FARMERS! If you want your Binder Twine to be

GOOD, RELIABLE, CHEAP,

leave your order with

Thos. Robson.

The Fenelon Falls Gazette.

Friday, May 15th, 1903.

Before the Private Bills Committee.

On Wednesday morning of last week a deputation consisting of the members of the village council (except Mr. Martin) and including the clerk and County Commissioners McGee and Dr. Wood, with Solicitors McDiarmid and Hopkins, waited on the Private Bills Committee of the Legislature in the interest of the Sandford Factory By-law and the Mill, Heat and Power Purchase By-law. Mr. Carnegie presented the bill and introduced the deputation. Mr. McDiarmid addressed the Committee on the merits of the bill, and was followed by Mr. Stewart, of Lindsay, who asked that certain changes be made, giving special privileges to the Lindsay Light, Heat and Power Company in the matter of assessment and taxation. Councillor Gould then presented a statement showing the probable income from the mill and lighting plant, and the reasonable expectation that the property, under careful management, would pay for itself without becoming a charge in any way on the village taxpayer direct. Mr. Pattullo, of Oxford, followed with a strong speech opposing the principle of bonusing, and especially the new form of encouragement proposed in the taking of stock in the Sandford Factory; also the taking over of the milling business by the village, included in the power purchase. Mr. Hoyle, the member for Ontario, spoke vigorously in favor of the bill. He said that he knew the conditions of the village well, and contended that every encouragement should be given the village in this final effort to secure some of the benefits nature has provided for the locality in the matter of possible power developed from the falls. The bill was also supported by Mr. St. John, of Toronto. Attorney-General Gibson spoke at considerable length in favor of the general principles of the bill, but could not see that the village should ask a longer term for the repayment of the debentures than the usual thirty years. Mr. Hopkins wished to hold out for the full forty years asked, but on consultation with the representatives of the village present it was agreed to accept without further discussion the reduced term. As a number of members of the Private Bills Committee wished to discuss the whole subject further, the bill was laid over until Thursday morning, when a good deal of close investigation occurred, and the Sandford portion of the bill being changed so that, to conform with the general law, no fixed assessment should be allowed regarding school tax, the Committee assented to the bills with the changes mentioned. Mr. McDiarmid remained to readjust the figures for repayment in the shorter term. The bill is yet to come up for its third reading in the House, but it is not likely that any further changes will be made.

Village Council.

Fenelon Falls, May 4th, 1903
Council met at the call of the reeve; all the members present except Mr. Martin.

Mr. McGee gives notice of a by-law to extend the time for the return of the collector's roll. By-law introduced and read in the usual manner.

Moved by Dr. Gould, seconded by Mr. Austin, That the following accounts be paid, and that the reeve give orders for the same: E. Brock, salary, \$34; meals for tramps, \$1 20; total \$35.20; Martin Kelly, work on streets, \$2 81;

Bell Telephone Co., acc't, 55c.; Thos. Robson, Jackett's water trough, \$37.50; Samuel Corbett, digging grave for Wallace, \$2.00; Thos. Graham, salary for assessing, \$40.00; Times Printing Co., stationery, \$2.40; Clerk, expenses at election, \$26 23.—Carried.

Moved by Dr. Gould, seconded by Mr. McGee, That this council meet as a court of revision on Friday, the 29th of May inst., at 8 p. m.—Carried.

Personals.

Mr. Thomas Leary, of Moore's Falls, was here on Tuesday.

Mr. William Keys, of Lindsay, was at the Falls on Monday.

Dr. C. D. Curry, of Minden, was at the Falls for a few hours on Wednesday. Mr. F. H. Magee went to Peterboro on business on Monday and returned next day.

Mr. Henry Graham, Sr., of Kinmount, was at the Falls from Saturday until Monday.

Mr. Harry Torrance came home on the 6th inst. from Raeboro, and expects to obtain employment in this vicinity.

Mrs. John Finn, of Westwood, was at the Falls, visiting friends, from Tuesday of last week until Saturday.

Mr. and Mrs. C. E. Graham, of Toronto, have become residents of the Falls. They arrived last week, and are occupying the pretty residence on Louisa street sold by Mr. J. J. Nevison to Mr. Graham several months ago.

Mrs. James Dickson and her daughters left, yesterday, for their summer residence at Rosedale, where they will remain until cold weather sets in. Mr. R. A. Robinson has rented their house in town for a few months, and will now be able to bring his family from Toronto.

Powles' Corner.

(Correspondence of the Gazette.)

The trustees of the church here have purchased a new Thomas organ, and the old organ that has been in use for many years will be used in future in the Sunday School room.

Navigation is open again for milk waggons, and also for cream. It commenced the first of this week.

Dr. Mason, of Fenelon Falls, has had occasion to drive out to this locality to treat domestic animals. The doctor does not have to make many trips to the same place, which is an evidence of his great skill.

Mr. D. Thomson is moving Mr. N. Day's "Black Duke" this season.

The Minnesota Legislature has passed a law that no railway company in that state will be allowed to keep engineers and firemen on duty more than 14 hours a day.

Mrs. William Powles is visiting at Fenelon Falls and in Verulam.

Miss R. McKee, of Cobocook, is visiting her sister, Mrs. John Gillis.

Seeding is all done and the root ground is being prepared.

Fell's Station.

(Correspondence of the Gazette.)

"Busy times" is the word that is going the rounds; but I will try and find a few spare minutes to write down a small portion of the news in our vicinity.

Mr. Fred Levely, of Verulam, wheeled out on Sunday, and was calling on old neighbors.

