"Have you given Mr. Staleight any encouragement?" asked the impatient mother. "No, mamma," replied the confident daughter; "so far I haven't found it necessary."

The most valuable cargo ever carried by a ship-wrecked vessel was that aboard the British frigate "De Brook," lost off Lewis, in 1798. She had aboard jewels and specie worth £2,400,000.

THE REASON OF IT.

So many of our readers are interested in farming matters that we feel justified in occasionally devoting a little space to the question of farm implements.

As is well known, the crops in most parts of Canada last harvest were very heavy; especially was this so in the Canadian Northwest. We are not able to foretell what the next crop will be like. Consequently it is desirable to be prepared for emergencies.

We learn on good authority that the binder which established the best record in Canada last year was the Massey-Harris.

And the reason that it did so magnificently in the heavy grain was that it is equipped with a floating upper elevator. Should a big bunch of grain be carried by the conveyor canvas to the elevators, the upper elevator automatically rises to admit of it passing up freely. There is, therefore, no choking or stopping.

This is a splendid device, specially introduced by the Massey-Harris people, who are to be congratulated on the progressive methods they employ in the manufacture of farming implements.

They are a Canadian concern, too, which makes us the more proud of their success.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

Female Lawyer—"How old are you?" Female Witness—"You know as well as I do that I'm just a week younger than you are, but if necessary—" Female Lawyer (hastily)—"Never mind, it isn't necessary."

Dear Sirs,—I was for seven years a sufferer from Bronchial trouble, and would be so hoarse at times that I could scarcely speak above a whisper. I got no relief from anything till I tried your MINARD'S HONEY BALSAM. Two bottles gave relief and six bottles a complete cure. I would heartily recommend it to anyone suffering from throat or lung trouble.

FACING TYPHOID FEVER.

London Has Reached Limit of Growth With Safety.

What is bound to become one of the greatest problems of the twentieth century has suddenly confronted London, England, in a peculiar form. It consists of one of nature's warnings that the limit has been reached, beyond which it is impossible to crowd a greater population than is now comprised in the world's metropolis.

Dr. Collinridge, the chief medical officer of London, has issued a report in which he announces that all of the Thames fisheries, including the estuary, are contaminated with the bacilli of typhoid fever. His condemnation includes the famous Whitstable oyster beds, where 20 per cent. of the oysters examined were found to be infected. A ban has also been pronounced against white-bait, shrimps, smelts, and cockles.

SEWAGE FIFTY MILES AWAY. Contamination by sewage was found fifty miles away from London

FREE ALKALI.

There are few women in Canada who have not heard of "free alkali," but there are many who do not understand the term. The term is always used in connection with soap. If any think it is meant to convey that it is alkali given free with the soap, then alkali is very dear at the price. But it does not mean that. A soap containing free alkali is a soap in which the alkali is not properly incorporated with the fatty acids used in the making of soap, and such a soap is most injurious to the clothing and hands. Free alkali in soap will burn the nap off wool and the surface of linen, coarsen the skin of the hands, rendering them liable to eczema, make the nails brittle and chip off. Such a soap does not possess thorough cleansing properties. The difference between a soap containing free alkali and a neutral soap is easily tested. Sunlight Soap is a neutral soap, and no one who has once used Sunlight Soap for any time could with satisfaction go back to any of the common laundry soaps on the market. Complaints about the hands and the clothes are unknown where Sunlight Soap is used.

in the drainage outfall, while an even worse state of affairs exists at other points on the English coast, from which shellfish, etc., are supplied to the markets. The infection in these cases was due altogether to bad local sewage.

There have been other fatal warnings since the terrible Winchester banquet, where the eating of oysters, it was claimed, spread death in that neighborhood. These include three deaths from enteric fever in one London family, due to the eating of cockles.

It is not going too far to say that the shellfish trade has already been seriously crippled by the effect of these fatalities, and it will probably be practically destroyed by Dr. Collinridge's report.

The whole matter will have a prominent place in the attention of parliament when it meets next month, but it is difficult to discover any possible escape from the danger.

WATER SUPPLY INADEQUATE.

This, however, is a secondary problem to the more serious one of the London water supply. It is now admitted that while the Thames valley with its contributing streams, including artesian wells, is inadequate for London's vast population, an even ordinary drought produces serious inconvenience as well as sanitary and fire perils. A great aqueduct to Wales at fabulous expense is the only radical solution suggested, but this, however, would render the drainage problem still more serious.

Meantime London continues to grow. Nature has already begun to inflict her penalties, and it will be one of the most interesting features of human history in the next few decades to watch on the banks of the Thames one of the greatest struggles that civilization has ever undertaken.

NO MORE PAIN IN THE BACK

CHAS. GILCHRIST, OF PORT HOPE, CURED BY DODD'S KIDNEY PILLS.

Ex-Fishery Overseer in Splendid Health at Seventy-Four—What He Has to Say of the Matter.

Port Hope, Ont., Feb. 2.—(Special)—Everybody in Port Hope knows Mr. Chas. Gilchrist, for fifteen years Chief of Police, and afterwards Fishery Overseer of the Dominion Government. He is seventy-four years of age now and a healthy man. But he has had his share of suffering. For ten years he was afflicted with Diabetes and Kidney Disorder. Dodd's Kidney Pills cured him.

Speaking of the case recently Mr. Gilchrist said: "I have used Dodd's Kidney Pills for about five years, off and on. When I get a pain in the back and my urine is full of brickdust I take a couple of Dodd's Kidney Pills and I am all right. I generally keep them on hand, for there is no medicine like them."

"When I commenced to take Dodd's Kidney Pills I was in a fearful state. They have made me a new man. I have about one-quarter acre in a garden. I dug and planted it last spring. When I first took Dodd's Kidney Pills I could not have done it to save my life."

"I believe I would have been dead only for Dodd's Kidney Pills." "It cures like this that are giving Dodd's Kidney Pills their popularity."
