SOMETHING ABOUT ANTICOSTI.

It May Become a Bone of Contention Between France and England.

A correspondent of the Times, London, England, contributes the following letter about Anticosti. As this island may rise to the dignity of a bone of contention between France and England, the letter is especially interesting at this time. It says:-

Anticosti is an island about 140 miles long with a maximum width of 30 miles, slanting across the mouth of the River St. Lawrence. Many ships have been wrecked on its shores, which have a most unenviable reputation among mariners. The land is generally swampy or rocky, with numerous small lakes; and the most notable hills are about 600 feet high. The value of the island itself, except for a strip of spruce forest along the north shore, is small. That of its surrounding waters is by no means contemptible, and little groups of fishermen have taken up their residence on its shores.

It is the treatment of these people by the new owner of the island that has given rise to the present discussion. Anticosti, like other territories in Quebec, was granted by the King of France to an assigneur. The French-Canadian seigneurs, it may be remarked, were not in the position of English freehold landlords. Their tenants, who paid nominal rents, were not liable to be evicted at will, and could sell their farms if they paid 8 per cent. of the price to the seigneur. This semi-feudal system was abolished in 1854, the Canadian Parliament voting £500,000 as compensation to the signeurs. Long before that-about the end of the last century, in fact-the seigneurie of Anticosti passed from its French grantees to a Scottish family, the Forsyths, who held it till 1884.

THE ISLAND IS SOLD.

In that year the island was put up for sale under an order of the Quebec courts, and was bought for £20,000 by Mr. F. W. Stockwell, who was joined by his brother in an attempt to develop its resources. In 1888 the island was taken over by a London company, "the Governor and Company of the Island of Anticosti." This enterprise having failed, in the end of 1895 the island was again sold by order of the court. This time the buyer was a rich Frenchman-not a French-Canadian.

This gentleman, M. Menier, not only forbade fur-hunting on the island, but THE REMEDY AND THE DISEASE. attempted to stop the lobster-fishing, in which the inhabitants had been engaged under Government licenses. Many of these inhabitants are English Newfoundlanders - Protestant and Catholic-who came to Anticosti in 1873 on the invitation of Mr. Forsyth, the then proprietor, and have since been engaged not only in the lobster; TO CONSUMPTIVES AND SUFFERbut in the cod and herring fishery, and in hauling iron from submerged wrecks.

TO CONTEST HIS RIGHT.

Two representatives of the fishermen made their way last October with great difficulty to Quebec, having travelled 95 miles in an open boat from Fox Bay to Esquimaux Point. Public subscriptions were raised in Qu bec and Montreal to enable them to contest at law the right of M. Menier to expel them from their homes. This right is claimed by him in a suit instituted by him on September 14 in the Saguenay district, his demand being for the expulsion of the "trespassers" and the demolition of their houses and other buildings. Fortunately, the Provincial Government has now by order-in-Council, resolved to pry the costs of a test case in the Superior Court.

But whatever the law may say and the Government may generously do, human nature revolts at the idea of these poor fishing folk being driven in so masterful a fashion from their bleak island home.

POINTED PARAGRAPHS.

Comparisons are odious when they shadow us. Poets are born, but the waiter girl

Married life is the thing. Why, for instance? Well, you can have the comforts of home then. Are you keeping house? No, but we've got a peach of a boarding house.

COULDN'T SCRATCH.

Little Ruth was looking out of the window at the baker's horse. Mamma, she said, doesn't a horse use two of his legs for hands? Why, no, mamma answered, a horse doesn't need hands as we do. But, mamma, the little girl persisted, I don't see what he does when his nose itches.

How did young Harduppe ever succeed in winning old Rockingham's consent to marry his daughter? The crusty old kermudgeon has driven away a dozen better fellows. I hear that Harduppe took the old man's wheel apart, cleaned it and stored it away for the winter.

My husband, said Mrs. Jimson, is always complaining that I can't cook as well as his mother did. Does your husabnd annoy you in that way? Not at all, replied Mrs. Spiffins. My husband is able to hire a woman to do the cooking at our house.

By the Extraordinary Statement of a Resident.

He Proves the Truth of His Claim-Says Dodd's Kidney Pills Absolutely Cure Diabetes-Gives Facts to Prove Ilis Con-

Paisley, Jan. 2.—This most extraordinary and startling statement was made in public by one of our most widely known and prosperous men of business to-day:

"I walk about protected from the attacks of Diabetes just as securely as a suit of steel would protect me from the stings of a mosquito." "What do you mean?" asked one of

his friends. "I mean that I am as safe from the agonies of Diabetes, so long as I use Dodd's Kidney Pills, as I would be from the sting of a mosquito, if I wore garments made of steel."

"That is quite true," put in another gentleman who was standing close by. "Let me prove it to you by telling you of a case that occurred a few doors

from my own house, in this town. "Mr. James Thompson, who is well known to most of us, suffered from an extreme case of Diabetes for several years. He was so ill he could scarcely move. He tried nearly every remedy in the market, without effect. Noticing an advertisement claiming that Dodd's Kidne y Pills will cure Diabetes, he began using them. Two boxes made he was fully restored to health.

"Now, when Dodd's Kidney Pills cured this case, they will cure any other case of Diabetes. I say this in all sincerity.

"If every person who is afflicted with Kidney Disease would use Dodd's Kidney Pills, they would recover health and strength so quickly and completely that they would hardly know themselves."

Dodd's Kidney Pills cost only fifty cents a box, at all drug stores.

SURE TO TURN UP.

Simpurse - What are you going to do in this outlandish neighborhood? Shortpurse - Waiting for something

Huh! 'there won't anything turn up Yes, there will. My landlord threa-

tens to put me out to-morrow, so I've been hunting for another place. I've just got the refusal of this miserable shanty, and have sent for my wife to come and look at it. The something expect to turn up is her nose when she sees it.

AN EXHIBIT OF GRASSES.

. At the Ballsbridge Horse Show samples were shown of grass lands dressed with Alberts' Thomas-Phosphate Jan. 10th, 1899, Instruction in Chemistry, Min-Powder and that undressed taken from the same field in every case, from the farms of Mr. Flood, of the "Fox & Geese," and Mr. Fergus O'Neill, of Merton, Baldoyle. These samples set forth very strongly the value of the phosphate as a fall top-dress for meadows and pastures. The strong clover growth on the dressed portions was very convincing. It was lengthily reported in "The Farmers' Gazette," of Dublin.

NOTHING IN IT.

Her rosy lips were near to me; To kiss her were the best of jokes, And yet, I did not try, for she. Was just a dummy made for cloaks.
