Government Works.

The new wharf, work upon which was commenced about a month ago, is finished, and the bill at the foot of which it is situated has been nicely levelled from side to side and its steepness materially reduced. The latter work kept nearly a dozen men and two teams busy for several days, and during its progress about forty charges of dynamite had to be fired off to break and loosen the rock. On Monday an unusually heavy charge was put into a hole drilled for the purpose, and a short log was laid over it to prevent the "product" of the explosion from flying too far; but the log was thrown high up into the air, and, alighting on the steamer *Alexandra*, which was in the lower lock, broke two or three planks in her upper deck. The new wharf is 180 feet long by about 14 feet wide, and, we need hardly say, is a vast improvement upon the old one. The part of the wall, or face, built of cement, is four and a half feet high, five feet wide at the bottom and four feet at the top, and goes down to below the level of the water, which is now lower than it has been within twenty years. Below the cement work are the timbers of the old wharf, which are as sound as when it was built, we don't know how many years ago. The area behind the wall is of broken stone, covered with gravel, and along the top of the wall are six iron snubbing posts, sunk to a depth of eighteen inches and securely fastened. In the construction of the wall there were used 133 barrels of cement, 110 yards of sand and 40 of gravel. The result of their labor is highly creditable to the superintendent, Mr. Peter Grant of Bobcaygeon, and his staff of assistants. The "casing" used while the wall was being built has been taken to pieces and neatly piled above the locks, where it will remain until further use for it arises. As soon as navigation closes, the work of repairing the lock gates will commence, and will, Mr. Grant thinks, keep several men busy for nearly or quite three months. The gates, of which there are six, have been in use about eighteen years, and the upper parts are so decayed that they will all have to be partly rebuilt; and five pairs of new valves will have to be put in, all but one pair being (unless we are mistaken) as old as the gates. No person who has not carefully examined and mentally "hefted" the gates has an idea of the quantity of material in them and the amount of money they cost; but they will have to be rebuilt, regardless of expense, and will give employment to some of our skilled mechanics during part of the coming winter.

Hymeneal.

We copy the following from the *Exeter, England, Western Times* of Sept. 19th:

"The wedding of Miss Edith Glanville, daughter of Mr. and Mrs. R. E. Glanville, of Linstead, and Mr. Bennet L'Estrange Burges, son of the late Rev. R. Bennet Burges, of St. Paul's, Birmingham, took place at St. Philip's church, Birmingham, on Wednesday. The Bishop of Coventry, who officiated at the nuptials, had the assistance of the Rev. Owen F. Glanville (uncle of the bride) and the Rev. D. F. McCready (Curate of St. Philip's). The bride, who has for seven years been the Matron of the Royal Orthopaedic and Spinal Hospital, Birmingham, was a very popular lady, and held in high esteem by the Committee of the Hospital, the nursing staff and the patients. The presents, numbering over 150, included an illuminated address and a cheque from the committee of the hospital, a breakfast service from the nursing staff

and a gift from the patients. After the ceremony Mr. and Mrs. Glanville held a reception at the Royal Orthopaedic Hospital. The happy pair are spending their honeymoon at Bournemouth." The bride is a native of Fenelon township, and a grand-daughter of the late George Swanton.

The residence of Mr. and Mrs. W. H. Manning, Coldwater, was the scene of a very pretty wedding on Wednesday, the 7th inst., when their daughter, Miss Oda E. was married to Mr. F. J. Aldous of Fenelon Falls. The ceremony was conducted by the Rev. A. T. Ingram in the presence of a large number of intimate friends and relatives. The house was prettily decorated. The Wedding March was played by Miss Eva Archer of Uxbridge. The bride, who was given away by her father, looked very pretty in a handsome white gown, the skirt being trimmed with roses and ribbon. The bodice was beautifully embroidered with applique and point lace. The bride carried a bouquet of white roses. Miss Laura Manning, a sister, was bridesmaid, and was prettily attired in a gown of pale blue crepe de chene, and carried a bouquet of white roses. Mr. Percy Aldous, brother of groom, was groomsmen. The guests, to the number of seventy, sat down to a dejeuner served in a large tent on the lawn. Mr. and Mrs. Aldous left for Toronto, Niagara Falls, Buffalo and other points. The bride's travelling suit was a tailor-made gown of black and snowflake tweed, with a waist of pale blue silk and hat to match. Mr. and Mrs. Aldous will take up their residence at Fenelon Falls on their return. —Globe.

