### Distribution of Seed Grain and Potatoes.

By instruction of the Hon. Minister of Agriculture a distribution is being made this season of samples of superior sorts of grain and potatoes to Canadian farmers for the improvement of seed. The stock for distribution has been secured mainly from the Experimental Farms at Indian Head, Sask., and Brandon, Man. The samples consist of oats, spring wheat, barley, Indian corn (for ensilage only) and potatoes. The quantity of oats sent is 4 lbs., and of wheat and barley 5 lbs., sufficient in each case to sow one-twentieth of an acre. The samples of Indian corn and potatoes weigh 3 lbs. each. A quantity of each of the following varieties has been secured for this distribution.

**OATS.**—Banner, Wide-Awake, White Giant, Danish Island, Thousand Island, Improved Ligowo; all white varieties. Black oats are not recommended for general cultivation; a few samples, however, are available, which can be sent if specially asked for.

**WHEAT.**—Red Fife (beardless); Preston, Pringle's Champion and Huron (early bearded sorts); Percy and Stanley (early beardless varieties).

**BARLEY.**—Six-rowed.—Mensury, Odessa, Mansfield and Claude. Two-rowed.—Standwell, Invincible, Canadian Thorpe and Sidney.

**INDIAN CORN** (for ensilage).—Early sorts, Angel of Midnight, Compton's Early and Longfellow; later varieties, Selected Learning, Early Mastodon and White Cap Yellow Dent.

**POTATOES.**—Early varieties, Early White Prize and Rochester Rose. Medium to late varieties, Carman No. 1 and Late Puritan. These later varieties are as a rule more productive than the earlier kinds.

Only one sample can be sent to each applicant; hence, if an individual receives a sample of oats, he cannot also receive one of wheat, barley, Indian corn or potatoes. Lists of names from one individual, or applications for more than one sample for one household, cannot be entertained. The samples will be sent free of charge through the mail. Applications should be addressed to the Director of Experimental Farms, Ottawa, and may be sent in any time before the 15th of February, after which date the lists will be closed, so that the samples asked for may be sent out in good time for sowing. Applicants should mention the variety they prefer, with a second sort as an alternative. Applications will be filled in the order in which they have been received, so long as the supply lasts. Farmers are advised to apply early, to avoid possible disappointment. Those applying for Indian corn or potatoes should bear in mind that the corn is not usually distributed until April, and that potatoes cannot be mailed from here until danger from frost in transit is over. No postage is required on mail matter addressed to the Central Experimental Farm, Ottawa.

WM. SAUNDERS,  
Director of Experimental Farms

### Addresses at the Winter Fair.

A number of important subjects have been decided upon for discussion at the coming Winter fair to be held at Guelph. The sessions of addresses will commence on Tuesday evening, Dec. 10th, and will continue through until Friday morning, Dec. 13th.

The necessity of good roads throughout the Province is receiving considerable attention at the present time, and a session is being devoted to this subject at which, as well as Mr. A. W. Campbell, Good Roads Commissioner for Ontario, being present, Mr. D. Ward King, of Missouri, who is a good roads expert and enthusiast, and inventor of the split log drag, will be present to discuss this matter. This is a subject in which every person will be sufficiently interested to procure all available information as to how the roads may be improved.

Special attention is being given to addresses on the "Economic Feeding of Different Classes of Live Stock." Under the conditions prevailing at the present time, a discussion on this subject will prove very helpful to all feeders of live stock.

One of the most interesting addresses or demonstrations will be given on Friday morning, consisting of a practical demonstration of breaking or training a horse, by Mr. D. Ward King. As well as being of practical value to persons having horses to train, this demonstration will be of interest to everyone, and persons going to Guelph should remain over until Friday and see Mr. King and his method of handling an unbroken horse.

Two sessions will also be devoted to questions in connection with the horse industry, following the report of the special investigation into the horse industry of Ontario by the Ontario Department of Agriculture.

A single fare passenger rate has been arranged over all lines running to Guelph, from December 7th to 13th inclusive, good to return up to Dec. 13th.

### Successful Beginning.

A most successful event was the first venture of the Literary Society of St. James' church, which was held at the residence of Mr. G. H. McGee on the evening of Monday, the 2nd inst. The house was well filled and the programme of a high-class character. The evening was devoted to the Scotch, and was in the hands of Miss Hand, Miss Nevison and Mr. Wiggins, whose efforts were attended with signal success. The rooms were decorated with plaid and Scotch flags, and the heather was worn by many present. The president, in his opening address, pointed to the deeds and achievements of Scotland's sons in history, literature, arms, poetry, philosophy and finance, and pointed out that in social life the Scotchman is a true and lovable man. After the address the following programme was given: Instrumental, "The Bonnie Brier Bush," Miss Flossie Graham; Recitation, "The Laird o' Cockpen," Mr. D. Macadam; Reading, "The Doctor," Miss Cameron; Song, "Scotch Lassic Jean," Mr. John Shane; Recitation, Mr. Wm. Campbell; Song, "Jessie's Dream," Rev. Mr. French; Instrumental (violin), "Blue Bells of Scotland," Miss F. C. Brandon; Song, "Mary of Argyle," Miss A. Hand; Recitation, Mr. Dickson; Song, "Bonnie Doon," Miss Jared; Reading, "Disadvantages of being an Aunt," Miss Emily Hand; Song and violin, "Annie Laurie," Miss Ruby Austin and Miss Brandon. "Auld Lang Syne" was sung by the whole audience. Refreshments were then served, after which Mr. John Austin moved, seconded by Mr. Dickson, a vote of thanks to the host and hostess, Mr. and Mrs. McGee, which was heartily carried, and a most enjoyable evening came to a close. Among those present we were pleased to see Mr. George Webster, of Toronto, general secretary of the Standard Chemical Company, and Mr. John Austin, of the Kinnmount Lumber Company.

BRANDON—HUGHES.

A very quiet but pretty wedding took place on Wednesday evening, November 27th, at the home of Mr. Robert Hughes, Beech street, when his second daughter, Annie Laura, became the wife of Mr. Christopher Brandon, of Fenelon Falls. The bride was given away by her father, and entered the drawing-room at half-past six, looking charming in a dainty dress of white silk trimmed with lace and insertion, and carrying a bouquet of white roses. She was attended by her sister Miss Jean Hughes, while Mr. W.O. Zimmerman supported the groom. After the ceremony, which was performed by Rev. H. Irvine, pastor of the Maple St. Methodist Church, the party proceeded to the dining room where they partook of a daintily served wedding breakfast. Mr. and Mrs. Brandon left on the early train Thursday morning on a short wedding trip, after which they will reside in Fenelon Falls. The bride's travelling costume was of brown panama cloth with hat to match. The many friends of Mrs. Brandon bore testimony of their good will, love and esteem for her by many handsome gifts accompanied by good wishes.—*Collingwood Bulletin.*
