

A NEW COMPETITOR

China Manufactures Coal and Unseals the American Article.

China has thrown down the gauntlet to the big coal miners of the United States. An American bark recently brought to the Pacific Coast a mixed sample cargo of anthracite and manufactured coal, mined and made in the Tonquin district. It is intended to push the Chinese fuel at prices greatly below those which Pennsylvania and Welsh coals of the same character are now bringing. Experts have pronounced the Tonquin coal bed practically inexhaustible. The manufactured coal is entirely new to American markets. It is made by the Chinese natives from coal dust. The dust is mixed up with a pitchy substance and compressed into egg-shaped lumps. The inflammable cement adds combustion, and the coal makes a very hot and a very clean fire. The imported coal is said to be of the finest quality, fully equal to the best American or British coals, while it can be sold profitably at a price much below the standard rates. Pennsylvania and Welsh anthracite for house use are now selling at about \$13 a ton. The Tonquin coal of the same grade can be sold to give a good return at \$9 a ton, while Tonquin anthracite steam coal can be quoted at at least \$1 a ton under the present price of Welsh coal of that grade.

HERE'S TO BEAUTY.

There are many domestic women who have the hair and complexion to make them professional beauties, but they don't bathe and brush with sufficient energy and they achieve only transient results. When Lily Langtry stepped into professional life from society ranks she told a friend that it was all rubbish. "This talk about her marvelous beauty," it is because I understood so much better than the women around me the art of keeping my complexion and my figure. Now if I could only learn to act!"

In those days creams were less abundant than now. But Langtry kept her complexion with milk and massage, and her white hands with soap and lemon juice, and her figure with cold water baths. Home women shudder at the thought of the cold dip. They are delicate from coddling and sitting and worry and pie. But let them cycle and patronize the cold dip and they will soon be strong and handsome. Beauty lies so close to the skin that women are finding out every day how easy it is to be handsome, and that is why there are twenty "beauties" now to one of twenty years ago.

NOVEL ADVERTISING.

A novelty in advertising is shown in a Scotch church, according to a northern paper. The congregation could not pay its minister. To help it out of its dilemma a soap firm offered to pay £120 a year for five years on condition that its advertisement be hung up in front of the gallery in the church. The offer was accepted.

HIS IS THE TIME
of year... when men... and women... become weaker... by the weather, and run down generally... The first parts that the weather affects are the kidneys. The urea is not thrown off, but is forced back upon the lungs, and disease results—caused by weakness of the kidneys.

ABOUT THE BLOOD IS YOURS PURE?

If Pure, You are Safe—Otherwise You Are in Peril.

THE KIDNEYS ALONE

Purify the Blood—No Other Organ Can—Dodd's Kidney Pills Help and Heal the Kidneys When Weak and Sore.

Is your blood pure? If it is, you are fit for all the duties and enjoyments of life, your eyes will be bright and your thoughts cheerful. If pure you will have good digestion, strong nerves, and your heart will beat as regular as a clock.

If impure your blood will carry its impurities along to every nerve, tissue, joint, and to every organ of the body; it will carry the seeds of disease, decay and death.

And there is only one way, one means by which it can be purified, and that is by healthy kidneys, and by them alone.

We are, indeed, fearfully and wonderfully made, but we are made just right if we only know how to keep so.

It does not matter how these impurities come, their effects are inevitable unless the kidneys are doing honest work twenty-four hours every day.

You understand—there is no other organ that can do the work of the kidneys, and like the heart, they must keep right at it, tired or not.

But they are too often overworked by our imprudence in eating and drinking, they are disordered by chills, colds, shocks and injuries; and they must be constantly looked to, and signs of distress promptly heeded.

Then, whenever they need help, give them the sovereign aid of the scientific discovery embodied in the kidney treatment of Dodd's Kidney Pills.

"It affords me great pleasure to commend Dr. Agnew's Cure for the Heart. I was sorely afflicted with heart trouble, accompanied with dizziness, palpitation and smothering sensations. For over four years I was treated by best physicians, and used all remedies known to man. I determined to try Dr. Agnew's Cure for the Heart. The first dose gave me great relief inside of thirty minutes. I used two bottles, and feel to-day I have been completely cured."

From Chronic Catarrh—But Instantaneous Relief Follows the First Application of Dr. Agnew's Catarrh Powder—Don't Neglect the Simplest Cold in the Head, It May Develop Into This Disgusting Malady Almost Before You Can Realize It.

Rev. Dr. Bohrer of Buffalo says: "My wife and I were both troubled with distressing catarrh, but we have enjoyed freedom from this aggravating malady since the day we first used Dr. Agnew's Catarrh Powder. Its action was instantaneous, giving the most grateful relief within ten minutes after first application. We consider it a godsend to humanity, and believe that no case can be so chronic or deeply seated that it will not immediately relieve and permanently cure."