Village Council.

Fenelon Falls, Sept. 23th, 1903.

Council met at call of reeve, all the members present. Minutes of previous meeting read and approved. Moved by Mr. Robson, seconded by Mr. Austin, that the clerk be instructed to write the A. R. Williams Co. that we have not yet received full amount of their shipment and are unable to test pump; therefore the corporation will not accept their draft at present.—C'd.

Fenelon Falls, Oct. 7th, 1903.

Council met at regular meeting, all the members present except Mr. Austin. Minutes of previous meeting read and approved.

Moved by Mr. McGee, seconded by Mr. Deyman, that the reeve sign orders for the following accounts: Star, printing, \$46 82; Gazette, do., \$7.50; Pat Cook, work on streets, \$13 15; Rath bun Co., lumber account, \$61 54; Foster Kelly, supplies for pump, \$13.10; H. Robson, disinfectants, \$2; F. Bell, work on streets, \$38 44; P. Northey, work on crossings, \$2; E. Brock, salary, \$35.75; Geo. Jackett, work on streets, \$20.90; Light and Power Com'rs, lighting \$21.09; G. Quibell, work on market square house, \$19 60; M. Burley, work on streets, \$9 38; T. Scott, work on streets, \$3 50; F. Jack, work on pump, \$9; W. L. Robson, freight on cement, \$3; J. Jones, work on pump, \$2; Bell Telephone Co., account, 70c; Clerk, 3 months' salary, \$18.75.—Carried.

Mr. Austin voted against G. Quibell's item being passed, work being done on house occupied by G. H. McGee.

Moved by Mr. Deyman, seconded by Mr. Austin, that the clerk be instructed to render account in full to the Board of Water, Light and Power Commissioners.—Carried.

School Report.

Report of Room II, north ward:

Senior fourth class; subject Grammar; value 100. Kathleen Junkin 94, Uber Shane 61, Marjory Austin 57, Ella Pearce 51, Ted Calder 49, Barkley Mason 49, Sandy Warren 48, May Marshall 47, Vera Sharpe 45, Phyllis Nevison 40, Willie Shane 32, Winnie Maybee 31, Gordon Adams 0, Willie Church 0, Vina Church 0, Pearl Littleton 0, Roy Knox 0.

Junior fourth class; subject Grammar, value 100. Genevieve Twomey 75, Maggie Wilson 67, Lithgow Robson 66, Maule McKillen 66, Percy Puley 60, Maggie Scott 63, Fred Keast 0.

Personals.

Miss Ella Austin is home from Kinmount.

Mr. J. W. Wallace, of Lindsay, was at the Falls on Wednesday.

Mr. William Waffels, of Cobocouk, was at the Falls on Saturday.

Col Sam Hughes was at the Falls for a few hours on Saturday last.

Mr. George Rutherford, of Rosseau, was at the Falls from Saturday until Tuesday.

Mr. Charles E. Hand, who has been home since June, returned to Toronto yesterday morning.

Mr. Nicholas Thompson, of Washago,

father of Mrs. Fred Cullon, was at the Falls from Wednesday until Thursday.

Mr. Henry Pearce's son, Leo, returned on Saturday from Peterborough, where he has been employed for the past three months, and will probably remain at home during the winter.

Mrs. Charles Moore and son Arthur are visiting at Mr. Wm. Hamilton's and Mr. Wm. Armstrong's, at Severn Bridge, and will remain for about two weeks. On their departure they will make their future home at Annprior, where Mr. Moore is engaged as clerk for DeCaw & Son, formerly of Fenelon Falls.

