

FARM ARRANGEMENTS.

One of the most important problems that presents itself to the farmer is how to put his occupation on a good practical, business basis. Just as many business men have made fortunes by introducing labor-saving methods and by utilizing what was once thrown away as waste so the farmer can greatly increase the profits of his business by utilizing all wastes and by the introduction of labor-saving methods, writes Mr. by such people is a health-renewing, C. A. Willson.

through lack of proper arrangement ness to the eye, a healthy appetite, of the farm. A great deal of thought and a clear skin free from pimples is oftentimes given to the planning of and eruptions. the future house or barns, but not always to the plan of the farm. Al- can do this so effectively and though we see many farms that have thoroughly as Dr. Williams Pink very neat fences, and show in a general way the progressiveness of the owner, yet almost invariably they are so planned that the lanes pass down the centre line of the farm with almost perfectly square fields lying on each side. A square field is the most unpractical form of a field there is because of the large number of turns that have to be made when the field is plowed, harvested or the hay taken off. In plowing or reaping a field, the number of rounds increases as the distance from the centre to the sides becomes greater.

There are at least three things to be considered in planning a farm: First, the general shape of the farm; and, third, the rotation of crops to must get the genuine, with the full possible to make the arrangement Pale People" on the wrapper around tience. that we most desire because of the each box. Sold by medicine dealers but where it is possible the fields or six boxes for \$2.50 by writing should not be square, but made as the Dr. Williams Medicine Co., long as is gractical, and with their Brockville, Ont. openings as near to the barn as is possible.

I submit herewith plans for a 160acre farm. While not exactly suited for all farms yet the general idea may ning of the buildings and yards should never be placed at one end ture, and a permanent wood lot. be considered as well.

offers the advantages for making the rounds or 1,028 more turns to plow home surroundings beautiful as that the field round and round, or it would width of row; join handles to centre of the farmer except perhaps among require 43 more rounds or 172 more piece and brace handles; rustic mountain scenery. A SPRING MESSAGE.

All Who Are Weak, Easily Tired and out of Sorts.

Spring should be the most joyous season of the year. It is the harbinger of sunsnine, and birds and flowers; it breathes of freedom and out-of-door life. But unfortunately there are thousands who cannot enter into the spirit of the season. Close confinement during the long winter months has left them weak, is fickle; the blood is sluggish with of health; weariness and lassitude have taken the place of vigorous energy. What is needed at this season blood-making tonic—something that One of the most frequent losses that | will send new, rich red blood cours-

In all the world there is nothing Pills. Every dose creates new blood, strengthens the nerves, and up-builds the whole body. Here is a bit of strong proof, given by Mr. John Burke, of Elmsdale, P. E. I., who says :- "I was left an almost hopeless wreck by an attack of pneumonia, my nerves were almost paralyzed and though under the care of an excellent doctor I found I was not regaining my health. My wife urged me to try Dr. Williams' Pink Pills. and I have reason to be thankful I used for bedding. took her advice, for under this musty or damaged in any way will treatment my system has been built make more beef when used for bedup and I am again well and strong." ding than when eat up and forced on

FATTENING CATTLE.

A mixture of grain will always give better results than any single variety fed alone. If any peas are to be fed it is good practice to keep them until the close of the feeding period. When cattle are put on a heavy ration of grain they will make rapid gains for a time, probably for two months, and then they seem to come to a standstill and make little or no improvement. A number of them go off their feed and the feeder gets himself into all sorts of trouble. The dispirted and oppressed; the appetite point, to be determined is not the amount of grain that we can get an impurities; the eyes lack the lustre animal to consume, but the amount he is able to digest and assimilate.

One of the rules of waking is to exert every muscle of the body alternately, first the arms, then the legs, then all the other muscles. Go through with all the muscular contortions, while you stretch, and you will find yourself rested thereby.

### SHARKS IN EUROPE.

The disagreeable fact has to be faced, according to the concurrent testimony of fishermen of several nations, that the shark has once more to be reckoned with in European waters. In the Baltic, where sharks had been extinct since 1759, they have made their reappearance in considerable numbers, and several fishing boats report having had whole draughts of fish devoured from the nets, which were broken in the Belt and the Cattegat. A fisherman who fell overboard narrowly escaped with his life. Shoals of sharks, some of them of large size, have been seen off the German coast, and they are even reported as becoming far from rare in the North Sea. Their presence is attributed to their pursuit of the herring shoals on the west coast of Norway.

"Have you nothing else?" inquired Mrs. Schoppen, who was looking at half-hose for her husband. "No, ma'am," replied the shopman. "I've shown you every pair in stock." "Are you sure," she persisted, leaning over the counter, "there are there I haven't "Yes'm." stammered the shopman, "except-er-the pair I'm wearing."

How One Woman Quit Medicine.

"While a coffee user my stomach troubled me for years" says a lady of Columbus, O., "and I had to take medicine all the time. I had what I thought was the best stomach medicine I could get, had to keep getting it filled all the time at 40 cents a bottle. I did not know what the cause of my trouble was, but just dragged along from day to day suffering and taking medicine all the

"About six months ago I quit tea and coffee and began drinking Postum and I have not had my prescription filled since, which is a great surprise to me for it proves that coffee was the cause of all my trouble, although I never suspected it.

"When my friends ask me how 1 feel since I have been taking Postum I say, "To tell the truth I don't feel at all only that I get hungry and eat everything I want and lots of it and it naver hurts me, and I am happy and well and contented all the time.

"I could not get my family to drink Postum for a while until I mixed it in a little coffee and kept on reducing the amount of coffee until I got it all Postum. Now they all like it and they never belch it up like coffee.

"We all know that Postum is a sunshine maker. I find it helps one greatly for we do not have to think of aches and pains all the time, and can use our minds for other things." Name given by Postum Co., Battle Creek, Mich.