LUMBERING ON THE OTTAWA

A LIFE OF GREAT HARDSHIP AND EXPOSURE.
River Drivers Often Waist Deep in Icy Waters—Pain-Racked Bodies the Frequent Outcome—Only the Most Robust Can Stand This Weary Round Of Toil

From the Ottawa Free Press.
Only those who have engaged in the arduous occupation of lumbering know how dearly earned is their livelihood, for among the many vocations of men that of lumberman ranks among the most dangerous and difficult. There is the heavy shanty labor from earliest dawn to evening star, when the toilers for half the year is remote from home and friends, and whose daily round is to eat and work and sleep, only getting an occasional glimpse of the outside world through a long looked-for letter from some loved one far away.

Then the days lengthen, the frozen lake breaks up, and comes the driving of logs and hewn timber down the tortuous swift running stream, when necessity often calls the driver to wade body deep in the swift flowing, icy waters. None but the strong can engage in such heavy labor, only the most robust are able to stand the ten hours of daily toil, with but a mid-days hour's respite. Such in brief, is the life of many thousands of laborers in the Ottawa valley, and among the many is

Thomas Dobie, of 130 Head street, Chaudiere, who for twelve long years has wrought for the great lumber king, J. R. Booth, shantying in the snowy northern forests, and lifting three inch deal during the summer heats. It is not to be wondered at that in his long experience and great exposure he should contract a severe cold that in time took permanent lodging in the region of his loins and kidneys. Like many others he thought to work it off, but in vain. Soon the pains in the region of the kidneys became so intense that labor was a torture to him, and it was only the indomitable courage, born of a knowledge that others were dependent upon him, that urged him to pursue his weary round of daily toil. Every sudden movement of the body was a thorny goad that made him wince beneath its sting. Added to this was an unusual and excessive sweating which necessitated frequent changes of clothing, and which weakened him to such an extent that his appetite was almost entirely gone, and eventually but little food and much water was his daily fare. Many vain efforts were made by Mr. Dobie to free himself from the pains which had fastened themselves upon him, and one medicine after another was used, but without effect. Life became a burden, and existence a thing almost undesirable. After many fruitless efforts he was induced to try Dr. Williams' Pink Pills. When three boxes were taken the change in his condition was marvelous, and his own words are, "when I had taken six boxes I was a new man and considered the cure worth hundreds of dollars." Mr. Dobie, although completely cured, continues taking Pink Pills occasionally and is very enthusiastic in his praises of what the pills have done for him. Many of his fellow workmen seeing the great change wrought in him by these famous pills have been led to give them a trial for other ailments and are unanimous in pronouncing them superior to all other medicines.

Dr. Williams' Pink Pills act directly on the blood and nerves, building them anew and thus driving disease from the system. There is no trouble due to either of these causes which Pink Pills will not cure, and in hundreds of cases they have restored persons to health after all other remedies had failed. Ask for Dr. Williams' Pink Pills and take nothing else. The genuine are always enclosed in boxes the wrapper around which bears the full trade mark, "Dr. Williams' Pink Pills for Pale People." May be had from all dealers or sent or six boxes for \$2.50 by addressing the post paid on receipt of 50 cents a box Dr. Williams' Medicine Co., Brockville, Ont.

A ROMAN CATHOLIC PRIEST

Father Groulx, of the Archbishop's Palace, Ottawa,
CERTIFIES TO THE VALUE
Of The Remarkable Medicine, Ryckman's Kootenay Cure.

Archbishop's Palace, Ottawa, Canada, Nov. 8, 1895.
Mr. S. S. Ryckman, M. P., Hamilton, Ont.

My Dear Sir,—In order to comply with your request, I visited no less than twenty-six persons of different ages and conditions, residing in our city, who had used the medicine called "Kootenay Cure." Upon my inquiry, some informed me that after suffering atrociously for many years from Rheumatism, under one form or another, they had obtained considerable relief from the above named remedy, and were using it yet with the firm hope and almost certainty that in the near future all the painful effects would disappear. Others told me that they had been cured completely, felt no more pain could digest perfectly, sleep soundly, had regained their lost weight, so much so that they could be said to have been resuscitated and to have been transformed into new men. I met with five cases of Skin Diseases, where the medicine had produced wonderful results, especially in one case of at least nine years standing. In several cases of Rheumatism and Paralysis, eminent physicians, after careful study had pronounced the cases incurable. As Rheumatism is such a common ailment, and as doctors have always such difficulty in overcoming it, I think it is quite proper to make known such a remarkable medicine to poor, suffering humanity. I am pleased to have the occasion of recommending it to the public of the Capital.

Wishing you further success in your undertakings, believe me, sir, Yours respectfully,
(Signed) EUGENE GROULX, Pr.
