Suggestions to Help the Busy Father and Mother.

In some foreign lands the baby's name is chosen in strange ways. The poor little Chinese girls are thought of so little importance that they rarely get a name at all as infants, but are called No. 1; 2, 3, or whatever their place in the list of daughters may be.

Chinese boys are given a name by which they are called till they attain the age of 20; then their father gives them a new name

Japanese girls have pretty names, usually those of some flower, "Mimosa," "Chrysanthemum," "Cherry Blossom,' and in some parts of the country the little Japs do not re reive a name till they are five years pld, when their father chooses one for them

Hindor babies are named when they are about twelve days old, and it is usually the mother who chooses the name. They, too, are fond of pretty flower names for their little girls. of choosing a baby's name.

He Had Kidney Troubles That Threatened to Disable Him Per-Completely.

Galt, Ont., Jan. 11-(Special) .-Mr. Frank Cromwell, the well-known recently to fill an important theatrical engagement in Chicago, at one stage of his career had few hopes indeed of ever again appearing on the wire. In relating that experience, he said:

"I had been troubled with Kidneys, I had a severe backache and my limbs were swollen. I used several medicines, but none did me any good, and I had given up all hope of getting well.

"One day a Dodd's Magazine was left at my house and I read it carefully and my case was there. bought Dodd's Kidney Pills and began to use them. Before I had fin-Ished one box I got relief and four boxes of Dodd's Kidney Pills cured

An extraordinary experience befel the mail steamer Nord, of the Calais and Dover service, while crossing the English Channel recently. The searchlight of the steamer was being used, when the man on watch in the bows noticed a peculiar agitation of the sea just ahead. The cause proved to be an immense shoal of herrings swarming down Channel. The mail steamer ploughed her way right through the shoal, churning up and killing thousands of the fish with her great paddle wheels. The Young Sprawley-"Oh, I know that shoal was so thick that it affected the progress of the steamer.
