Sir Henry Irving possesses among his most valued treasures two articles to which peculiar interest attaches. One is a little purse made of green silk thread, with a silver band. It was found in the pocket of Edmund Kean on the death of the latter, and did not contain a single coin. The other article is a silver time-keeper which formerly belonged to Edwin Forrest. The hands point to 30 minutes past five, at which moment the great actor expired and the watch stopped.

MESSRS. C. C. RICHARDS & CO.
Gents.—I have used your MINARD'S LINIMENT in my family and also in my stables for years and consider it the best medicine obtainable.

Yours truly,
ALFRED ROCHAV,
Proprietor Roxton Pond Hotel and Livery Stables.
Roxton Pond, July 4, 01.

The sale of postage stamps in the United Kingdom amounts to £14,500,000 yearly.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address,
F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

In all classes of the community in England the cost of living has increased greatly during the last 12 months.

HOW THE RUSSIANS DO IT.

Most of us think of Russia as a land of snow and ice, and are unaware of the fact that excellent crops are gathered there in the summer season.

In July last a field trial of Binders, Mowers and Reapers was held at Ischigri (Russia) the conduct of which was remarkable for its thoroughness. The details of the inspection and judging were so minute that we publish a few extracts from the official report for the benefit of our farming readers.

The firms invited to compete were Massey-Harris, Deering, Osborne, Plano, Adriance Platt, Walter A. Wood, McCormick, Milwaukee and Johnston.

Plano, Adriance Platt and McCormick did not answer the invitation; the Milwaukee declined to take part because they deemed one month's notice insufficient; Walter A. Wood sent machines but did not participate.

The jury comprised the President of the Agricultural Society, who is also a member of the Provincial Council; a delegate from the Ministry of Agriculture, two members of the Provincial Council, three estate owners, seven district agricultural inspectors, and two agriculturists.

(We refrain from giving the names because they are Russian and very hard to spell.)

The ground was lumpy, and a hill side test was chosen. The crop was very long rye, heavily mixed with weeds and partly laid.

In the Binder trial the machines worked for about 4 1/2 hours. The working of each machine was watched by four judges.

The Massey-Harris Binder did well in cutting the laid grain, but the Binder which had less laid grain to cope with, failed to take it twice running over the rye.

The result of the Binder and other tests was that Massey-Harris Co. were given the Highest Award in each class.

HOW CAUSTIC BURNS.

Take a piece of woollen cloth, or a piece of a blanket, and boil it thoroughly in a strong solution of caustic soda, and you will find the wool will gradually be eaten away, leaving nothing but the skeleton. Women do not realize how "soap substitutes," which are generally surcharged with soda, or how common alkaline soaps destroy their clothing; consequently they, week by week, subject costly fabric to such treatment. The hands also are immersed for hours in such solutions, resulting in eczema, coarse skin, and brittle nails. The caustic soda may loosen the dirt, but it eats away the fabric and ruins the hands. There is no economy in such work. It is so easy for a woman to test the difference between an alkali charged soap and a neutral washing soap, that it is strange that there is room for any but a pure soap on the Canadian market. Sunlight Soap has been tested by chemists and analysts the world over, and its freedom from free alkali or caustic has been demonstrated by the highest medical authorities. Consequently the true saying, "Sunlight Soap reduces expenses." 602.

PERSONAL POINTERS.

Interesting Notes About Some Leading People.

The Mikado of Japan has recently issued a decree allowing a Japanese woman to lead, if she chooses, a single life. Hitherto, if unmarried after a certain age, a husband was selected for her by law.

The fame of a "musical prodigy" sometimes lasts through life. Signor Tito Mattei, the pianist, gave his first concert at the age of six, and when twelve was awarded a gold medal by the Pope for playing at the Vatican.

The house that is being built for Mr. Schwab, the president of the Steel Trust, on Riverside Drive, in New York, will be regal in its magnificence. The tapestries for its interior decoration will alone cost \$50,000; the whole establishment costing something like \$5,000,000.

One of the members for Melbourne in the Victorian Parliament recently elected, Mr. J. A. Boyd, was a A.B. in the British navy. The nearest approach to a parallel in the English Parliament, perhaps, is Mr. Joyce, the member for Limerick, who at the time of his election was a working pilot on the Shannon.

