

There was a somewhat heavier fall, and since then there have been several flurries, and during nearly every night the temperature dropped below the freezing point. However, there's no telling what is in store for us; there may be a foot of snow and cold snaps long before the end of this month, or we may have pleasant weather until near Christmas. A hard winter terribly increases the sufferings of the very poor; and, therefore, we hope that the one just commencing may beat the record for mildness.

THE HICKS ALMANAC FOR 1906.—The Rev. Irl R. Hicks' Almanac will not be published for 1906, but his monthly journal, *Word and Works*, has been changed into a large and costly magazine, and it will contain his storm and weather forecasts and other astronomical features complete. The November number, now ready, contains the forecasts from January to June, 1906. The January number, ready December 20th, will contain the forecasts from July to December, 1906. The price of this splendid magazine is one dollar a year. See it and you will have it. The November and January numbers containing the Rev. Irl R. Hicks' forecasts for the whole year, and more complete than ever, can be had by sending at once 25 cents to *Word and Works Publishing Company*, 2201 Locust Street, St. Louis, Mo.

AT HOME---

GIVE A MAN COMFORT,

and you increase his earning power. A man cannot be cheerful and at his best in a cheerless home. A wife cannot be expected to be always good natured in a home with a poorly-acting, work-making stove.

Many homes are made happy and comfortable by using the **FAVORITE** line of Ranges and Heaters. Also the famous **PANDORA** and **KITCHENER** ranges. How about yours?

DON'T TRY

the experiment of eating a lot of honey "straight" to see if you like it—it is not a fair test. Honey is a concentrated food, and should be eaten in conjunction with something that gives bulk—bread, for instance. Properly used, there is nothing that can compare with it.

And it is cheap; ten cents a pound.
