Don't fail to see the bargains in millinery at Mrs. R. McDougall's.—27.

CIVIC HOLIDAY.—In compliance with a numerous signed requisition, the reeve has appointed Friday next, the 3rd of September, a civic holiday, and upon the same day the Freemasons will run an excursion per steamer *Crandella* to Chemong Park, for particulars of which see posters.

Goods must go within the next ten days, in order to make room for fall stock, at Mrs. R. McDougall's.—27.

ELECTRIC LIGHTS.—The principle streets of the village are now illuminated at night by electricity, and though the lamps are far apart, and being small, give a "dim religious light," the sidewalks between any two of them can be seen quite plainly. No doubt the number of lights will be increased before long, and there ought to be one on Francis street east lower down than at Barr's corner.

A Sunderland lady writes Dr. Neelands that he had made her a successful fit after having eight sets of teeth made in Toronto and elsewhere.—43if

LIVE STOCK.—Yesterday (Thursday) morning Mr. Henry Austin, of the firm of McDougall, Brandon & Austin, went to Toronto with a carload of cattle from Tory Hill station on the Bancroft railway, and a carload of cattle, sheep and hogs from the Falls; and to-morrow morning Mr. Brandon will leave with two carloads of cattle, sheep and hogs for the same market. DISTINGUISHED VISITORS.—At 6.05 p. m. on Tuesday the official passenger train of the Grand Trunk Railway passed through the Falls on its way to Haliburton, and returned at 10.15. On board were the President, Sir Charles Rivers Wilson; General Manager Charles M. Hayes; General Superintendent Mc-

Swigan; Local Superintendent Timm; General Road Master J. R. Cheer and other gentlemen. None of the party alighted at the Falls either going or returning, the train only stopping for a minute or two at the semaphore.

Produce taken in exchange at Mrs. R. McDougall's.—27.

OUR SCHOOLS.—On Monday next, the 30th inst., the village schools will re-open, and it is to be hoped that the pupils, rested, refreshed and invigorated by their long holiday, will go to work with the determination to obtain as creditable a record in the last half year as they did in the first. It is also to be hoped that the teachers will not, in consequence of the reduction of their salaries, be less zealous than hitherto in the performance of their duties, especially as it is possible that the better times likely to ensue from the rise price of wheat may make the reduction only temporary.

Rooms to let in McArthur's Block. Apply at the Gazette Office.

Mr. Robert Meighan, President of the Lake of the Woods Milling Company, estimates the wheat yield of Manitoba at 22,000,000 bushels.

Work is being rapidly pushed on the tunnel which is being cut through Pike's Peak, Colorado. This will be the longest tunnel in the world. The main bore will be twenty miles long, and connecting with this are subsidiary tunnels with a total length of thirty miles. So, in reality, the task that has been put under way is that of digging fifty miles of tunnels, and every foot of this vast system will be under Pike's Peak and the mountains that tower on each side.