Notwithstanding his years, the King of Sweden and Norway is an athlete of a very high order. No holiday has any charm for him unless he can indulge in plenty of hard exercise. He can walk twenty-five miles in six hours, without turning a hair. Possessed of great strength, His Majesty once stopped a pair of runaway horses on the Riviera and saved the lives of three persons.

Henrik Ibsen, the Norwegian author, loves to keep his hair in disorder. This is said to be his one vanity. He always carries a little toilet case, containing a looking-glass and a comb, which are attached to the lining of his grey hat. He will often remove his hat to look into the mirror to see how his hair is lying. If it is not rough enough to suit his fancy, he uses the comb to give it the requisite tangle.

King Edward enjoys a salary of over \$5,000 a day, and this is by no means so large as many other rulers receive. He gives away a great deal more money privately than anyone imagines, and is often more than generous. He pays for all his boxes at the theatre, and for all his own telegrams, letters, and parcels. His military wardrobe is valued at \$75,000, and the saloon carriage in which he travels on the Continent cost him \$35,000. King Edward has given in public charities \$1,550,000. As Prince of Wales his telegrams and stamps cost him \$3,000 a year.

Seventy years ago Lord Strathcona was an errand boy in a small village in Scotland. He possessed untiring energy, immense self-reliance, and stupendous powers of perseverance. In addition to these qualities he had a constitution like iron. At the age of sixteen he went to Canada, in the days when it took more than a month to cross the Atlantic, and entered the service of the Hudson Bay Company. Later on,

when his fortune was made, he guaranteed, together with his cousin, Lord Mount Stephen, the entire capital of the Canadian Pacific Railway.

IMMENSE PEAT AREAS.

There is, according to a contemporary, a great future for peat as fuel. The most productive area for it is the North of Germany and the adjoining parts of Denmark and Holland. In Friesland there are bogs 1,500 square miles in extent, and Germany has more fuel in peat than in coal. A square mile of bog 10 feet deep contains peat equal in heating power to over 300,000 tons of coal. Ireland has a million acres of large bogs from 10 feet to 30 feet deep.

Lord Brassey has bidden farewell to public life at the comparatively early age of 66, but he has done an immense amount of public work in his time.

It is understood that it is in contemplation to start a memorial to 6,000 colonials who lost their lives in South Africa.

One hundred years ago there were five carriages to each 100 people in England; now there are 17.

DIABETES CURED.

PHYSICIAN AMAZED AT A QUEBEC CASE.

This Hitherto Incurable Disease Has at Last Yielded to Medicine—The Statement of a Man Cured of a Very Bad Case Four Years Ago.

Quebec, Jan. 12.—(Special)—Physicians and others interested in medicine have been very much interested in a remarkable cure which has been made in this city. If the facts are as reported and the gentleman in question has signed a positive statement giving details and all particulars—this case will mark a new era in the treatment of at least one hitherto incurable disease. Some few years ago, Mr. Sam Desrochers, of this city was almost dead with Diabetes. He had been ill for over five years and toward the last the symptoms became so very marked as to leave no doubt in the minds of his physicians as to the nature of the ailment.

He had an unquenchable thirst, his feet were always cold; he had some very acute pains around his kidneys. These and many other symptoms were all present and no one thought for a moment that he could ever recover.

He tried every remedy for Diabetes that he could hear of but all failed to do him any good, and when his hope had almost gone he determined to begin a treatment of Dodd's Kidney Pills.

From the very commencement he began to feel a little better day by day, and as the treatment proceeded the unfavorable symptoms grew less and less till finally he was completely cured, sound and well.

His astonishing recovery created quite a sensation at the time and many wondering inquiries were made by the doctors and others. If he hadn't Diabetes then nobody ever had it, and Diabetes was incurable!—Then how could he be cured by Dodd's Kidney Pills? The cure was only temporary and it would return was what many said.

Now, however, after four years have elapsed Mr. Desrochers stoutly declares that he has not since had the slightest symptom of his old trouble. Every one is convinced that Diabetes is curable and that Dodd's Kidney Pills will cure it.

WONDERFUL GROWTH.

The extraordinary resuscitating power of light received a very curious illustration a few days ago in the silver mines at Laurium. A mine had been abandoned more than 2,000 years, and the seeds of some poppies were found beneath the slag of a species which had disappeared for twenty centuries. The slag being removed, in a short time the entire space was covered with the most gorgeous show of poppies. After their twenty centuries' rest they had bloomed as vigorously as ever without air or a single drop of water.

