### Experiments With Farm Crops.

The members of the Ontario Agricultural and Experimental Union are pleased to state that for 1907 they are prepared to distribute into every township of Ontario material for experiments with fodder crops, roots, grains, grasses, clovers and fertilizers. About 2,000 varieties of farm crops have been tested in the Experimental Department of the Ontario Agricultural College, Guelph, for at least five years in succession. These consist of varieties from nearly all parts of the world, some of which have done exceedingly well in the carefully conducted experiments at the college, and are now being distributed free of charge for co-operative experiments throughout Ontario. The following is the list of co-operative experiments in agriculture for 1907:

#### EXPERIMENTS.

(The figure after each variety indicates the number of plots to be sown with that variety.)

No. 1, three varieties of Oats, 3 plots; 2a, three varieties six-rowed Barley, 3; 2b, two varieties two-rowed Barley, 2; 3, two varieties Hulless Barley, 2; 4, two varieties Wheat, 2; 5, two varieties of Buckwheat, 2; 6, two varieties of Field Peas, 2; 7, Emmer and Speltz, 2; 8, two varieties Soy Soja, or Japanese Beans, 2; 9, three varieties of Husking Corn, 3; 10, three varieties Mangels, 3; 11, two varieties of Sugar Beets for feeding purposes, 2; 12, three varieties of Swedish Turnips, 3; 13, Kohl Rabi and two varieties of Fall Turnips, 3; 14, Parsnips and two varieties of Carrots, 3; 15, three varieties Fodder or Silo Corn, 3; 16, three varieties of Millet, 3; 17, three varieties of Sorghum, 3; 18, Grass Peas and two varieties vetches, 3; 19, Field Cabbages and two varieties of Rape, 3; 20, three varieties of Clover, 3; 21, Sainfoin, Lucerne and Burnett, 3; 22, five varieties of Grasses, 5; 23, three varieties Field Beans, 3; 24, three varieties of Sweet Corn, 3; 25, Fertilizers with Potatoes, 3; 26, Fertilizers with Swedish Turnips, 3; 27, Sowing Mangels on the level, and in drills, 2; 28a, two varieties of Early Potatoes, 2; 28b, two varieties of medium ripening Potatoes, 2; 28c, two varieties of Late Potatoes, 2; 29, three grain mixtures for grain production, 3; 30, three mixtures of Grasses and Clover for hay, 3.

The size of each plot in each of the first twenty-seven experiments and in Nos. 29 and 30 is to be two rods long by one rod wide; and in No. 28, one rod square.

Each person in Ontario who wishes to join in the work may choose any ONE of the experiments for 1907, and apply for the same. The material will be furnished in the order in which the applications are received until the supply is exhausted. It might be well for each applicant to make a second choice, for fear the first could not be granted. All material will be furnished entirely free of charge to each applicant, and the produce will, of course, become the property of the person who conducts the experiment.

C. A. ZAVITZ,

Director.

Guelph, March, 1907.

### A Fire in Verulam.

On Monday evening last a fire occurred on Mr. Henry Sproule's farm near Red Rock, in Verulam. Mrs. Sproule had gone, with her children, to visit her father, Mr. Lancelot Junkin, two or three miles distant; and about 7 o'clock Mr. Sproule went to the barn to attend to the live stock, before going to fetch his family home. Unfortunately, he placed his lantern on the floor too close to one of the cows, which kicked it over, and some hay or straw caught fire. After stamping it all out, (as he thought,) he hitched up his team and started for his father-in-law's; but the fire was not out and the barn was in flames a short time after Mr. Sproule left. Some neighbors assembled as quickly as possible; but not soon enough to do any good. The building which contained the vehicles and implements stood near the house and escaped destruction; but the barn and some sheds were burned, together with the whole of their contents, which included nine cows, two calves, and a quantity of hay and grain. We regret to learn that but little of the loss is covered by insurance.

### Our New Rector.

We clip the following from the Uxbridge Journal of the 14th inst.: "Friends in town will regret to learn that Rev. W. H. A. French, the energetic pastor of St. Paul's church, has accepted the incumbency of the Anglican church at Fenelon Falls. The change will take place shortly after Easter. Not only has Rev. Mr. French been faithful to his duties as pastor, but he has been active in keeping the choir in a state of efficiency. The people of Fenelon Falls will find Mr. French an acquisition to their social, musical and fraternal circles."

### Powles' Corner.

(Correspondence of the Gazette.)

Mrs. D. S. Milloy is moving out to Mariposa Station, where Mr. Milloy has been station agent for some time. Mr. John S. Brown will take the management of the farms for an indefinite period. It is with regret that we report the departure of Mrs. Milloy and family. They will be missed; not only as neighbors, but as faithful workers in the church.