Dundas & Flavell Bros. want your surplus Poultry, and will take them alive or properly dressed. Your local merchant will give you prices and particulars. —2-6.

WATCHES AND JEWELLERY.—Mr. I. Whitesmith, watchmaker and jeweller, will be at Mr. C. Curtis's store on Oct. 21st and 22nd, afternoon and evening, with a choice selection of ladies' and gents' watches, chains, etc. Remember his three "rights"—right goods, right prices and a guarantee that is all right.

Thinner Than a Rail.

Spending every day as much energy as you make, and if the balance goes a little further, well, you get thinner. Not wise to go that way longer. Better use Ferrozone; you will digest more—a little gain the first week, but the gain keeps growing. Not quite so thin! Keep right on, only don't use Ferrozone too long, or you will get too fat. Then your blood will be rich, your heart strong; you won't puff so much. You won't get tired quickly. Fat, blood, strength, you have them all with Ferrozone. Sold by W. H. Robson.

DON'T MISS THIS ONE.—What promises to be the best entertainment of the season will be held in Twomey's hall on the evening of Tuesday, the 20th inst., when Mr. Frank B. Conklin, New York City's most popular entertainer and dramatic reader, will appear under the auspices of St. James' church. Mr. Conklin was the artist chosen to entertain at the banquet given to President McKinley at the Waldorf-Astoria, and his press notices and personal testimonials are very strong. See large posters and folders. Admission 25c., reserved seats 35c. The plan of the hall is now open at Robson's drug store. Secure your seats early.

Nerviline's Magic Power Over Pain.

Magical because it is potent—a concentration of the most soothing and pain subduing remedies known to the medical world. Nerviline is simply out of comparison with any other remedy. Thousands who have used it can testify to this. Nerviline is an infallible remedy for Cramps, Colds, Rheumatism, Pain in the Back—pains internal and pains external. Druggists sell it everywhere. Sold by W. H. Robson.

ANOTHER HORSE DEAD.—In our

last issue we recorded the somewhat sudden death of a valuable horse owned by Mr. Thos. Roberts, and now we are called upon to chronicle the still more expeditious demise of Mr. Fred Wallace's grey mare. He took her out to deliver milk on Sunday morning, and at first she appeared to be in good health, but after a time showed signs of being ill, and died about two hours later, though Dr. Mason did all he could to save her. She was seventeen years old, but sound and useful, and Mr. Wallace could have sold her for a good deal more than he gave for her a couple of years ago. The cause of her death was, presumably, inflammation of the bowels, which generally proves fatal in a short time.

Perfect Cure for Bronchitis.

This disease can be treated only by a remedy carried to the affected parts along with the air breathed, for nature intended these organs for the passage of air alone, and sprays, atomizers and internal remedies utterly fail. But Catarrhazone doesn't fail, for it goes wherever the air doesn't go, and its healing antiseptic vapor is sure to reach every affected part. Catarrhazone is inhaled at the mouth, and, after passing through every air cell of the breathing organs, is slowly exhaled through the nostrils. Catarrhazone protects and heals the inflamed surfaces, relieves congestion, allays inflammation, and perfectly cures all bronchial affections. Price \$1, small size 25c. Druggists or Polson Co., Kingston, Ont. Sold by W. H. Robson.

LONG MAY IT LAST.—We are having

delightful weather for the time of year, and everybody is hoping that it will last for a month or two; though, of course, a change for the worse may come any day. There is no foretelling when winter will set in. We remember a Christmas Day, forty or more years ago, when cows were grazing along the sides of Kent street, Lindsay; and in 1869 there was sleeting on the 11th of October. The young folks are naturally impatient for skating, and are disappointed if there is no sleighing at Christmas; but a good long spell of fine mild weather before Santa Claus comes is very desirable, not only because it makes the winter seem shorter, but because it saves fuel, the price of which has—in this village, at any rate—advanced by "leaps and bounds" during the past two or three years.