Minard's Liniment Cures Distemper.

What error in arithmetic does geology teach?—That stones may be quarts (quartz).

AT THE TELEPHONE.

In Stockholm almost every household is "on the telephone," and practically every kind of business is discussed by means of the instrument. This fact has been turned to account by the police authorities in a curious way. The creditors of a business man who had serious doubts of his integrity employed a detective to obtain information about him. The detective "tapped" the telephone wire from a house at which the suspect was staying, and overheard many private conversations. The action of the detective, however, has aroused considerable indignation among the community.

London policemen patrol 2,445 1/2 miles of streets.

Minard's Liniment Cures Coughs in Cows.

The number of visitors to the Carlyle House at Chelsea, London, last year was equal to any of the preceding like periods since 1895, while the United States, as formerly, furnished the largest proportion of pilgrims from outside of Great Britain.

For Over Fifty Years.
AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children with croup, whooping cough, teething, etc. It soothes the child, opens the lungs, relieves all pain, cures wind colic, and is the best remedy for Diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Which are the most contented birds?—Rooks, because they never complain without cause.

Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes.

Coke has increased 200 per cent. in price in five years.

If you are coughing, take Dr. August Koenig's Hamburg Breast Tea.

The street passenger traffic of London gives employment to 50,000 persons.

Minard's Liniment Cures Colds, etc.

A dog ambulance is likely to be established shortly in connection with the British military service. The dogs on the war ambulance are intended, when trained, to find the casualties on a widely scattered battlefield, and so shorten delays in search work.

AN ADMIRABLE FOOD
EPPS'S COCOA
FOR MAINTAINING ROBUST HEALTH
IN COLD CLIMATES.

A number of figures are given of Madame Patti's earnings, and it is believed that she must have made a round million pounds with her wonderful voice. During one single year she netted £70,000. Day after day during one part of her career she made within two or three hours over £1,000.

PERSONAL TO SUBSCRIBERS

WE WILL SEND to every subscriber or reader of this paper a full-sized ONE POUND package of EPPS'S COCOA by mail POSTPAID, sufficient for one month's treatment, to be paid for within one month's time after receipt. If the receiver can truthfully say that its use has done him or her more good than all the drugs and dopes of quacks or good doctors or patent medicines he or she has ever used, READ this over again carefully, and understand that we ask our pay only when it has done you good, and not before. We take all the risk; you have nothing to lose. If it does not benefit you, you pay us nothing. EPPS'S COCOA is a natural hard, adamantine rock-like substance—mineral—OIL—mined from the ground like gold and silver, and requires about twenty years for oxidation. It contains free iron, free sulphur and magnesium, and one package will equal in medicinal strength and curative value 800 gallons of the most powerful, efficacious mineral water, drunk fresh at the springs. It is a geological discovery, to which there is nothing added or taken from. It is the marvel of the century for curing such diseases as Rheumatism, Bright's Disease, Dropsy, Blood Poisoning, Heart Trouble, Catarrh and Throat Affections, Liver, Kidney and Bladder Affections, Stomach and Female Disorders, La Grippe, Malarial Fever, Nervous Prostration and General Debility, as thousands testify, and as no one answering this, writing for a package, will deny after using. Give age, sex, and sex.

This offer will challenge the attention and consideration, and afterward the gratitude of every living person who desires better health, or who suffers from pains, ills and diseases which have defied the medical world and grown worse with age. We care not for your skepticism, but ask only your investigation, and at our expense, regardless of what ill you have, by sending to us for a package. You must not write on a postal card in answer to this, address THEOPH. NOEL, Geologist, Dept. W.O.A., 161 York St., Toronto, Ont.

The Cunard SS. Aurania, very early employed as a transport, and the Allans' Ionian, more recently chartered for Government service in connection with the late war, have left Durban for Bombay, carrying back Indian troops.

Minard's Liniment Cures Euphleria.

Permission to reside in Canada has been given to a large number of Reservists.

Consignments and Correspondence solicited.

It is anticipated among London Scottish Volunteers that the succession to the command of that regiment will fall to Lord Archibald Campbell. Lord Archibald, who is the Duke of Argyll's brother, was at one time captain in the 5th Volunteer Battalion of the Argyll and Sutherland Highlanders.
