## THE RECORD ADMIRAL FURNACE

Is fitted with the improved Record Triangular Grate—the most perfect furnace grate on the market. Of the four triangular grate bars, each bar is operated by the use of a handle applied to either of the two centre bars. To remove this handle after shaking is impossible until the grate bar has been returned to its original position, flat and in place, without any of the cogs sticking up. The result is that the bars are always flat under the fire and that it is impossible for lumps of coal to drop through and be wasted. The Record Triangular Grate can be entirely removed from without without lying on stomach or bothering with a light.

### Individual Responsibility.

The following article, from the Toronto World of Monday last, is exactly the kind that the Gazette delights to reproduce in its columns:

"Speaking of the celebration exercises on Independence Day at the Jamestown Exhibition, Dr. Woodrow Wilson, of the Princeton University, made an important contribution to corporation ethics. His theme was individual accountability for the acts of corporations, and his remedy for the monopolistic tendencies and the unlawful practices of modern public service and industrial incorporated companies in the United States, was the arrest and imprisonment of corporation heads, instead of the fining or dissolution of corporations themselves. In advocating this, the Princeton president undoubtedly struck at a real and serious defect in company law as it has been developed in both the United States and Canada. The fiction that makes incorporated companies a separate person in law has been carried to an absurd and dangerous extreme; and when that happens, as a United States judge once observed, it is disregarded.

"A fictitious person cannot do anything; and when anything is done involving a breach of the law, it is a real man who is responsible. 'One really responsible man in jail,' said President Wilson, 'one real originator of the schemes and transactions which are contrary to the public interest legally lodged in the penitentiary, would be worth more than a thousand corporations mulcted in fines, if the reform is to be genuine and permanent.' The kind of law Canada needs is that which will attack and punish presidents and general managers of railroads for evasions and violations of the statutes. It is just as absurd, said Dr. Wilson, to indict or dissolve corporations for offences against the public as it would be to arrest and confiscate automobiles because their owners killed pedestrians. If the individual is made responsible, the president is convinced, the difficulty will be solved."

### Lift Lock Opening.

The new hydraulic lift lock at Kirkfield, on the Balsam lake and Lake Simcoe section of the Trent Canal system, was formally opened on Saturday last by the Hon. Rodolphe Lemieux, Postmaster-General, and navigation is now open from Healey's Falls, on the Trent river, to Barrie, Orillia, and other Lake Simcoe ports, making a continuous waterway of about 160 miles. About 2,000 people assembled at the lock to witness the opening ceremonies, almost everyone in that section of the country being present, while large numbers went on the excursion boats from the Falls, Lindsay, Orillia and some other points. The official party, together with about two hundred invited guests from Peterborough, Lindsay and Fenelon Falls, on board the steamer "Stoney Lake," reached the lock at about 2.30 p. m., amid the cheers of the crowd and the tooting of the whistles of the assembled steamers. The boat was immediately run into the south pontoon and the gate closed behind her, and less than ten minutes later was floating on the lower stretch of the canal, the time occupied in the actual operation of making the descent of 43½ feet being just three minutes. The Government steamers "Sovereign" and "Bob Hall," which accompanied the larger boat and carried part of the crowd, were then lowered in the north pontoon. The address delivered by the Hon. Mr. Lemieux was very interesting, and was followed by shorter speeches by Messrs. R. R. Hall, M. P. for East Peterborough, R. J. McLaughlin, K. C., Sam Hughes, M. P. for Victoria and Haliburton, George Grant, M. P. for North Ontario, Senator Cox and J. R. Stratton. Mr. McLaughlin acted as chairman, introducing the various speakers. At the conclusion of the speaking, the steamers proceeded down the canal, passing through five locks on the way, to Lake Simcoe, the total descent from Balsam lake being 120 feet. Lake Simcoe, one of the most beautiful sheets of water in Ontario, was reached about 7 o'clock, and a sail of a couple of miles down its east shore brought the party to Beaverton, where a special train was waiting to convey the people to Lindsay, at which point connection was made for Peterborough and Fenelon Falls.

