

left for the township of Ridout, in Muskoka, where all of them except Mr. Thomson, who has to return in about a week, will probably remain until the end of the hunting season. We hope that each of them will get his legal allowance of deer, and that when they come home they won't forget that we are remarkably fond of venison.

Eggs and produce taken in exchange at Mrs. R. McDougall's.

IN HIS BOOT.—On the afternoon of Thursday, the 29th ult., Mr. Emanuel Smitherman of Fenelon was at the Falls on business, and towards evening missed a small cotton money bag or wallet containing about \$45 in bills, and had reason to believe that he had lost it while driving in his buggy from Mr. Sewell's house, south of the river, to the shed at the rear of the McArthur House. After searching the road between the two places and making many fruitless enquiries, he went disconsolately home, and, upon preparing to go to bed, was surprised and delighted to find that the missing treasure had slipped down between his trousers and drawers into his right boot, where it had remained during his mournful pilgrimage around the village and while he had done some chores about the farm, in the course of which he had to climb a fence. It was a low boot, but was not laced all the way up, and the top at the outside was turned out in such a manner that it caught the wallet in its descent and guided it in against his ankle.

One trade that has been practically ruined by the bicycle is the walking sticks.

A sanitary authority, commenting on typhoid fever, says that a well 20 feet deep will drain a surface the radius of which is from 160 to 200 feet.

The experiment of introducing reindeer into Alaska has been a complete success. The animals are increasing at the rate of sixty per cent. a year.

Li Hung Chang is credited with telling a director of the Bank of England that self interest, as a rule of business, "is the same the world over, but especially in England."

Missouri weather prophets say we are to have a hard winter because the rag weed is unusually large this fall. They declare that the snow is always as deep as the rag weed it tall, and, if this holds good, the snow will be from two to three feet deep in that State this winter.

The man who took fifty head of steers through the season to Forty-Mile and Circle City of Yukon River, Alaska, had complete duck suits made for each animal, covering its entire body to the knees. Around their ears, eyes and mouths a special preparation was used as a further safeguard against mosquitoes and gnats. In one place the steers were compelled to swim nearly ten miles up stream.

Measurements taken on the body of T. J. Hendrick, who died in Walla Walla, Oregon, showed that he was "fearfully and wonderfully made." His chest measured 52 inches, while his waist measure was only 39 inches. His head around the jaws was 30 inches, and around the brow was literally 24 inches. The ball of his foot measured 12 inches wide, while the length of the foot was only 10 inches. The girth of his forefinger was 3 3/4 inches, and of the wrist 8 inches, length of his hand 10 1/2 inches.

Wasps have not only caused much personal inconvenience in many parts of Scotland this season, but have also done much damage. The fruit crop has suffered very severely, many pear trees having been completely stripped.

A shepherd's body was recently carbonized by electricity at Roche La Motiere, in France. During a thunder storm the telegraph wires were blown down and curled around the man, who was standing under them.

Lighted cigarettes were distributed the other day among a lot of monkeys at the Zoo, in Paris, by some mischievous ureains. The animals puffed away at the weed in evident enjoyment until the advent of the keeper, who put a stop to it.

A remarkable march of 4,700 miles across Siberia, occupying almost a year, has just been completed by two Russian battalions of line infantry and two batteries of artillery, which lately reached their camp on the Amur. Their losses were six men dead, twenty-seven left behind in hospitals, and twenty-nine horses. The others arrived in good condition and excellent spirits.

The truth of the old saying that rats always leave a sinking ship was illustrated in the case of the wreck of the Sea King on the Pembroke coast a few days ago. As one of the sailors was preparing to jump into the sea to swim ashore, a large rat crawled up his clothes and lodged under his arm. The man was fortunate enough to reach the shore alive, and his rat companion, which he had been unable to dislodge, was also saved.

NEWSPAPER LAW.

1. A postmaster is required to give notice by letter (returning the paper does not answer the law), when a subscriber does not take his paper out of the office and state the reasons for its not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payment.

2. If any person orders his paper discontinued he must pay all arrearages, or the publisher may continue to send it until payment is made, and collect the whole amount, whether it is taken from the office or not. There can be no legal discontinuance until the payment is made.

3. Any person who takes a paper from the post-office, whether directed to his name or another, or whether he has subscribed or not, is responsible for the pay.

4. If a subscriber orders his paper to be stopped at a certain time, and the publisher continues to send, the subscriber is bound to pay for it if he takes it out of the post-office. This proceeds upon the ground that a man must pay for what he uses.

5. The courts have decided that refusing to take newspapers and periodicals from the post-office, or removing and leaving them uncalled for, is *prima facie* evidence of intentional fraud.

The latest postal laws are such that newspaper publishers can arrest any one for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid, and then orders it discontinued, or orders the postmaster to mark it "refused," and have a postal card sent notifying the publishers, lays himself liable to arrest and fine, the same as for theft.

FENELON FALLS CURLING RINK ASSOCIATION.

J. W. BLAIR,
MANAGER,
ORILLIA, ONT.

WANTED...

Men to Engage with us as Salesmen. New season just opening; new style o plate book; more attractive and yet lighter than ever.

ALL SUPPLIES FURNISHED FREE. We are the only Canadian Nursery paying salary and commission from the start. Liberal commission to part time men. Large list of specialties, all having been tested at our trial orchards. If you want a sure thing for the winter, write us.

STONE & WELLINGTON,
Nurserymen and Fruit Growers,
TORONTO, CANADA.
OVER 700 ACRES IN CULTIVATION.

MISS OR MRS.!

When about to select a hat or bonnet do you ask for a shape of the style of ten or twelve years ago? Do you think if the milliner uses the newest trimmings, and arranges them on it in the latest style, that the effect will be exactly right? There will be something wrong; perhaps some people would not notice it, but you would.

YOU WANT THE LATEST,

especially if it suits your taste and purse. It is all the same when you buy a dress or wrap. The material may be fashionable, the fit good, and the style of making modern, but if it is cut by a chart that has been in use probably since before you wore a dress, you cannot expect it to have that smart, up-to-date appearance so desirable nowadays.

THE WORLD MOVES,

and if improvements are made in all other directions, why not in the art of garment cutting? The DE LA MORTON Tailor System is new, but it is NOT an experiment. It is patented and registered, and has been tested long enough to prove its superiority over others, both new and old. If you want correct style and perfect fit, combined with comfort, give it a fair trial. It will cost you no more than the old-fashioned way. Customers express satisfaction every day.

M. E. CALDER.

Rooms in McArthur Block, nearly opposite the Post-Office.

SELLING OFF.
