This APPEAL You

.....is for.....
The Great Provincial Charity, The Hospital for Sick Children, Calls On You For Aid.

Remember that this Hospital is not a local institution, but Provincial.

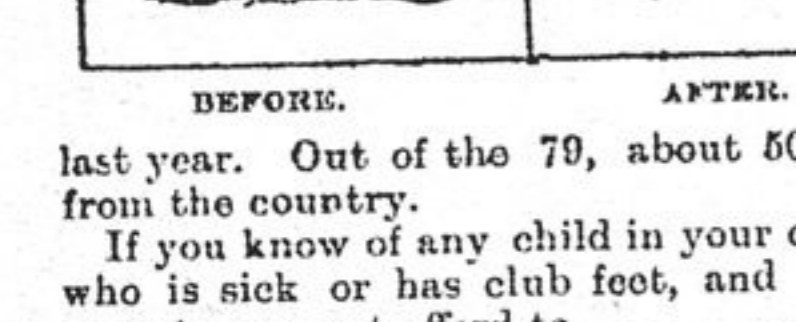

It cares for every sick child in the Province of Ontario whose parents cannot afford to pay for treatment. Busy dollars are better than idle tears. The sympathy that Weeps is good, but the Hospital has to have the sympathy that

Works.
Last year there were 1093 patients admitted. Of these 378 came from 251 places outside of Toronto—all were children of poor people who could not afford to pay for treatment of their little ones.

Each child was in the Hospital 47 1/2 days at a cost of \$1.31 each per day, or \$62.22 for the 47 1/2 days stay.

If your dollar could straighten the feet of a little boy or girl with club feet, you would gladly give it, and your dollar will do that. There were 79 cases of club feet treated

last year. Out of the 79, about 50 were from the country.
If you know of any child in your county who is sick or has club feet, and whose parents can not afford to pay, send the name to the Hospital Secretary.

The stock books are open. Won't you let the Hospital write your name down for a few shares in Heaven's own work of healing little children?

A great mine of Mercy—the mining stock that always pays dividends—is bought with the money that helps The Hospital for Sick Children to extract the Gold of Life from the Quartz of Death.

Please send contributions to J. Ross R. Her son, Chairman, or to Douglas Davidson, Sec. Treas., of the Hospital for Sick Children, College Street, Toronto

"SEVEN LEAN YEARS."

Narrative of Genesis Confirmed by a Discovery in Egypt.

The recent discoveries of Brugsch Bey in connection with the Egyptian hieroglyphics which he deciphered are the subject of an article in the Oesterreichische Wochenschrift, in which the writer says that it is no longer difficult to understand the origin of the "seven lean years" narrative in the Book of Genesis. The inscriptions as translated by Brugsch show that 1700 years before the Christian era the Nile for seven consecutive years did not overflow, and famine, pestilence and misery followed. "We know," says the writer, "that the date of the seven years of fruitlessness mentioned in Genesis was 1700 B.C., and thus what has been looked upon as a fancy has through these hieroglyphics become a matter of history. The failure of the Nile to overflow, the withering of the vegetation, the lands devoid of crops, famine and the consequent scourges are all depicted in the pictures which the student has been able to decipher."

Many inherit weak lungs, and as disease usually assails the weakest point, these persons are continually exposed to attacks of cold and pulmonary disturbances. The speedy use of Bickel's Anti-Consumptive Syrup will be found a preventative and a protection, strengthening the organs so that they are not so liable to derangement from exposure or abrupt atmospheric changes. Bickel's Syrup is cheap and good.

"Would you like to attend a lecture on the fine arts?" "No," answered Mr. Cumrox. "Mother and the girls can make me feel my ignorance sufficiently at home free of charge."

BE SURE YOU GET THE KIND YOU HAVE ALWAYS HAD, "The D. & L." Menthol Plaster. For rheumatism, neuralgia, etc., nothing is better. Made only by Davis & Lawrence Co.

"I don't believe," said Mrs. Henry Peck, "that I would be afraid of a man-eating tiger." "I don't believe you need to be afraid," responded Henry Peck. "He'd recognize a kindred spirit."

The Demon, Dyspepsia.—In olden times it was a popular belief that demons moved invisibly through the ambient air, seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so possessed should know that a valiant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready for the trial.

TELEPHONIC.
When a man is at home and the telephone rings his wife's haste to answer it is not due so much to saving him the trouble as to finding out for herself if the person at the other end is a man or a woman.

ALLEN'S LUNG BALSAM is especially intended to break up neglected coughs and many hopeless cases have been saved by its use. Contains no opium in any form.

OCCULT INFLUENCES.
"Jigsby must be awfully in love with his wife."
"What makes you think so?"
"He can eat her angel cake without having an attack of indigestion."