The new lift lock is an imposing structure, and the towers being built of steel, much more of the mechanism can be seen than is the case at the Peterborough lock, where the towers are built of concrete. The lock cost about \$300,000, exclusive of the concrete breast walls, and is a splendid piece of engineering work. The effect of the opening of the new section of canal will soon be felt on the local waters, and excursions to Lake Simcoe points are already being talked of.

### Counterfeiters in Lindsay.

The Dominion police made a rich haul on Monday evening of this week, when Charles Burke, of Lindsay, was arrested by Chief Vincent, of that town, Dominion Detective Parkinson, of Ottawa, and Detective Cowan, of Toronto, on the charge of being the head of a gang who have for some time been manufacturing and circulating bogus five-dollar Traders' Bank bills. On the same day R. Wynn and A. Boyeau, former residents of Lindsay and its vicinity, were arrested at Sault Ste Marie, Mich., as members of the gang, they having been engaged in passing the counterfeit bills. The former had twelve of the bills in his possession when arrested, and the latter had eight hundred. At the house in which Burke lived in Lindsay was found the whole counterfeiting outfit, the spurious bills having been made by photographing genuine

bills and making electro plates from the photos. The counterfeiters were poorly made and easily detected by experts. It is thought that the gang have been at work for a long time counterfeiting the bills of various banks. An Englishman who was engaged in passing the bills near Montreal, and was arrested, gave the information which resulted in the round-up. Warrants are out for the arrest of several other suspected persons. Burke was brought before Police-Magistrate Jackson shortly after his arrest, and was remanded to the county jail for eight days.

### Village Council.

Fenelon Falls, July 8th, 1907.

Council met in regular meeting; present, S. J. Sims, L. Deyman, T. Austin and the reeve, R. M. Mason.

### Kinmount.

(Correspondence of the Gazette.)

Lakeview farm, Norland, was the scene of a very pretty wedding at 3 o'clock on last Thursday afternoon, when the marriage was solemnized by Miss Nellie Carl, daughter of Mr. and Mrs. Levi Carl, to Mr. Fred Wilson, of Kinmount, Rev. A. Cummer, of Kinmount, officiating. The bride, who entered the drawing-room with her father, was dressed in a dainty gown of crepe de paris, with embroidered chiffon trimmings, tulle veil and natural flowers. She was attended only by her young niece, in white silk, who carried the ring in a tiny basket of pink ried the ring in a tiny basket of pink flowers. The bride and groom received congratulations under a beautiful archway of pink ladies' slippers. Almost one hundred guests sat down to the wedding breakfast, which was served on the lawn. Mr. and Mrs. Wilson will leave in a few weeks for their new home in British Columbia.

Among those who went from Kinmount to the Carl-Wilson wedding were Mr. and Mrs. J. Wilson, Mr. and Mrs. Wilson, Mr. and Mrs. J. R. Mark, Dr. and Mrs. E. A. White and Miss E. Austin.

### July Busy Man's Magazine.

For those who are taking a lengthy rest from business, or for those who are unable to leave the most good out of spare time are always interesting, and sometimes helpful. "Vacation for Business Men," dealing with the best and most helpful way to spend a holiday; and "A Busy Man's Vacation," showing how people can get rest and recreation at their own doors, are both interesting

and helpful. Both these articles are to be found in the July Outing Number of Busy Man's Magazine. In addition to these, there are several others of interest to those about to take an outing, such as, "In Evangeline's Country," an entertaining account of a trip in picturesque Nova Scotia; "In a Border Mining Camp," and "John Bull's Bread-basket," on Western Canada, the farming country. Other articles of popular interest also appear, among which are, "Government Ownership in Canada"; "The Farce at the Hague," a character sketch of Chas. R. Hosmer, telegraph operator; "Telegraphing Pictures"; "Inventions we Owe to Savages"; "A Revolution in Travel," the latter giving a little idea of the mono-rail system; "Old Age Pensions in Germany"; "Even Temperament as a Business Asset"; "Succulent Dinners that Swim the Sea," and other miscellaneous matter of equal merit. The amount of fiction is rather larger than usual this month, and no better can be said of it than that it is up to the usual standard.

