon; but of course everybody here hopes that they will remain, as their departure would be a great loss to the village. A good deal of square timber sawed at Mr. Ellis's mill has been drawn to the site of the fire, but it is being used to make repairs that are necessary before the box factory can be run.

An Oxford man expects to ship 80,000 bushels of turnips this season.

John Hines, Barrie, has a wicker basket that has been in his family since 1644.

Young ostriches have been hatched by artificial incubation on a farm in Maryland.

A flash of lightning so terrified Mrs. Sanderson, of Flemington, N. J., that she died of fright.

Large quantities of asbestos are now being shipped from the mine at Thedford, Que., to Great Britain.

A toothpick factory flourishes at Harbor Springs, Mich. The output is 7,500,000 toothpicks every day.

A New York hotel is said to use a machine that washes and dries 1,000 dishes an hour. Two persons attend to it.

The loss to the farmers of Pennsylvania by the ravages of the army worm upon their crops will not fall short of \$250,000.

A cow wandered into the town hall of Kingman, Arizona, where the county records are kept, and ate some of them and tattered the rest.

California fruit is meeting with a favorable reception in the London, Eng., market. Pears and plums comprise the shipments made so far.

In the past ten years Miss Mona Selden, an ex-school teacher of Friendship, N. J., has supported herself in good style by raising frogs. Her profits for the first year were over \$1,600.

President Angell, of the Boston Humane Society, says that Prof. Louis Agassiz, the greatest scientist we ever had on the American continent, was a firm believer in the immortality of dumb animals.

Rev. Mr. Meese, of Auburn, Ind., recently gave a matrimonial reunion to all the couples at whose weddings he had officiated. A matrimonial address was delivered, and all the married people joined in a grand march.

Redwood City, Cal., can boast a gastronomical curiosity in Joshua Lutton, who lives on the edge of a marsh on the bay shore and eats nothing but frogs and oysters. This frotzetarian is now 85 years old, and hale and hearty.

John Morin, Esq., owner of valuable property in Simcoe county, and for the past thirty years engaged in the oil business, is quite confident that the oil belt running through Indiana, N. T., and Bothwell, also crosses Muskoka. He proposes to form a company to bore for oil and gas in Muskoka.

The large school of herring now off the Maine shores are the genuine Labrador fish, never before known to visit the Maine coast. These fish are now being caught in large quantities off Peak's Island, and the daily catch averages from 400 to 500 barrels. Two schooners have been engaged in this business off Peak's for several days.

Recently in the wild west of Ireland a priest denounced certain songs that had crept into and become popular in the parish, and forbade his people to sing them. "I don't know their names," he explained, "but everyone of you knows the songs I mean, and in case you don't I'll whistle their airs." And he whistled them to his congregation.

BIRTHS.

MILLER.—At Fenelon Falls, on Sunday, September 20th, 1896, the wife of Adjutant Miller, Salvation Army, of a son.