Mr. Eli Hill lost the best cow in his stable one night last week; the animal having got hung in some way not easily explained.

A break-up of the roads will come very soon, and everyone is gladdened by the

appearance of spring.

A meeting of the ratepayers of this school section will be held in the school-house here on the evening of Friday next, the 22nd inst. Every ratepayer should attend, as there is some more trouble in the school, and it is within the bounds of possibility that two of the trustees and the teacher will be asked to resign.

### Kinmount.

(Correspondence of the Gazette.)

Mr. Edward McKenzie, of Beaverton, formerly a resident of this place, was here for a couple of days last week.

Messrs. John Dunbar and Thos. Hardy are visiting the former's parents here. Much sympathy is felt for Mr. and Mrs. Edward King in the loss of their youngest child, a little girl about two years old, who died on Thursday of last week.

On Wednesday, the 13th inst., Mr. Isaac Lyle, of Kinmount, and Miss Young, of Burnt River, were quietly married at the Parsonage, Rev. A. Cumber officiating.

Craig & Austin's mill commenced operations on Monday of this week.

**GIVING UP BUSINESS.**—Mr. D. J. Collis, watchmaker and jeweller, has decided to discontinue his business in the Falls, and will close up about the middle of April.

**CONCERT.**—The concert given in Two-mey's hall on Wednesday evening, in aid of the building fund of St. John's church, Rosedale, was fairly well attended, a good many coming from that village and vicinity. The various numbers were well rendered, and the tableaux were very pretty, giving evidence of much care in preparation.

**SOLD AGAIN.**—Not long ago Mr. F. McDougall sold the "Syndicate Farm," just outside the village, to Mr. Johnston Patterson, who resold it, the other day, to Mr. John Aldous for \$5,600. We "mind the time" when less than half that sum would have bought it; but a whole lot of money has been spent upon it in improvements since then.

**A BAD CUT.**—On Wednesday afternoon Mr. James Robertson, recently a resident of the Falls, cut his left foot badly with an axe, while working on the farm of his father-in-law, Mr. E. Kendall, in Fenelon. The wound, which is deep and about two inches long, is just above the big toe. Dr. Wilson, to whom he was brought and who dressed the wound, says it will lay him up for some time.

**PERSONALS.**—Mrs. Dr. Gould left on Monday to spend a few days with relatives in Cambray. Mr. Harry Wilkinson came home from Cornwall on Tuesday. Mr. Joe Oullette is home again, the hockey season being over. Mr. Jas. Dickson was away from home part of this week, doing some surveying in the township of Ops. Miss Nellie Worthington, of Uxbridge, has been visiting relatives at the Falls.

**BUILDING.**—There will probably not be much building done in the village this season, but carpenters will be in demand in the surrounding country. The following farmers are preparing to build: Wm. Graham, Sturgeon Point, barn 50 x 100; W. A. Ellis, Bethel, barn 45 x 55; D. McFarland, Bethel, barn 50 x 60; John W. Junkin, Bethel, straw barn 45 x 50; John Knox, Bethel, horse stable 34 x 40; W. J. Thomas, Red Rock, barn 45 x 90.

**ACCIDENT.**—On Saturday last, Alma, the little daughter of Mr. Christopher Hodgson, of Burnt River, met with a painful accident while on a visit to her grand-parents, Mr. and Mrs. John Howie, at Fenelon Falls, by falling into a small kettle of hot water that had been set out to wash the floor with. Her right leg was badly scalded, in some parts so deeply that it will take quite a while to heal completely. Dr. Wilson is in attendance.

**ST. JAMES' CHURCH.**—The Rev. A. J. Vale, curate of St. Paul's church, Lindsay, will take the services in St. James' church, Fenelon Falls, and St. Peter's, Verulam, on Sunday next, the 24th of March. Mr. Vale expects to leave in a short time to take up mission work in the far North-west, so this will probably be his last visit to this parish. On Easter Sunday the Rev. H. F. Burgess, of Toronto, will conduct Communion service in St. James' in the morning, and at St. Peter's in the afternoon.

**KILLED THREE FOXES.**—The Lindsay Evening Post of the 16th says: "Yesterday was a good day for fox hunting, although the uninitiated would be unlikely to think so, owing to the variable weather. Undeterred by the blinding snow-falls at intervals, Jack Dickson whistled to his dogs after dinner and headed for Routley's swamp, northwest of the town, and was joined on the way by Messrs. McCabe and Tompkins, also of town. Inside of two hours the dogs routed out three foxes, which were killed in each instance after an exciting chase. If any of our readers feel sluggish and would like to limber up, we feel justified in advising a fox hunt, on the strength of descriptions furnish by Joe Lytle and Jack Dickson."