FESTIVAL AT COBOCONK.—A strawberry festival will be held at Cobocok on the evening of Wednesday, July 17th, on the lawn at Mr. John Ham's residence, under the auspices of the Anglican church W. A. Tickets 25c. Children 15c.

STEAMER SOLD.—Mr. Thos. Robson has sold the staunch little steamer "Dauntless," of which he has for so long been owner, to Mr. Henry Austin, who will have much use for the boat in connection with his business operations on Grand Island. It is rumored that Mr. Robson, who is never so happy as when on the water, is looking for a larger craft—one in which he can sail Lake Simcoe safely in any weather.

THE HOTEL KAWARTHA.—At the rate at which guests are coming in—ten or a dozen having arrived this week—the Hotel Kawartha will soon be full from cellar to garret. Mr. Priestland is, we are glad to hear, proving himself a model host, and the table and cooking of the hotel are praised in the highest terms. Judge Harding, who is one of the guests, is so well pleased that he will probably spend his leisure time there throughout the summer.

ANOTHER SIDEWALK.—In compliance with a petition laid before the council not long ago, a sidewalk is to be built from Twomey's corner to Dr. Mason's residence, on the south side of Francis street east. The material is to be gravel, several loads of which have already been dumped along the route; but whether it is or is not to receive a top-dressing of cement, or whether the walls to keep it from spreading are to be of wood or stone, has not, as far as we have heard, yet been decided upon.

TEA MEETING.—A grand annual tea meeting and social reunion in connection with St. Peter's church, Verulam, will be held at the residence of Mr. Robert Wilkinson on the evening of Wednesday next, the 17th inst. Tea will begin at 6 p. m. and last until 8.15, and ice cream and other refreshments will also be served. Short addresses will be delivered by Rev. Mr. Cummer, of Kinmount, and Rev. Mr. Cragg, and Rev. Mr. Cooke, of Fenelon Falls, and the musical entertainment will be undertaken by local talent from Fenelon Falls. Tickets adults, 25 cents; children, 15 cents. Everybody welcome.

CIVIC HOLIDAY CELEBRATION.—At a meeting of the Board of Directors of the public library, held on Friday evening last, it was decided to hold a celebration in aid of the library on civic holiday. A general committee composed of the Board of Directors and several others was appointed to take the matter in hand, and to have the usual petition presented to the reeve, asking him to appoint Friday, August 9th, as civic holiday. A meeting of the committee was held on Wednesday evening, at which special committees were appointed to arrange the various details of the work. A number of special features are to be secured, and, from the enthusiasm with which the various committees are taking up their work, this year's celebration should be the best ever held at the Falls.

### District Notes.

Lindsay's tax rate this year will be 20½ mills on the dollar. This is an increase of 1½ mills over last year's rate.

The Victoria County Cheese Board met in Lindsay on Monday. 1381 boxes were boarded, and all sold at eleven cents.

A terrific rain and wind storm passed over Balslover and surrounding neighborhood on July 1st, doing considerable damage to trees and buildings. Mr. John Collins had the heaviest loss, having had his barn levelled to the ground.

Under the barn at the time were some sixteen fine horses, all of which wonderfully escaped without a scratch, as the foundation on which the barn stood did not give way. Mr. Collins intends building again shortly.—Balslover Corr. Lindsay Post.

The annual regatta under the auspices of the Sturgeon Point Cottagers' Association will be held on the afternoon of Lindsay's civic holiday, Thursday, August 8th. So it was decided at a meeting held on Monday evening in Mr. G. H. Hopkins's boathouse, which was well attended. Mr. C. H. Grantham, Toronto, was elected honorary president—a deserved tribute and acknowledgment of past services; Dr. R. T. Allan, president; and Mr. F. Holmes Hopkins, secretary-treasurer.—Post.
