

RED FLAG WAS HOISTED

Soldiers and Civilians Were Killed at Vladivostok.

A dispatch from St. Petersburg says: According to the official report of the recent mutinous outbreak of sailors at Vladivostok, the crews of three torpedo-boat destroyers, the Skory, Serdity and Trevolshny, mutinied, hoisted the red flag and shelled the port, doing considerable damage to various buildings and killing some soldiers and civilians. The Skory, on board of which were three revolutionary agitators, including one woman, took the lead in the mutiny, the crew rising at the instance of the agitators, killing the commander of the boat and wounding the other officers, who were overpowered and confined below decks. The fire of the rebellious torpedo-boat destroyers was answered by the batteries ashore, and from the gunboat Mandjur and the torpedo-boat destroyers Grosvoiy, Smely, and others. They surrounded the Skory, and poured a raking fire into her, which battered her to

pieces, exploded her two boilers and caused fire to break out on board. Nearly all the mutineers of the Skory were killed in the vessel. The three or four survivors threw themselves into the sea. The mutiny on board the Trevolshny was quelled by her own crew, after six of the mutineers had been killed and six wounded. General Count Unterberger, commanding the military District of Amur, has arrived at Vladivostok, and assumed charge of the situation. The United States Embassy here on Friday received a despatch from the Consul at Vladivostok, saying that the American who was wounded during the bombardment of Vladivostok by the mutinous torpedo-boat destroyers is Harry Nietert, an employe of the Pacific Commercial Company, whose building was struck by a shell.

CUSTOMS WAREHOUSE BURNED

Heavy Damage in Montreal on Thanksgiving Day.

A despatch from Montreal, Que., says: Thanksgiving Day was marked by a big fire in this city. The building, which is situated on McGill and Common Streets, occupies nearly a whole block. Over \$100,000 worth of goods were stocked in the warehouse. Being a public holiday, the warehouse was vacant, the only employe

on duty being the watchman. While he was making his rounds shortly after four o'clock in the afternoon he noticed smoke coming from the quarter where the oil is kept. A general alarm was rung in, and the whole brigade responded. The firemen had a hard fight in getting the fire under control and saving the building from total destruction. When they arrived smoke was pouring from the windows of the top flat, and the work of saving the building was attended with considerable risk. Several members of the brigade were overcome by smoke, but nobody was seriously injured. It was after six o'clock before the fire was under control. The damage from the fire and water is estimated at \$50,000.
