CONSTANTLY EXPOSED TO INCLEMENT WEATHER.

He Falls an Easy Victim to Rheumatism and Kindred Troubles—A Twenty Years' Sufferer Tells How He Found Relief.

From the Richibucto, N. B. Review.

Mr. Wm. Murray, of Cormiersville, N.B., is an old and respected farmer, and a pioneer settler of the thriving little village he now makes his home. While Mr. Murray was yet a young man, he, together with his father and brother, founded one of the best mill properties to be seen in those early days. The mills consisted of a sawmill and gristmill, and were operated and managed by the two brothers. Labor saving appliances being then comparatively unknown, the young men were exposed to dangers and difficulties almost unknown to the present generation. One of the greatest evils in connection with the business was exposure to wet and cold, which though unheeded at the time, have crippled its victims with rheumatism. In a late conversation regarding his disease, Mr. Murray told the following story of his long misery and final cure by the use of Dr. Williams' Pink Pills: "For over twenty years I have been a sufferer from rheumatism. I attribute the cause of the disease to the time when as a young man I worked at our mills. In the winter we would haul logs on the pond where the alternate thaws and frosts of early spring would imbue them in the ice and slush. When the time came for starting up the mill I would go out on the pond sometimes in water up to my knees and work away from morning till night chopping logs out of the slush and ice. I was generally wet from head to foot, and every second night of the week I would, without changing my clothes, stay up and run the mill till daybreak. So you see I was for two days at a time in a suit of partially wet clothes, and this would last till the ice had melted in the pond. After a few years rheumatism fastened itself upon me as a reward for this indiscretion, and ever increasing in its malignity it at last became so bad that for weeks in succession I could only go about with the aid of crutches. At other times I was able to hobble about the house by the aid of two canes, and again at other times it would ease off a little and I was able to do a little work, but could never stand it for more than a couple of hours at a time. The least bit of walking in damp weather would overcome me and I remember one stormy night when I tried to walk from Cocagne Bridge to my home a distance of five miles, that I had to sit down by the roadside six times to ease the terrible pain that had seized my legs. During all those years of agony I think I tried all the patent medicines I could get a hold of, but they did me no good at all. I consulted doctors, but my sufferings remained undiminished. In the fall of 1895 I went to a doctor in Buctouche to see if there were any means by which I might at least be eased of my suffering. The doctor said frankly, "Mr. Murray, you cannot be cured, nothing can cure you." I was not satisfied and then I determined to try Dr. Williams' Pink Pills. I procured half a dozen boxes and began taking them at once. I soon felt a change for the better and after my supply had been finished I got another half dozen boxes and continued taking them according to directions. That dozen boxes was all I took and you see me now. I am alive and smart and can do any kind of work. I did my farming this spring and could follow the plough for days without feeling any rheumatic pains. Yes, Dr. Williams' Pink Pills did me a world of good, and I strongly recommend them for the cure of rheumatism.

Dr. Williams' Pink Pills create new blood, build up the nerves, and thus drive disease from the system. In hundreds of cases they have cured after all other medicines had failed, thus establishing the claim that they are a marvel among the triumphs of modern medical science. The genuine Pink Pills are sold only in boxes bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People." Protect yourself from imposition by refusing any pill that does not bear the registered trade mark around the box.

ROOSTERS DO THE HATCHING.
In one respect the Spanish peasants are ahead of the rest of the world. They have learned to make cocks hatch eggs and look after the chickens, while the hen, being at liberty, can and does lay more eggs than she would if hampered by her maternal duties. The trick is performed in this way: They carefully pluck the feathers off the roosters' under side, and the bare skin is then irritated with nettles until inflammation sets in. The cock soon finds that the pain caused by this cruel process is mitigated by warmth and softness, and this makes him willing and eager, although for purely selfish reasons, to hatch a brood and let the little chicks sit under him.

MONEY FOR TREES.
Few people have any idea of how much money is spent by the municipality of Paris in planting and looking after the trees which line the principal boulevards and avenues of the French capital. The annual report of the superintendent gives the total number of trees planted at \$7,655, each of which represents an initial cost of \$35. The annual expenditure of maintenance is \$52,500.

The Twentieth Century
Enters upon the heritage of a remedy that is sure, safe and painless. Putnam's Painless Corn Extractor never fails, never causes pain nor the slightest discomfort.

HOW RULERS TRAVEL

Precautions Taken for the Safety of the German Emperor and Russian Czar.

The Kaiser of Germany has patrols along all the roads he uses, both highways and railroads. He is always preceded on ordinary roads by guards, who go ahead of him and beat the bushes and look out for any Anarchist who may lie in wait for him.

When the Czar travels along any railway line the road is patrolled for days before by armed guards. They are stationed regularly throughout the entire distance at intervals of 200 yards. Up to this day the train is scheduled to pass they are allowed to take it easy, carrying their rifles meanwhile slung over their shoulders. Six hours before the passage of the imperial train they shoulder their rifles and march briskly up and down the track. An hour before the imperial train passes the guards are required to stand with their backs toward the train and to allow no one to pass within less than one hundred yards of the track until ten minutes after the royal train has passed. Should any one attempt to approach, the guards are directed to approach they have orders to fire with intent to kill!

GERMANS IN ARGENTINA.

The Germans are proving the closest rivals of the British in the development of new foreign industries just at present. In South America particularly their capital and enterprise are making a deep impression. The poorer immigrants to South America are mainly Italians, of whom something like 200,000 a year overflow into the New World; but the capitalists are mainly Germans, and a considerable stream of German emigrants sets that way. It is rather a curious circumstance that the bulk of the Italian emigrants are carried from Italy to South America, as well as from Italy to New York, by German steamers.

DOCTOR'S RUSE.

An envious young lady called a physician for a slight ailment, which she magnified into a serious one. Run, said the doctor to a servant, giving him a prescription, to the nearest chemist and bring back the medicine as quickly as you can. Is there much danger? replied the young lady in alarm. Yes, said the doctor, if your servant is not quick it will be useless. Oh! doctor, shall I die? gasped the patient. There is no danger of that, said the doctor, but you may get well before Thomas returns.

Dangerous Hemorrhages

From the Kidney and Bowels Checked and Cured by KOOTENAY.

Hemorrhages from any of the internal organs is no trivial matter. It is something that is most alarming and calls for prompt action. There is no time for experimenting, as delay is dangerous. The remedy that has proven itself efficacious is the remedy you want. That remedy is Kootenay Cure.

It can cure you as easily as it did Mr. Robert E. Beckerson of the City of Hamilton, Ont., who gives a sworn declaration that for over six years he was a most terrible sufferer from Kidney and Liver trouble.

He had hemorrhages of both the kidneys and bowels, and was in a very bad shape generally, until he began taking Ryckman's Kootenay Cure.

He says:—"I can now speak of it as a great medicine. It acts on the kidneys, builds up the system, and gives strength to the weak and despondent. It gives me much pleasure to recommend Kootenay to all suffering from kidney troubles. My eyesight was very bad, and I had great dizziness at times. I could not sleep at nights, but would lie awake in agony for hours. All this trouble ceased after taking Kootenay Cure, and my eyesight is greatly improved by the use of that medicine.