Mr. John Hughes, of Green Mountain Home, has purchased a new high grade wheel.

Miss Ida M. Roberts, who spent the past winter with friends in Toronto, returned home last week, much delighted with her sojourn in the Queen City.

Miss Matilda Truax is the guest of her sister, Mrs. W. Wood.

Mr. James Fell, of Powles' Corners, passed through here last week with quite a large number of ranch cattle.

The raising of Mr. John Wilson's new barn comes off on Wednesday, and a good dance is anticipated.

The roads being good and the weather favorable, there was a good attendance at the Presbyterian church on Sunday, the Rev. Mr. Sinclair conducting the services.

We notice quite a number of wheelers pass by here, especially on Sundays, the roads being in first class condition for that mode of getting around the country.

ENTERTAINMENT.—A musical, literary and dramatic entertainment, in aid of the Public Library, will be given in Twomey's hall on the evening of Thursday, the 21st inst., and as soon as the items of the "bill of fare" shall have been decided upon, posters giving full particulars will be issued.

How One Million is Spent.

Not less than one million dollars is annually spent by people seeking an absolute cure for Catarrh, Bronchitis and Consumption. Numerous are the remedies, but the one standing pre-eminently above all others is Catarrh-ozone. It cures these diseases because it is sure to reach them. Catarrh-ozone is inhaled into the lungs, throat and

nasal passages, and bathes every part of the diseased membrane with its germ-killing, healing vapor. You simply breathe Catarrh-ozone and it cures. Price 25c. and \$1 at druggists, or Polson & Co., King ton, Ont.

BUSINESS NOTICE.—The Bank of British North America give notice that during the summer months they will close daily at 3 o'clock, except on Saturdays, when they will close at 12 o'clock. On Saturday evenings they will open from 7 to 8 o'clock, instead of from 4 to 6. This will come into force on June 1st.

ACCIDENT.—On Tuesday morning Mr. James E. Finley, of Cobocook, met with a painful accident in the sawmill at Burnt River; of which he is one of the proprietors: While "showing shingles," his left hand came into contact with the saw, which lacerated the ends of the second and third fingers so badly that Dr. Graham, to whom he came, found it necessary to amputate the first joint of both.

MOULDERS WANTED.

Accustomed to general work, and who want to learn stove plate. Apply, giving experience, references, etc., to THE GURNEY FOUNDRY CO., LIMITED, Toronto.

RAILWAY SURVEYORS AT WORK.—The Lindsay Post of Tuesday says: "A surveying party comprising ten persons, in charge of Mr. A. N. Bruce, of Ottawa, one of the assistant engineers for the Lindsay, Bobcaygeon & Pontypool Railway, started out to-day to locate the route of the new railway from Lindsay to Barketon. We understand another party will leave to-morrow to locate the route between Lindsay and Bobcaygeon."

THE LIGHTS WENT OUT.—Owing to something going wrong with the wheel at the Syndicate's power house on Tuesday evening, the generation of electricity was suddenly stopped and the lights went out; but a few hours' work set things to rights again. For some time past dark spells have been less frequent than they used to be; but their occasional occurrence, in consequence of mishaps that can be neither foreseen nor prevented, are unavoidable, unless duplicate plants are kept in the lightning factory.

VICTORIA DAY.—Everybody—especially those who live in the country—should bear in mind that Monday, the 25th inst., will be "Victoria Day," and a public holiday. Until further notice, the 24th of May (or the 25th, when the 24th falls upon a Sunday, as it does this year) is to be observed as a holiday in commemoration of the late Queen; and it is not likely that any change will be made for several years, as good Queen Victoria will be long remembered, and there is no better month than May for holiday keeping.

For Gas on the Stomach.

Result of imperfect digestion—pressing up against the heart it excites alarming symptoms. Instant relief is afforded by the use of ten drops of Nerviline in a little sweetened water, half an hour after the meal. Nerviline aids digestion, expels the gas and imparts a sense of comfort. Nerviline is good for a lot of other things besides. Keep it in the house for Rheumatism, Oramps, Neuralgia, Toothache. Druggists sell it.

APPOINTMENT.—We have received an official notice from the Provincial Secretary's office that Mr. Thomas Graham, of Fenelon Falls, has been appointed bailiff of the Second Division Court of the County of Victoria, in the room and stead of Mr. E. C. Edwards, who resigned the position a short time ago. As soon as the usual covenant has been executed, which may be by the end of this week, Mr. Graham will enter upon the duties of the office, for which his business experience and knowledge of the surrounding country and its residents render him well fitted.

WHARF AT SANDY POINT.—Early on Tuesday morning Mr. Robson's little steamer *Dauntless* went down the river with a tow of square timber, to be used in building a wharf at Sandy Point for Mr. Robert Kowloon. The contract was let to Mr. Charles Ley, who tells us that the wharf is to be 72 feet long by 35 foot wide, with a 30-foot "glance," and that it will be 7 feet high along the face. He expects to have it built and sunk (with the assistance, of course, of several men) in about a fortnight, but the work of filling it with stones and earth, beyond what will be enough to sink it, is not part of the contract.

SUCKERS.—The *Bob Ind.* announces the capture of a sucker that weighed four pounds, which sounds so like a "fish story" that we could hardly believe it if we had not seen it in print. But whether these fish are or are not bigger than usual this season, they are certainly not uncommonly numerous; for, on Friday evening last, Mr. John Copp and another man came to town with four grain bags crammed full of them, and Mr. Copp said they had caught them all, with only one net, in the little creek between here and Caygeon. As the men and the fish made a pretty