ITCH, Mange, Prairie Scratches and every form of contagious Itch on human or animal cured in 30 minutes by Veldford's Sanitary Lotion. It never fails. Sold by all druggists.

OF A DIFFERENT COLOR.
Parson: "So your husband lost his money on a racehorse?"
"No," answered young Mrs. Torkins. "He lost it on an animal he thought was a racehorse."

A Medicine for the Miner's Pack.—Prospectors and others going into the mining regions where doctors are few and drug stores not at all, should provide themselves with a supply of Dr. Thomas' Electric Oil. It will offset the effects of exposure, reduce sprains, and when taken internally will prevent and cure colds and sore throat, and as a lubricant will keep the muscles in good condition.

A scientist says that rocking-chairs make people deaf and near-sighted. He has evidently observed two people occupying the same chair.

TONS OF IRON consumed each year in medicine. In "Ferrovin," the best tonic, it is so cleverly manipulated that the weak and sickly get all possible nourishment and benefit from it.

Old Beau—"I want an engagement ring." Jeweller—"Solid or plated?" Old Beau—"Will a plated one last for six months?" Jeweller—"Oh, yes." Old Beau—"Well, that will do. My engagements only average three months."

A bright girl in a large school applied to her teacher for leave to be absent half a day, on the plea that her mother had received a telegram which stated that company was on the way. "It's my father's half-sister and her three boys," said the pupil, anxiously, "and mother doesn't see how she can do without me, because those boys always act so dreadfully." The teacher referred her to the printed list of reasons which justify absence, and asked if her case came under any of them. "I think it might come under this head, Miss Rules," said the girl, pointing as she spoke to the words, "Domestic Affliction."

SEA'S TOLL IN MIQUELON.

One Hundred and Twenty-three Lives Lost in Season Just Ended.

One hundred and twenty-three persons perished in the fishing fleet from St. Pierre, Miquelon, off the coast of Newfoundland, during the season now ended, according to statistics just compiled. Seven vessels were lost. Five of the craft were owned by the Morue Company, and were lost with all on board. One of them, the Madeline, with twenty men, has never been heard from since she left St. Pierre early in the season. Most of the men lost left large families, many of whom live at St. Malo, Lorient or other French ports. Nearly all the wrecks were in the heavy storms of September and October. The catch of the St. Pierre fishing vessels for this season, which averaged 1,780 quintals for each of the seventy-one schooners, shows a marked increase over previous years, and has restored activity in every section of the island.

Mr. Kipling's Canadian Tour.

Ontario and all Eastern Canada is deeply disappointed that Mr. Kipling, upon the occasion of his recent visit to Canada, should have only seen "The West from a Car Window" and the East not at all. The older provinces are always proud and never jealous of the West, into which they are sending their shekels and their sons. With all his powers as a word painter, it is hardly to be expected that Mr. Kipling can do justice to all of Canada. He has not seen the thriving cities and towns of Ontario, with its splendid railways, mills, and manufacturing industries. He had only a fleeting glimpse of Toronto, and saw nothing of the score or more other industrial centres of the Dominion. It is too bad, Canadians believe, that he should have spent the most of the time which he was able to give to the study of conditions in the Dominion to the troubled shores of the Pacific. With no desire to minimize the seriousness of the labor disturbances out there, or to disguise the fact that Canada is in sore need of more men to carry forward the work in hand, Canadians would have been proud of some pen pictures by Mr. Kipling of the industrial East, where the people are prosperous and happy. This conviction is by no means local—it is widespread, universal. ("Canada," London, Eng., Nov. 16th, 1907.)

A Magic Pill.—Dyspepsia is a foe with which men are constantly grappling but cannot exterminate. Subdued, and to all appearances vanquished in one, it makes its appearance in another direction. In many the digestive apparatus is as delicate as the mechanism of a watch or scientific instrument; which even a breath of air will make a variation. With such persons disorders of the stomach ensue from the most trivial causes and cause much suffering. To these Parmelee's Vegetable Pills are recommended as mild and sure.

DEFORESTATION IN AFRICA.

According to J. Dykowski, a progressive desiccation of the air and soil is manifest in the region of the Sudan, the underlying cause being the destruction of the original forests. Cape Verde is cited as an example. In the eighteenth century the botanist, Anderson, described it as covered with a vast forest, whence its name. Now the forests are gone, the rivers are diminished, sheets of water have disappeared, and the productivity of the soil is falling, until in many places the region has become almost sterile. The natives began the destruction of the forests ignorantly; white men continue it for immediate selfish ends.

"Gentlemen of the jury," said the prosecuting barrister, "this prisoner is an unmitigated scoundrel; he acknowledges it. And yet, thanks to the wisdom of the common law, he has been given a fair trial by a jury of his peers." The prisoner was acquitted.
