"How about the rent of this house of yours, Flitter? Doesn't the landlord ask a good deal for it?" Flitter—"Yes; he often asks five and six times a month for it."

ALL ACIES AND PAINS FROM A SUDDEN COLD.

When this difficulty gets a firm hold it is hard to shake it unless one acts promptly, and uses the right remedies, about which there is no uncertainty. Something that will quickly drive out the cold, restore the blood to its normal condition, banish the aches and pains, and relieve the burning, aching head. There are only two remedies that will do this, and they must be used in conjunction, Dr. August Koenig's Hamburg Breast Tea and Hamburg Drops, both old, tried German remedies, discovered by that great specialist, whose name they bear, more than 60 years ago. The former should be taken hot before going to bed, and the latter according to directions. Follow up the treatment until the cold is fairly broken up, then continue to take the Hamburg Drops for a considerable period, until the blood becomes cool and healthy. The two remedies cost only 75 cents, get them from your druggist at once, have them in the house, and, when you are about it, get a bottle of St. Jacobs Oil. It will always come handy in case of household accidents, sprains, bruises, cuts, burns, scalds, also for rheumatism, neuralgia, lumbago, toothache, stiffness of the joints, and all bodily aches and pains, where an outward application is usually applied.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to anyone. It disinfects and cleans at the same time.

Air guns were first made in Germany in 1656 by Guhr.

WHERE LABOR WAS SWEET.

Not many young ladies in Canada can boast of having cut the entire crop on their father's farm. The two young daughters of Mr. George Wells can do so, however. Mr. Wells' farm is situated one mile south of Wellwood Station on the famous Carberry Plains. He cultivates 320 acres. Owing to scarcity of help, Miss Edie and Miss Emma Wells volunteered to drive their father's Massey-Harris binders through the harvest. As a result of their efforts, Mr. Wells was the first farmer on the Plains to finish cutting. How much of the spirit of Canada and Canadians there is in this! This is the spirit which is steadily bringing our fair nation to the fore. One of Mr. Wells' Massey-Harris binders is six and the other four years old, and Mr. Wells asserts only seventy-five cents' worth of repairs have been put on them up to date, and that the binder first bought is good for five years yet, to say nothing of the younger one.

There are 301 monuments to Bismarck in Germany and other countries in Europe.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

SOMETHING NEW.

Probably the best invention in the agricultural implement world for 1903 is the new oiling device on the Massey-Harris Mower Pitman. A roomy oil chamber is placed in each end of the pitman, and the natural action of the pitman throws the oil up through the oil hole and gives thorough and constant lubrication without waste. The best feature of the device is that the oil chambers are roomy and one filling will last for many hours of cutting. We understand Massey-Harris Company are making a great hit with this new feature, and that it is filling a long-felt want.

BE AMIABLE TO EMPLOYERS.

Many a man with great brain power and fine physique, who started in life with good prospects, has failed to attain great success because of little idiosyncrasies, peculiarities of speech or manner, things not in themselves wrong, but which render him disagreeable to those who have dealings with him. If it were possible for us to write of all the little things which have cut down the average of our success, and to calculate just how much each has contributed to the whole, it would be most helpful. For example, one young man's advancement has been cut down 25 per cent. by bad temper, a surly, disagreeable disposition; another by carelessness in dress, an unkempt or slovenly appearance; and yet another by a sharp tongue or an unkind habit of criticizing. Many a brilliant and capable clerk has failed to advance because he had annoyed his employer, who, while he recognized his ability, preferred a less able man who had amiable and agreeable qualities. The lack of amiability has stood in the way of advancement of many an employe who wondered why he did not get along.
