

and Joe Onilette, two of the old "Terrors of the North" who were professional-ized last winter, will be in it. Dodger and Joe can play hockey all right, and with five others as good, should give Guelph a good place in the game.

SUNDAY SHOOTING.—A resident of Rosedale complains of the disturbance caused nearly every Sunday by a number of Fenelon Falls "sports" who spend the day shooting at ducks in the river; and a Verulam farmer who lives a couple of miles from the Falls says that some young men, who, however, are not residents of the Falls, make Sunday hideous and dangerous by blazing away with revolvers at everything in sight in the woods and fields in that vicinity. This way of spending Sunday is not right. Furthermore, it is illegal, and the shooters will take chances of finding themselves in the police court if they persist in the practice.

Have you seen the Perfect Pantry? It is certainly up-to-date.

District Notes.

A colony of beavers has been discovered between Round Lake and the North River bridge, and steps are being taken to protect these most interesting and rare animals from the guns of trappers and others. The penalty for shooting beaver is very heavy.—*Hawlock Standard.*

Mr. Samuel Luff, of Cobocook, met with a painful accident while operating the saw in Findlay & Phillip's mill in Verulam on Tuesday. In some manner his right hand was drawn into the saw, mutilating it very badly. The injured member was dressed by Dr. Graham, of Fenelon Falls.—*Post.*

The Chemong Indians will run a three days' excursion to Lake Simcoe on October 3rd. This will be a fine trip, and no doubt will be largely attended by all the Indians in the county. Either the steamer Manita or Ogama will carry the excursionists. They will leave Chemong village on the morning of October 3rd, and will spend a day at Georgina Island, where there is an Indian reserve. A day will also be spent at the Rama reserve. These reserves are in Lake Simcoe.—*Peterborough Review.*

The sawmill at Gilchrist's Bay, Stony Lake, was destroyed by fire about 3 o'clock on Friday morning. The cause of the blaze is a mystery, and residents of the vicinity are of the opinion that the fire was of incendiary origin. The mill was operated by Lynch & Bryan, and was working on Saturday. Everything seemed all right when the men left the place at night. The loss will be considerable, and the destruction of the mill will be severely felt, as it was a great convenience to the farmers of the vicinity.—*Ibid.*

The Raven Lake Portland Cement Limited, of Raven Lake, has assigned Mr. H. R. Morton, of Toronto. The directors and creditors will hold a meeting on October 30th, when a proposition will be submitted for the reorganization of the company by increasing the capital and installing new machinery. The company was organized about six years ago, with a capitalization of \$500,000. It was said last night (Monday) that the cause of the assignment was that not enough cement was being made to pay sufficiently large dividends to the directors. The president is Gideon Shortreed, and Thos. McLaughlin and D. Robertson, of Toronto, are directors.—*Post.*

Mr. William Lewis, of lot 11, con. 5, of Verulam, is a proud farmer to-day, and not without reason. He was notified on Saturday last that a field of oats on his 200 acre farm had been considered by experts the best field of grain in the province, and that he had obtained the Provincial prize for it over dozens of competitors from all over Ontario. Out of a maxi num of 100 points this field of oats graded 93 points—truly a creditable showing. Mr. Lewis is a brother of Mr. M. J. Lewis, proprietor of the Victoria creamery, and the farm is the family homestead. Victoria county is noted the Dominion over as one of the best farming counties, and this additional honor shows the county forth in an enviable light.—*Post.*

Planting Cherry Seeds.

Cherry stocks are commonly grown from seeds. If the ground is in readiness and in proper condition, the seeds may be planted in fall or even as soon as they are ripe. If stored until spring, they must be stratified and kept very cool to prevent germination, and they should be sown at the earliest possible moment. They do not need to be cracked by hand. Care must be taken that cherry pits do not become hard and dry. This precaution is more important with cherries than with peaches and plums.—*Balfex.*

National School of Telegraphy, Lindsay, Ont.

Mr. A. M. Paton, of Lindsay, for years agent for the Grand Trunk Railway Co., has opened a School of Telegraphy in Lindsay. The demand for operators far exceeds the supply. A common school education is all that is necessary. Mr. Paton's wide and varied experience in the freight and passenger department, as well as commercial and railway telegraph work, gives his school an advantage over any similar institution in Canada. Terms are easy, and six months in his school will make a good operator of any boy of average intelligence. Here is an opportunity for young men and women to get a business in six months and be in a position to command a good salary in early spring. Railway telegraphy leads the way to success. Write for particulars. Address
A. M. PATON,

AS A WORKING TOOL

for the student and the writer, as an authoritative reference book for schools, teachers, families, business and professional men, there is one book which offers superior advantages in the solid value of its information, and the ease with which it is obtained.
One's admiration for Webster's International Dictionary increases daily as it comes to be better known. It never refuses the information sought and it never overwhelms one with a mass of misinformation illogically arranged.
The St. James Gazette of London, England, says: For the teacher, the pupil, the student and the literateur, there is nothing better; it covers everything.
The New and Enlarged Edition recently issued has 25,000 new words, a revised Gazetteer of the World, 2350 pages and 5000 illustrations. It has just received
THE GRAND PRIZE (Highest Award) at the World's Fair, St. Louis.
Our name is on the copyright page of all authentic Webster's dictionaries.
FREE—"A Test in Pronunciation," instructive and entertaining for the whole family. Also illustrated pamphlet.

NEWSPAPER LAW.

1. A post-master is required to give notice by letter (returning the paper does not answer the law) when a subscriber does not take his paper out of the office, and state the reasons for its not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payment.
2. If a person orders his paper discontinued he must pay all arrearages, or the publisher may continue to send it until payment is made, and collect the whole amount whether the paper is taken from the office or not. There can be no legal discontinuance until the payment is made.
3. Any person who takes a paper from the post-office, whether directed to his name or another, or whether he has subscribed or not, is responsible for the pay.
4. If a subscriber orders his paper to be stopped at a certain time and the publisher continues to send it, the subscriber is bound to pay for it he takes it from the post-office. This proceeds upon the ground that a man must pay for what he uses.
5. The courts have decided that refusing to take newspapers and periodicals from the post-office, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.
