

## THEY MADE THIS COUPLE HAPPY

**DODD'S KIDNEY PILLS DOING GOOD WORK AROUND PORT ARTHUR.**

Mr. Dick Souvey and Wife Both Had Kidney Troubles, and the Great Canadian Kidney Remedy Cured Them.

Port Arthur, Ont., May 8.—(Special).—That Dodd's Kidney Pills cure the kidney ills of men and women alike has been proved time and again in this neighborhood, but it is only occasionally they get a chance to do double work in the same house. This has happened in the case of Mr. and Mrs. Dick Souvey a farmer and his wife, living about seven miles from here. In an interview Mr. Souvey said:

"My wife and myself have used Dodd's Kidney Pills, and have found them a big benefit to our health. We had La Grippe two winters and were exposed to much frost and cold. Our sleep was broken on account of urinary troubles and pain in the kidneys. We each took six boxes of Dodd's Kidney Pills and now enjoy good health."

## CHILDREN OF THE CZAR.

English Nurse Tells of Their Life in the Palace.

The children of the Czar and the domestic side of the Russian Court are minutely described in a recent number of "Leisure Hour" by Miss Eager, a lady who, in 1898, was chosen by the Czarina to take charge of the little Grand Duchesses.

The nurse spent six weeks in all at the Russian Court, during which time she had unequalled opportunities for observing the inner side of life in the Winter Palace.

Some idea of the size and splendor of this wonderful building may be gathered from the fact that in one of the rooms a "mountain," down which the children toboggan has been erected. The great white ball-room holds 5,000 guests as well as leaving space for musicians and dancers.

Another room has eight pairs of doors of tortoiseshell which are embellished with gold. At the end of the state rooms there is the theatre, where the royal children sit for hours watching the attendants manipulate the drop scenes and turn on the various colored lights for their entertainment.

The Grand Duchess Marie was born some time after the arrival of the nurse, who believes the little Princess came into the world "with the very smallest trace of original sin."

"From her earliest age Marie's love for her father has been most marked. When she was barely able to toddle she would always escape from the nurseries to go to him, and whenever she saw him in the garden or park she would call after him. If he heard or saw her he always waited for her and would carry her a little.

"When he was ill in his room she sat on the nursery floor listening. If she heard his voice she would stretch out her little arms and call: 'Papa, papa!' and her rapture when she was allowed to see him was great.

## HOW TO ROLL AN UMBRELLA.

How many men know how to roll an umbrella so that it will look as neat and compact as when it leaves the store? Not many of those you meet have the secret. Nearly every one who rolls an umbrella takes hold of it by the handle and keeps twisting the stick with one hand and folds and rolls with the other hand. The proper way is to take hold of the umbrella just above the points of the cover ribs; these points naturally are even around the stick. Keep hold of these, pressing them closely against the stick, and then roll up the cover. Holding the ribs prevents them from getting either twisted out of place or bent out of shape. Then the silk will fold evenly and roll smooth and as close as the first time unfolded.

He—"Clarice, you know I have always thought a great deal of you, and I have flattered myself you think not unfavorably of me. May I—will you be my wife?" She—"What a start you gave me, Harry! Do you know, I thought you were going to ask me to lend you some money."

## NAVY DRESS REFORM.

Sailors Will No Longer Make Their Own Clothes.

It is understood in British naval circles that Admiral Sir John Fisher is about to introduce a reform in the matter of clothing that is probably only the preliminary step toward the abolition of what has long been one of Jack's most burdensome grievances, says the London Chronicle.

So far the men's clothing has been provided almost entirely at their own cost upon a plan that was explained the other day by an official at the Marine and Naval Clothing Store Department, Deptford.

"To begin with," he said, "the proposed reform will apply only to trousers. Under the present regulations, whenever necessary the cloth is issued to the men, who have either to make it up themselves or pay another man for the work. That in itself, of course, is hard enough. When one remembers that the army is clothed at the expense of the nation, it seems rather ridiculous that the cost of naval clothing should have to be deducted from the men's pay.