**AGENCY VACANT.**—The Great-West Life Assurance Co. desires to secure a live, active agent in Fenelon Falls and vicinity who can devote either his whole or part of his time to work. Liberal terms will be given to suitable person who can secure a fair amount of business from this territory. The Great-West Life made in 1906 a larger increase in the amount of new insurance written, and also a larger increase in the total insurance in force, than any other Company operating in Canada. The lower premiums and higher guarantees, coupled with the very satisfactory profits being paid to policyholders, make it comparatively easy to secure business for this

Company. Address Ontario Branch Office, 18 Toronto St., Toronto. 6-2

**HOCKEY.**—What will probably be the last, and undoubtedly was the best, game of the season, was played in the rink on Tuesday evening. The present local team, most of whom are young boys, have been playing a good game lately, and, just to see what they could do in real fast company, arranged for a match with the "old reliables," who had on their line-up four of the old "terrors of the north," Dayman, Beteau, Gould and Oulette—some of the best hockeyists in Canada. The game was one of the fast, clean variety, and the youngsters showed up in a way that marks several of them as terrors yet to come. Of course they were beaten, as they expected to be; but the old timers didn't have a walk-over by any means, and had to work for everything they got. The score at half time was a tie, 5-5, and at full time it was 11-8 in favor of the old reliables.

### District Notes.

Mr. S. Novison has resigned the position of chief constable of the town of Lindsay.

The people of Omemoe and its vicinity are petitioning the Government to open Pigeon river for navigation.

The annual spring meeting of the Victoria County Bee-keepers' Association will be held at Little Britain on Good Friday, the 29th of March inst.

Mr. August Watt, of Harburn, has purchased Mr. E. B. Austin's summer resort and boarding-house at Haliburton, and will take possession in April.

A bat made its appearance in the office of the Lindsay Watchman-Warder one day last week, and was sent to the science master of the Collegiate Institute. The "make-up" on the W.W.—who for some time past has appeared to be rather "batty"—should now be able to do his work a little more accurately.

The Dairymen's Association of Eastern Ontario will hold meetings for instruction in and discussion of dairy matters, at Petriborough on March 26th and at Lindsay on March 27th. Sessions will be held at 1:30 p. m. and 7:30 p. m. The meetings will be addressed by Messrs. G. G. Publow, of Kingston, and Alex. Hume, of Menie, Ont.

A black fox, one of the most valuable of the species, was recently killed in Bryson's swamp, near Cambray station. For two days Messrs. B. B. Wailey and Fred Young had been on the animal's trail. It was finally shot with the aid of hounds belonging to Mr. George Wellington, of Lindsay. Mr. Wellington claimed the fox on the ground that it was through the exertions of his dogs that the animal was captured. The matter was finally settled by a division of the purchase price. The fur of the black fox is in great demand, and a good skin is valued at \$150.—Post.

### BIRTHS.

MARTIN.—In the township of Verulam, on Monday, March 11th, 1907, the wife of Mr. J. H. Martin of a son.

NORTHEY.—In the township of Fenelon, on Tuesday, March 12th, 1907, the wife of Mr. Felix Northey of a daughter.

CURTIS.—In the township of Verulam, on Thursday, March 14th, 1907, the wife of Mr. Robert Curtis of twin daughters.

WELSH.—At Fenelon Falls, on Sunday, March 17th, 1907, the wife of Mr. John Welsh of a daughter.

### DIED.

ELLIS.—At Fenelon Falls, on Thursday, March 14th, 1907, John Alexander Ellis, aged 65 years.

POGUE.—In the township of Verulam, on Friday, March 15th, 1907, Mrs. Joseph H. Pogue, aged 43 years and 7 months.

ENGLISH.—At Fenelon Falls, on Friday, March 15th, 1907, William Clarence, youngest son of Mr. Joseph English, aged 1 year, 2 months and 8 days.

### EASTER TERM

at the BRITISH AMERICAN BUSINESS COLLEGE, TORONTO, the oldest and best business school in Canada, begins on April 2nd. Our catalogue explains our superior work. Write for it. T. M. WATSON, PRINCIPAL.

### BOY WANTED.

Smart Boy wanted to learn the grocery business.

W. BURGOYNE & SON.

### SALE NOTICE.

J. H. and M. W. Brandon advertise a credit sale by public auction of farm, stock and implements on their farm, lot 29, con. 7, Fenelon, on Thursday, March 28th, 1907. Sale to commence at 1 o'clock sharp, and to be without reserve, as they have sold the property.
