Giving Away Public Lands.

The Toronto *World* has an article condemning the transfer, by the late Ontario Government, of a vast area of public lands to the Grand Trunk Pacific Co., and says that Premier Whitney, who when in opposition strongly condemned the transaction, would have been justified in blocking the winding up of the session until full details of the act were forthcoming. The article concludes as follows:

"Mr. Whitney now describes the act as unjustifiable, and as a free gift to the railways. It is within his power to rescind the act, and the common people who own the area tied up by the bargain have a right to expect that the contract will be re-opened at the earliest opportunity and discussed on its merits.

"There are increasing indications of wholesale robbery of the public lands, which are the property of the whole people, and should never be allowed to pass, upon any terms, into the possession of corporations, companies or individuals, and we hope the *World* will not let the matter rest. The private ownership of the earth is the main cause of the extremes of wealth and poverty that exist to-day; but the number of great land owners is continually being added to, and no doubt will be until the people arise in their might and not only say that the alienation of their birthright shall cease, but that an entirely new order of things shall be inaugurated. What is true of the earth itself is true of all that is in it or on it except the products of men's hands. It may be legally right, but it is morally wrong, that all the oil and coal and metal and minerals in the bowels of the earth, and all the timber on its surface should be—

as they are fast becoming—the private property of a few wealthy men, and the time is coming when what is recognized as being morally wrong will be declared illegal too. A few years ago the Rothschilds or one of them acquired "enough coal lands in China to supply the people of the earth for a thousand years"; a short time ago a company in Newfoundland obtained a grant of two thousand square miles of pulp-wood lands, but we were glad to see it stated that an attempt was to be made to dispute their possession of it. If this sort of thing goes on it will not be long before "the earth and the fulness thereof" will be owned by a few who by force or fraud or bribery or corruption have got hold of it, and the rest of mankind will be practically their slaves. Of course our feeble protest will do nothing towards abolishing the evil, but it does us good to protest, and it does us far more good to know that there are other protesters who are making themselves heard throughout civilized nations, and to feel assured that in the course of time the monstrous wrongs of the present day will come to an end.

For the Rights of the People.

Under the above heading, the *Collingwood Enterprise* (Con.) says:

"W. F. McLean, Conservative M. P. for South York, is sometimes dubbed the Lshunelite of parliament; but we cannot help but think if there were more Billy McLeans in parliament it would be better not only for the Conservative party, but Canada. Our personal acquaintance with the gentleman is of the most casual character; but from what we, as an outsider, have noticed of his public career, it has been singularly consistent in this age of grab and plunder; and the position he occupies on public questions more nearly represents the views of the majority of the Conservative party than that of many of the so-called leaders. The lukewarm opposition of the Conservatives to the autonomy bills was, to say the least, disappointing, and the rush to participate in the indemnity grab was humiliating in the extreme. As far as we can learn, the member for South York is the only member on either side of the house who refused to join in the exploitation of the public treasury, and he is practically the only member with courage to stick up for the rights of the people against the corporations. A public man is judged by his record, and while others may sneer and impute sinister motives, the record still remains, and W. F. McLean is the 'It' with the mass of the people of Ontario."

(Correspondence of the Gazette.)

The social given in the school grounds on the evening of the 28th inst. was a financial success. There was a good attendance, and a very good deputation from the Falls was present. Mr. Chas. Doyman and Mr. Thos. Lane gave their assistance in entertaining the crowd, and Miss Bates, of Lindsay, who happened to be in the locality, helped along with the programme. The sum of \$27 was cleared.

Several families in this locality have been on the hunt for huckleberries; and they have all been very successful.

The patrons in this locality of the Fenelon Falls creamery are very well pleased with the results, which speak well for the managers; and the patrons have a foretaste of rural mail delivery, as the P. M. delivers mail along with the empty cream cans. They think it like Comfort Soap—all right.

There are many in this locality who regret to learn of the sudden death of the Rev. T. J. Edmiston at Brighton. Mr. E. left this circuit in 1883.

Mrs. M. Critall, of Toronto, is enjoying a visit to Messrs. William and Simon Cooper.

Mr. and Mrs. Herb Keown, of Palestine, Elton, called on Mr. and Mrs. Herron last Sunday.

Fall wheat, barley and rye have already been out, and the prospects are bright for the farmer and also for the thrasher.
