C. O. O. F. NOTICE.—A special meeting of Loyal Trout Valley Lodge No. 71, C. O. O. F., will be held on Wednesday next, August 30th, at 8 o'clock p. m.

BUSINESS CHANGE.—The Kawartha livery stable, on Francis street east, has again changed hands, Mr. J. H. Lee having sold it to Mr. Robert Magee, who took possession on Saturday. We wish him success.

LINDSAY BUSINESS COLLEGE.—If you are interested in a business education, you can receive the very best at the Lindsay Business College, and at the same time save at least \$5.00 per month in expenses as compared with taking your course in any of the large cities. Fall term commences August 28th.

RAILWAY RATES TO TORONTO.—Local station agents will be pleased to quote rates to and from the Canadian National Exhibition, Toronto, August 26th to September 10th. The rates this year are uncommonly favorable, and a better opportunity for visiting the capital of the province could not possibly be desired.

NEXT WEEK'S EXCURSION.—Don't forget the excursion on Tuesday next to Balsam Lake, under the auspices of St. James' church, Fenelon Falls, and St. Peter's church, Verulam. The steamer Manita will leave the upper wharf at 9 o'clock a. m. and proceed to Laidlaw's for noon, after which a run will be made to Cobocook, returning in good time in

the evening. Round trip 35c; children of the Sunday schools free.

TORONTO ENTRIES AHEAD.—Prospects for the Canadian National Exhibition, August 26th to September 9th, are most favorable. Entries in all classes are equal to former years, and in many instances a long way ahead. In character they never were so thoroughly representative of the country as they are this year, every province being represented. Many states of the Union have also sent entries in live stock, dogs, cats and poultry.

ECLIPSE OF THE SUN.—A total eclipse of the sun will occur on the morning of Wednesday next, the 30th inst. As the path of totality passes about five hundred miles north of here, the eclipse as seen in this section of country will be only partial, about three quarters of the sun's face being hidden by the moon. It is billed to begin at sunrise, and the time of greatest obscuration will be about forty minutes later, so it will be reserved for early risers.

QUICK WORK.—The Post says that Messrs. J. W. Barrington and W. D. Stonehouse (the latter from Toronto) rowed a passenger, anxious to catch a train, from Pleasant Point to Lindsay, a distance of 8½ miles, in 1 hour and 17 minutes, in a lapstreak skiff, each man pulling a single oar. If there be no mistake about the time or the distance, Messrs. B. & S. can, we think, "defy competition" as far as amateur oarsmen are concerned, and even ordinary professionals would have hard work to beat them.

ACCIDENT.—Mr. William Bawks, one of the many employees in the Sandford factory, met with an accident on Tuesday forenoon that will give him an enforced holiday for some little time. A piece of wood was thrown from the "shaper," at which he was working, and struck his right hand, breaking one of the bones of the forefinger and dislocating the middle joint of the next. He went to Dr. Wilson, who set the broken bone, reduced the dislocation and bound up the fingers in splints, from which we hope he will be able to release them before long.

ANOTHER BIG FISH.—The Peterborough Examiner says that Mr. Percy Blake, who is camping at Crawford's Grove, recently caught in the Otonabee river or Rice Lake a waskiwonge that tipped the scale at 29½ lbs. That's a big one, sure enough, and will no doubt hold the record for a long time. The largest "lunge" we ever saw—and that was between forty and fifty years ago—weighed 28 lbs.; but an old resident of Lindsay assures us that he once saw one that weighed 42 lbs. hanging up outside a shop in that town; and whenever we think of it we feel sorry we didn't see it too.

RETURNED FROM THE WEST.—The Post says: "Mr. W. F. Woollard, general merchant, Dunsford, returned a few days ago from a trip to the Clarke Exposition at Portland, Oregon. Near Seattle he visited Mr. Jabez Thurston, who owns a fine farm and is prospering. One of his four sons runs the farm, and Robert J. and Richard operate a saw-mill, the logs being drawn to the mill by steam power. Mr. Thurston is enjoying the best of health, and does not look a day older than he did when he left Verulam almost 20 years ago. On his way back Mr. Woollard took a run through the North west, and spent some days in Alberta."

GIVING UP BLACKSMITHING.—Messrs. Poulson & West's blacksmith shop was opened for the last time under their "auspices" on Saturday, no doubt to the satisfaction of the other knights of the anvil, all of whom must have had a considerable increase of business this week. The retiring members of the fraternity have done well during their partnership of seven years, and now have grown tired of the hard work of blacksmithing. Mr. Poulson intends to take a trip to the North-west, possibly with the view of buying land, and Mr. West has been offered permanent employment at good wages in the Chemical Works at South River. We wish them well wherever they may go.

A SUCCESS.—The garden party at the Rectory last Friday evening was in every way a success, partly owing, no doubt, to the weather, which was simply delightful. There was a large attendance from the village and surrounding country, and at least 250—possibly nearer 300—came by water from Lindsay, Bobcaygeon and Cobocook, and must have had a pleasant trip home, as the moon was then up. The spacious lawn was prettily decorated with Chinese lanterns, various kinds of refreshments had been liberally provided, and good music was furnished by Mr. Edward Chambers and his son William. The management intended to have the whole of the village orchestra, but some of the members happened to be out of town. The amount realized above expenses was about \$50.
