

Five tenants on Lord Dufferin's estate near Limerick have been evicted for non-payment of rent.

The pheasants imported into the Province of British Columbia, and which have been carefully preserved for the last two years, have taken to their environment and multiplied in numbers beyond the most sanguine expectations.

The London Daily News publishes a despatch from Constantinople, saying that another massacre of Armenians is reported to have occurred in the vicinity of Diarbekir. It is rumored that more than 500 persons were killed.

A Hamburg young man has just had his sanity proved by the Roentgen rays. He declared ten years ago that he had a bullet in his head which he had fired into it in trying to commit suicide. He complained of the pain, and, as he attacked his keepers and the doctors could find no trace of a wound, was locked up as a dangerous lunatic. The Roentgen rays have now shown the exact place of the bullet.

A Puslinch farmer has lost four horses from cerebral spinal meningitis, and has four more horses suffering from it. The disease principally shows itself by paralysis of the throat, thus rendering the administration of medicine impossible. There is a dulness in the first stage, and the animal will drink very slowly. Then he has intense thirst, but cannot drink. When he gets down he is unable to rise.

The great storm which swept over Minnesota and the Dakotas on Wednesday, Thursday and Friday has resulted in some loss of life and great loss of live stock. Railroading has been entirely abandoned until the storm breaks. Freight trains on the Hastings & Dakota Railroads are in drifts near Gates Station, and the Eureka accommodation is fast at Hill's View. An utterly demoralized condition prevails everywhere.

The outward movement of grain and provisions from Montreal this season is almost every important staple shows a gratifying increase, with the exception of flour, pork and smoked meats. These three show a decrease as compared with the season of 1895, flour being 330,061 barrels less; pork 1742 barrels, and smoked meats 2005 boxes. All the raw cereals show increases, wheat being 3,200,000 odd in excess of 1895; corn, 3,000,000; peas, 2,200,000; oats, 2,300,000; rye 300,000 bushels and apples, 500,000 barrels.

Seven-year-old Nettie Hinkle was attacked by a large bald eagle in the Quakake Valley. Her cries brought Miss Jennie McDowell, aged 16 years, to her assistance. Miss McDowell struck the bird with a stick, when it swooped down on her head and shoulders, tearing the flesh and clothing. The eagle repeated the attack half a dozen times, when the young woman thrust a large steel hat-pin into the big bird's neck and breast and succeeded in killing it. Miss McDowell's face, hands and arms were torn by the eagle's talons.

Eighty hogs were killed at Windsor, Ont., during the past week because of hog cholera.

The cold weather which prevails in the storm swept districts of the North-West killed ten carloads of sheep destined for Chicago at Grand Harbor, Devil's Lake. This November is the coldest known in the North-West for fifteen years. There is great suffering on the stock ranges and thousands of cattle will be killed if the weather continues cold. At Vermillion, S. D., there is hardly a tree left standing and every orchard is ruined.

CORRESPONDENCE.

To the Editor of the Fenelon Falls Gazette.

Sir,— Allow me space in your paper to make reply to a piece from Powles's Corners in the Gazette of Nov. 13th, referring to school matters, in which your correspondent said that "the parent that would keep a boy home from school and would not let him learn his lessons should taste the sweetness of the law." Had he used the plural instead of the singular I should have let the matter pass unnoticed. I had a chat with the teacher and trustee (J. B. Powles), and the matter explained why he was kept home. But through spite and nothing more was that piece written, which tore open the old wound and added a little more wormwood and gall. Had that correspondent a grain of common sense he would never have stooped to writing such trash. It has become an abomination and stinketh in the sight of the people. Why, sir, one of the Lindsay papers has refused to publish any more of his trash. Had that correspondent tasted the sweetness of the law (as he calls it) some years ago instead of an apology for slandering people he would have been a wiser and a better man to-day. Had he mentioned any name he should have tasted the sweetness of the law.

Yours truly,
A RATEPAYER.

DIED.

WANTED...

Men to Engage with us as Salesmen. New season just opening; new style of plate book; more attractive and yet lighter than ever.

ALL SUPPLIES FURNISHED FREE.

We are the only Canadian Nursery paying salary and commission from the start. Liberal commission to part time men. Large list of specialties, all having been tested at our trial orchards. If you want a sure thing for the winter, write us.

STONE & WELLINGTON,
Nurserymen and Fruit Growers,
TORONTO, CANADA.
OVER 700 ACRES IN CULTIVATION.

MISS OR MRS.!

When about to select a hat or bonnet do you ask for a shape of the style of ten or twelve years ago? Do you think if the milliner uses the newest trimmings, and arranges them on it in the latest style, that the effect will be exactly right? There will be something wrong; perhaps some people would not notice it, but you would.

YOU WANT THE LATEST,

especially if it suits your taste and purse. It is all the same when you buy a dress or wrap. The material may be fashionable, the fit good, and the style of making modern, but if it is cut by a chart that has been in use probably since before you wore a dress, you cannot expect it to have that smart, up-to-date appearance so desirable nowadays.

THE WORLD MOVES,

and if improvements are made in all other directions, why not in the art of garment cutting? The DE LA MORTON Tailor System is new, but it is NOT an experiment. It is patented and registered, and has been tested long enough to prove its superiority over others, both new and old. If you want correct style and perfect fit, combined with comfort, give it a fair trial. It will cost you no more than the old-fashioned way. Customers express satisfaction every day.

NEWSPAPER LAW.

1. A postmaster is required to give notice by letter (returning the paper does not answer the law), when a subscriber does not take his paper out of the office and state the reasons for its not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payment.
2. If any person orders his paper discontinued he must pay all arrearages, or the publisher may continue to send it until payment is made, and collect the whole amount, whether it is taken from the office or not. There can be no legal discontinuance until the payment is made.
3. Any person who takes a paper from the post-office, whether directed to his name or another, or whether he has subscribed or not, is responsible for the pay.
4. If a subscriber orders his paper to be stopped at a certain time, and the publisher continues to send, the subscriber is bound to pay for it if he takes it out of the post-office. This proceeds upon the ground that a man must pay for what he uses.
5. The courts have decided that refusing to take newspapers and periodicals from the post-office, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.

The latest postal laws are such that newspaper publishers can arrest any one for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid, and then orders it discontinued, or orders the postmaster to mark it "refused," and have a postal card sent notifying the publishers, lays himself liable to arrest and fine, the same as for theft.
