### Great Demand for Chickens.

The present time is most favorable for the production, fattening and marketing of farm chickens. There has been such a substantial increase in the consumption of chickens and eggs within the last few years, that it is not possible to rear a greater number of suitable market chickens than can be sold with profit. Last year there were not sufficient chickens sold in Canada to supply the home market; and, as a result of the shortage of chickens, the trade with Great Britain was lessened. This is unfortunate, on account of the great demand for Canadian chickens in Great Britain and the good prices that are paid. The Chief of the Poultry Division, Mr. F. C. Hare, states that numerous letters have been received from produce merchants, poulterers and commission merchants who desire to learn in what localities chickens can be bought in great numbers and at reasonable prices. From several Canadian cities, and especially from Montreal, produce firms have asked to be informed where market chickens suitable for shipping to Great Britain could be obtained in the greatest numbers. British poulterers and commission merchants have repeatedly asked for the same information. A letter from a well established produce house in London, England, was received last week, stating that the firm wished to "start an undertaking for the purpose of importing Canadian poultry to Great Britain." They desired information as to the probable success of such a project, and the possibility of obtaining poultry, (especially fowls), in large quantities, and the best districts for collecting them, etc. Last fall a firm in Cape Colony wished a poultry trade developed with that colony; and one shipment of Canadian chickens was made to Cape Colony, which arrived in a satisfactory condition and pleased the trade. Merchants in Great Britain, Africa, the United States and even Australia are looking to a supply of Canadian chickens to satisfy their growing trade.

The problem of supplying this wonderfully increased demand for chickens can be solved by the farmers alone. Instead of the farmer rearing fifty or one hundred chickens that receive little attention or feed, he should rear from 200 to 1,000 chickens annually; and they should be of a utility type, such as can be found in those popular breeds the Plymouth Rocks and Wyandottes. The chickens should be hatched in incubators and reared in brooders; and when ready for market the cockerels should be placed in fattening crates and fatted. The equipment required to do this work is not an expensive one: \$200 to \$250 is the cost of incubators, brooders, houses and fattening crates for finishing 1,000 chicks. It is as necessary for realizing the greatest profits from the poultry business as threshing and mowing is for general farming. The work connected with finishing 1,000 chickens with the proper appliances is no more than is necessary for rearing 200 chickens by the natural means. Poultry farming is a business that requires to be developed in the same manner as the butter, cheese and fruit branches. A sub-

stantial profit can be made from the poultry business when it is carried on as an adjunct to farming, and with the same careful attention and financing. The Dominion Department of Agriculture is endeavoring to increase the poultry trade of Canada, to encourage the growing of the greatest number of high class chickens, and to assist in the marketing of them. A revised edition of the bulletin "Profitable Poultry Farming" has just been issued, and will be mailed without charge on application to the Commissioner of Agriculture and Dairying, Ottawa. The information it contains is of great value in the poultry work, and it should be in the hands of every interested poultryman in Canada.

Mr. Austin gives notice of a by-law to provide for the election of commissioners for Water, Light and Power

business.

By-law introduced and read a first time; and, having been read a second time, in committee of the whole, without amendment, Mr. McGee in the chair, was read a third time and passed. The council then adjourned.

### Personals.

Mr. Charles Babbit left on Monday for Ottawa.

Miss McDonald spent Sunday with her friend, Miss Greta Smith.

Miss Phrona Haskill visited Miss Dora Dickson at Rosedale on Sunday.

Miss Ida Thurston, of Lindsay, was at the Falls on Sunday, visiting Mrs. F. H. Magee.

Mr. and Mrs. W. M. Mitchell left on Tuesday to spend the midsummer holidays at Hamilton.

Miss Ethel Kelly, of Toronto, is at the Falls, visiting her grand parents, Mr. and Mrs. John Quibell.

Mr. Harry Robson returned home on the 18th inst. from a fortnight's visit to friends at Toronto, Palmerston and Ottawa.

Rev. Mr. Farncomb, of Newcastle, was in town from Wednesday until this morning, the guest of Mr. Thomas Cashore.

Miss Eliza Welsh, of Rochester, N. Y., has been at the Falls since Friday last, visiting her uncle, Mr. Fred Cullon, and other relatives.

Mr. and Mrs. Chas. J. Smith and Miss Greta returned home on Saturday, after spending a most enjoyable week in camp on the shore of Balsam Lake.

Mrs. J. Wilson, of Islay, spent Sunday at Mr. Thomas Cashore's, and on Monday morning Mr. Cashore drove her to Mr. Seymour's, at Bobcaygeon.

Mrs. F. McDougall and Mrs. A. Wilson attended the commencement exercises of the Ontario Ladies' College, Whitby, on Monday, and returned on Wednesday.

Mr. E. Mosgrove, of Kirkfield, and Mr. Birchard, of Cobocok, were at the Falls this week, conducting the Entrance and Leaving examinations in the public schools.

### Powles' Corner.

(Correspondence of the Gazette.)

On Friday evening, the 26th, there will be a social in the school yard, of the same nature as a lawn social. There are three or four conveniences in having a social in the school yard. It is a central point; it is close to the driving shed; and if any one should have a desire to stay late, no one will be annoyed if they stay right in the yard. No pains will be spared to make this an enjoyable evening. Proceeds in aid of church fund.

Mr. W. Gainer and Mr. O. Lethang, of Ballyduff, spent Sunday last at Mr. M. Herron's.

Mr. J. J. Bates, of Cameron, was calling on old friends the first of week.

Mr. Herb Keown, of Glenora, was looking up old friends here last Sunday. There seems to be great attraction on the lake shore for some of the Cameron boys.

Some of our farmers have already cut some clover. It is a very nice crop, but not so long as last year.

Mr. W. A. Gillis spent a few days visiting at Peterborough and Omemece.

The farmers can breathe more freely now since the dry weather came to an end. The crops in this locality are looking good, and at present the prospects are bright for the farmers.

**EYE SPECIALIST.**—Prof. J. H. DeSilberg, the celebrated eye specialist, will be at the Mansion House, Fenelon Falls, from Wednesday afternoon, July 15th, until Friday afternoon, July 17th. See advertisement in another column.

**Sea Sickness, Nausea,** and maladies of this type yield quickly to the almost magical power of Nerviline, and if you suffer periodically from any of these troubles, just keep Nerviline at hand. A few drops in sweetened water will give almost instant relief, and in the course of half an hour the cure is complete. Your money back if it is not so.

**A BLACK WOODCHUCK.**—On Friday last Mr. George Metcalfe, of Verulam, dug out of its hole and captured a jet black woodchuck, or "ground hog," which on the following day was tame enough to take food from his hand. It is a female, and Mr. Metcalfe hopes that there will be at least one of its own color amongst the young ones which he says it will soon have.

**MORE HONORS.**—Miss Lillian G. Wilson has returned from the Ontario Ladies' College, Whitby, having completed her course in piano. She is now a graduate in vocal and piano of both that institution and the Toronto Conservatory, and is entitled to write after her name "A. T. C. M. (vocal) A. T. C. M. (piano)." She has again obtained the gold medal presented by Hon. Geo. A. Cox for the highest graduate in piano.
