The Fenelon Falls Gazette.

"Wages Has Riz."

At Ottawa, on Monday, there was voted so substantial an increase to the salaries of various distinguished personages that the total sum will amount to about \$500,000 per annum. The Premier is to have \$12,000 a year, a salary of \$7,000 is to be attached to the office of leader of the Opposition; the salaries of Judges are to be increased, Senators are to get \$2,500 instead of \$1,500 a year for life, and ordinary M. P.'s are to be paid \$2,500 instead of \$1,500 for every year they represent constituencies, and ex-Ministers are to be pensioned. The proposal to add \$1,000 a year to the pay of Senators and Commons was, the *Globe* says, "pressed determinedly upon the Government by members of both sides of the House, all of whom had signed a round robin asking for the increase," and that "the increase engendered in the minds of the lions and tigers of debate the spirit and temper of a love feast." Of course it did. It was simply a game of "grab" in which all the grabbers were equally interested, and they were naturally unanimous. In old times members of the House of Commons got \$1,000 for spending a few weeks at Ottawa, and the majority of them were no doubt well satisfied, as they were not expected to do anything but vote and could take home enough to keep their families for a year. Then it occurred to some of them to ask for another \$500, and of course they got it, as they had only to vote it into their own pockets. Now, grown more rapacious, they have voted themselves an additional \$1,000, and what are you going to do about it? The people will be indignant—there's no doubt about that; but what can they do? There is one thing they can do if they will. They cannot touch the Senators, who are appointed for life; but they can, if they will, at next election, turn out every member of the House of Commons who signed the "round robin," and thus prevent those who are responsible for this act of spoliation—it is nothing else—from deriving more than temporary benefit from it. There are other features of the malodorous pecuniary transaction equally deserving of adverse criticism.

To-NIGHT.—Remember the Epworth League moonlight excursion to Lindsay to-night. The *Esturion* will leave the wharf at 7 30 p. m., and on the return trip will leave Lindsay at 11.

NEW BOAT SERVICE.—The steamer *Kawartha* is now running daily trips between Fenelon Falls, Rosedale and Coboonk, leaving here at 6.30 p. m. and returning in time to connect with the morning train for Toronto. See advertisement in another column.

THE GAME LAWS.—A new edition of the Ontario game laws has been issued by order of the Minister of Public

Works, and may be had on application to the department. A comprehensive index is provided, and the names and addresses of the commissioners and wardens are included.

THANKS.—Yesterday, about noon, a Presbyterian excursion from Millbrook passed through the Falls to Rosedale, and, while the boat was in the locks, the members of the band from that village, nine in number, marched up our main street and treated us to a little good music, for which they will please accept our thanks.

GOOD FISHING.—Messrs. Wm Campbell and Alex. Weddell, of Peterboro, who were the guests of Mrs. Anderson, at Rosedale, for a few days, returned home on Monday evening highly delighted with the fishing in Balsam lake. In a few hours, with rod and line, they caught fifteen fine bass, several of which weighed between three and four pounds apiece, and a couple over four. On Monday morning Mr. J. B. Hall, of Toronto, another of Mrs. Anderson's guests, landed a nine-pound lunge between the bridge and the locks.

STURGEON POINT REGATTA.—We have received a programme of the regatta to be held under the auspices of Sturgeon Point club on Thursday, August 3rd. There are eighteen events, beginning with a six-mile sailing race, open to any class of boats, for the Sturgeon Lake championship flag, and ending with a raft contest, which we fancy will be as well worth seeing as any of them. The races will commence at 1.30 p. m. sharp, and proceed continuously, and suitable prizes will be given.

HOT WEATHER.—The *Globe* says that Tuesday was the hottest day this year, the thermometer registering 94 degrees, but whether in the sun or in the shade is not stated. Here at the Falls Tuesday was still hotter, the temperature at 1 p. m. having been 96 in the shade and 112 in the sun. In one of our stores at 5.30 the thermometer was at 90, and we noticed that some sticks of candy in a glass case, some distance from the window, had been nearly half melted by the fervent heat. The following day would also have been terribly hot, but, fortunately for suffering humanity, there was a pleasant and ameliorating wind from the west.

AUTOMOBILES.—We see that Mr. Cawthra Mulock, the Toronto "multi-millionaire," was recently fined \$25 for driving his automobile above the legal speed; but of course he only laughed, as that amount of money is no more to him than one cent is to a working man. There ought to be a sliding scale of fines, and Mr. Mulock should have been mulcted in the sum of at least \$1,000. By-the-by, is there any law regulating the speed of automobiles while running upon country roads? If there isn't, there ought to be, as they go tearing along at such a rate that the majority of horses unaccustomed to them are frightened into fits. But what of that? They are the rich man's vehicle, and it's like the poor man's impudence to criticize their goings on.

PRESENTED TO THE KING.—An associated press despatch from London, Eng., says: "On Monday, June 19th, four directors of the Manufacturer's Life were presented to the King at Windsor. They were the Hon. J. D. Rolland of Montreal, Lloyd Harris and A. J. Wilkes, K. C., of Brantford, and Mr. R. Junkin of Toronto. They are all members of the Canadian Manufacturers' Association." One of the four, Mr. R. Junkin, is from this vicinity. He is one of the numerous sons of the late John Junkin of Verulam, and has more relatives than any man round here—except each of the other Junkins. We congratulate him upon his presentation to the King, and would like to know how he felt while undergoing the operation and what he thinks of "Good Old Teddy."

TO BE FENCED.—The Hotel Kawartha lot, containing over three acres, is to be enclosed by a neat wire fence, and Mr. Elisha Mark has the contract. Instead of wooden posts, iron piping, 2 1/2 inches in diameter, is to be used, which will not only be neater looking and more durable, but even cheaper. Good, sound fence-posts are now very expensive, and it costs a lot of money to blast holes big enough and deep enough for them in almost solid rock; whereas a length of pipe can be securely cemented into a hole not much bigger than itself and only a foot or fifteen inches deep. The fence around the lot will be a great improvement, and no pains or expense will be spared to make the property attractive. In the interests of the hotel as well as of the village, it is to be hoped that steps will be taken before next season to improve the boat service, which is at present very insufficient and unsatisfactory.

DANDELIONS.—Everybody who has a lawn objects to dandelions growing on it, and Prof. H. L. Hutt, of the Guelph Agricultural College, tells how to exterminate them. He says that it is useless to uproot them out, as that only affords
