

SIXTY NEW CASES.

Four Die of Yellow Jack At New Orleans

New Orleans, Aug. 9.—Official report of the yellow fever situation to 6 p.m.: New cases, 60; total to date, 616; deaths yesterday 4; total to date, 112; new sub-foci 17; total sub-foci to date, 118.

Wednesday is the day set for the general street cleaning movement. There will be a general suspension of business, all of the merchants volunteering to lend their carts and wagons and employes to assist in the work.

To Fight Yellow Jack.

Liverpool, Aug. 9.—Sir Alfred Jones, president of the Liverpool school of tropical medicine, has received a cablegram from Mayor Behrman of New Orleans, accepting the offer made Monday by Sir Alfred of the services of the school during the prevalence of yellow fever. Major-Surgeon Ronald Ross, professor of tropical medicine, and Dr. Robert Boyce, professor of pathology and dean of the school, will sail for New York on the Campania next Saturday, and on arrival will proceed at once to New Orleans.

Fever Area Spreads.

Houston, Texas, Aug. 9.—State Health Officer Taber has been advised that there are two cases of yellow fever at Fort Amil, La. The telegram states also that one of the patients was dead. The men were Italian refugees from New Orleans.

In Mexico.

Mexico City, Aug. 9.—The Superior Board of Health officials report but five cases of yellow fever in the republic, four at Vera Cruz and one at Coahuila. One patient died at Vera Cruz on Wednesday, and another case was found on the same day.

First Touch of Winter.

Newberry, Mich., Aug. 9.—This section has had its first taste of winter, one-half inch of snow falling. Some of the crops were badly damaged.

Panama Works Suspended.

New York, Aug. 2.—The executive committee of the Isthmian Canal Commission have about decided to suspend any attempt at digging the canal until better prepared for the work. The present sanitation will be replaced by vigorous reforms.

Sir Ambrose Shea Dead.

London, Aug. 2.—Sir Ambrose Shea, Speaker of the Legislative Assembly of Newfoundland, 1855 to 1861, and Governor of the Bahama Islands from 1837 to 1894, is dead. He was born in 1818.

New Indian Agent.

Winnipeg, Aug. 2.—Neil McDougall, Commissioner of Colonization Roads, will be the new Indian agent at Port Arthur succeeding the late L. U. Bonin.

Fever Suspects Released.

New York, Aug. 2.—All but two of the yellow fever suspects were released yesterday.

Sent For Trial.

Montreal, Aug. 9.—Mr. and Mrs. Kernick and Mrs. Girard were sent to the King's Bench yesterday for trial. The trio were arrested after one Mitchell had been found dead at Port Claire.

Trace a woman's curiosity back, and you will probably find that she inherited it from her father.

There is some compensation in being poor. A man does not have to pretend that he likes to play golf.

Cold contracts most everything but debts.

Three is a crowd, and when the third person is the girl's mother it is a vast multitude.

Hard on the Canine.

"He is going to the dogs mighty fast." "Sorry for the dogs."

No Need For It.

"Your husband does not go fishing as much as he used to." "No; we have put in a sideboard at home."

Gave Nature a Chance.

"How did he finally get cured?" "His money gave out, and the doctors quit coming."

She Had.

"Women have no sense of humor." "But I knew one once who offered a tramp a drink of water."

New Forms of Fertilizer.

John Thorpe, an authority on gardening, calls attention in an exchange to a fertilizer which is now being placed on the market by some of the stockyard firms, and this is sheep manure highly compressed and kiln dried. It is put up in as small as ten pound packages and, Mr. Thorpe thinks, will become a great factor in all gardening out of doors. By spreading thinly on the ground before crops are planted or by steeping a couple of handfuls in a pail of water, letting it stand overnight, it will be valuable alike to flowers and vegetables and can be safely used at any time.

A new fertilizer has recently been introduced in Germany, says the Mark Lane Express, under the simple name of Thomasammoniakphosphat. It is compounded of basic slag or superphosphat and ammonia salts mixed together with dried refuse material from the beet sugar factories.

The Profitable Brood Mare.

Farmers who raise only one or two foals a year should always keep in mind the fact that there is more profit in keeping one good brood mare and sending her to a well bred stallion than in a yard full of common or ordinary mares. The more that a man raises from the latter kind the smaller his bank account will be.—Horseman.

Sunflowers in Canada.

An Ontario Agricultural College Bulletin says that seven varieties of sunflowers have been grown in the experimental grounds. Three of these varieties have now been grown for six years in succession. Allowing twenty pounds for the measured bushel, the average results for the six years are as follows: White Beauty, 68.7 bushels; Mammoth Russian, 65.5 bushels; and Black Beauty, 57.8 bushels per acre. It will thus be seen that all the varieties have produced heavy yields of seed per acre, and of the three leading varieties the White Beauty has given excellent satisfaction, producing an average yield of 1,374 pounds of seed per acre per annum.

A man never fully realizes that time is money until he has to soak his watch for the price of a meal ticket.

In sitting in judgment on a man, remember that some of the things he does he may have to do in order to eat.

The hen is a cheerful, obliging creature, but she can't be induced to keep busy when eggs are 40 cents a dozen.

Strange as it may seem, some unloaded guns aren't.

When a man carries a watch case with no wheels inside and expects to tell time by it, it is a case of faith without works.

Just as soon as people lose their money they at once lose their servant girl problem.

If girls knew as much about the value of foods as they do about complexion creams there would be more happy marriages and fewer invalids.

Trent Valley Navigation Co., LIMITED.

Bobcaygeon, Sturgeon Point, Lindsay. Steamer "ESTURION."

NEWSPAPER LAW.

1. A post-master is required to give notice by letter (returning the paper does not answer the law), when a subscriber does not take his paper out of the office, and state the reasons for its not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payment.
2. If any person orders his paper discontinued he must pay all arrears, or the publisher may continue to send it until payment is made, and collect the whole amount whether the paper is taken from the office or not. There can be no legal discontinuance until the payment is made.
3. Any person who takes a paper from the post-office, whether directed to his name or another, or whether he has subscribed or not, is responsible for the paper.
4. If a subscriber orders his paper to be stopped at a certain time and the publisher continues to send it, the subscriber is bound to pay for it if he takes it from the post-office. This proceeds upon the ground that a man must pay for what he uses.
5. The courts have decided that refusing to take newspapers and periodicals from the post-office, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.