"But that is not the worst of it. Although there is a regulation pattern, such a detail as the width of the 'bell' of a man's trousers is entirely a matter depending upon the taste of individual captains. One officer may prefer that the trousers should be narrow. The result is that a man transferred to that vessel may have to supply himself with new 'logs,' simply for the sake of a faddy officer. And the system results in still greater hardship when you remember that even name ribbons may have to be changed perhaps two or three times in a month—transfers are sometimes as frequent—a serious matter, considering that each ribbon costs 10d., though the man might buy it in the shops at Portsmouth for 4d.

"I don't know that under Admiral Fisher's scheme there will be any radical change in the uniforms. The trousers will all be the same width, and transfer to another ship will therefore involve no alteration."

Nothing has been heard of the proposed change in any of the army clothing departments, and it is therefore believed that the work will be placed in the hands of contractors.

As the matter stands at present, the men will still have to pay for their uniforms. But the new regulation will undoubtedly be a great saving to the men. The uniform is also to be designed on more "handy" lines, and will therefore be more tight-fitting than the style at present in vogue.

**The President a Slave to Catarrh**—D. T. Sample, president of Sample's Instalment Company, Washington, Pa., writes: "For years I was afflicted with Chronic Catarrh. Remedies and treatment by specialists only gave me temporary relief until I was induced to use Dr. Agnew's Catarrhal Powder. It gave almost instant relief. 50 cents.—49

"What is your idea of an optimist?" "Well, an optimist is a man who is too kind-hearted to discourage other people."

Stratford, 4th Aug., 1893. MESSRS C. C. RICHARDS & CO. Gentlemen.—My neighbor's boy 4 years old, fell into a tub of boiling water and got scalded fearfully. A few days later his legs swelled to three times their natural size and broke out in running sores. His parents could get nothing to help him till I recommended MINARD'S LINIMENT, which, after using two bottles, completely cured him, and I know of several other cases around here almost as remarkable, cured by the same Liniment and I can truly say I never handled a medicine which has had as good a sale or given such universal satisfaction. M. HIBERT, General Merchant.

## SENTENCE SERMONS.

Love makes loyal. Less work, more woods. Work gives zest to rest. It is hard to be happy in a hurry. Love is always looking for a load. It takes a fool to appreciate a fad. Reverence is the foundation of lasting love.

## A ROYAL BOOKLET.

The Grand Trunk Railway System are distributing a very handsome booklet descriptive of the Royal Muskoka Hotel, that is situated in Lake Rosseau, in the Muskoka Lakes, "Highlands of Ontario." The publication is one giving a full description of the attractions that may be found at this popular resort, handsomely illustrated with colored prints of lake and island scenery, the hotel itself, and many of the special features that may be found there. It is printed on fine enameled paper, bound in a cover giving the appearance of Morocco leather, with a picture of the hotel and surroundings on the same, and the crest of the hotel embossed in high relief. A glance through this booklet makes one long for the pleasure of Summer and outdoor life, and copies may be secured gratuitously by applying to any Grand Trunk ticket office.

## The Stomach's 'Weal or Woe!'

The stomach is the centre from which, from the standpoint of health, flows "weal or woe." A healthy stomach means perfect digestion—perfect digestion means strong and steady centres—strong nerve centres mean good circulation, rich blood and good health. South American Nerve makes and keeps the stomach right.—52

There is nothing nauseating in their structure, and the most delicate can use them confidently.

There is a well-known custom prevailing in our criminal courts of assigning counsel to such prisoners as have no one to defend them. On one occasion the court, finding a man accused of theft, and without counsel, said to a lawyer who was present, "Mr. —, please to withdraw with the prisoner, confer with him, and then give him such counsel as may be best for his interest." The lawyer and his client then withdrew, and in fifteen or twenty minutes the lawyer returned into court. "Where is the prisoner?" asked the Court. "He has gone, your honor," said the hopeful legal "limb." "Your honor told me to give him the best advice I could for his interest, and, as he said he was guilty, I thought the best counsel I could offer him was to 'cut and run,' which he took at once."
