

**Mr. Kipling's Canadian Tour.**

Ontario and all Eastern Canada is deeply disappointed that Mr. Kipling, upon the occasion of his recent visit to Canada, should have only seen "The West from a Car Window" and the East not at all. The older provinces are always proud and never jealous of the West, into which they are sending their shekels and their sons. With all his powers as a word painter, it is hardly to be expected that Mr. Kipling can do justice to all of Canada. He has not seen the thriving cities and towns of Ontario, with its splendid railways, mills, and manufacturing industries. He had only a fleeting glimpse of Toronto, and saw nothing of the score or more other industrial centres of the Dominion. It is too bad, Canadians believe, that he should have spent the most of the time which he was able to give to the study of conditions in the Dominion to the troubled shores of the Pacific. With no desire to minimize the seriousness of the labor disturbances out there, or to disguise the fact that Canada is in sore need of more men to carry forward the work in hand, Canadians would have been proud of some pen pictures by Mr. Kipling of the industrial East, where the people are prosperous and happy. This conviction is by no means local—it is widespread, universal. ("Canada," London, Eng., Nov. 16th, 1907.)

**PRAYER IN RAILWAY CARRIAGE.**

Passengers in Darkness in Hampstead Tube, Heard Dr. Horton's Prayer.

The amazing spectacle of a celebrated Nonconformist divine lifting up his voice in prayer in a "Tube" railway carriage was witnessed the other day. Dr. Horton, of Lyndhurst Road Church, Hampstead, London, England, was travelling in the Hampstead Tube, when the train stopped suddenly and the passengers were left in complete darkness. They took little heed of the occurrence at first, but when the stoppage and the darkness continued for a quarter of an hour, then half an hour, and then nearly an hour, they began to be perturbed. Dr. Horton thereupon rose to the occasion. He suggested that they should pray. The passengers agreed, and Dr. Horton led with the words, "Lord, wilt Thou bring us out of this darkness into the light of safety?" He had no sooner uttered the supplication than the carriage was flooded with light, and the train went on its way. "Some people may call this a coincidence," Dr. Horton says, "but putting this with other similar experiences in life we must know that they reveal a prayer-hearing and a prayer-answering God."

Sudden transmission from a hot to a cold temperature, exposure to rain, sitting in a draught, unseasonable substitution of light for heavy clothing, are fruitful causes of colds and the resultant cough so perilous to persons of weak lungs. Among the many medicines for bronchial disorders so arising, there is none better than Bickel's Anti-Consumptive Syrup. Try it and become convinced. Price 25 cents.

**BANANA INK.**

"The banana furnishes us with ink, with handkerchiefs, with wax, with blacking, with excelsior, with oil, with flour, with window-cord, with brushes." The speaker, a banana planter from Jamaica, paused and smiled. "You don't believe me, do you?" he said. "Yet, truly the banana tree is a wonderful thing. Every part of it serves some good use. Thus the long leaves make a fine excelsior. The juice, being rich in tannin, furnishes a good indelible ink and a good shoe polish. The stems yield a fine quality of hemp and from this hemp there are made lace handkerchiefs, cord and ropes of all kinds, mats and brushes. The oil is used in gilding. Of banana flour, the flour ground from the dried fruit, there is no use speaking—you are too familiar with it."

As the Oil Rubs In, the Pain Rubs Out.—Applied to the seat of a pain in any part of the body the skin absorbs the soothing liniment under brisk friction and the patient obtains almost instant relief. The results of the use of Dr. Thomas' Eclectic Oil have surprised many who were unacquainted with its qualities, and once known it will not be rejected. Try it.

"Ever been in Siberia?" asked the reporter. "Er—yes," answered the distinguished Russian refugee. "I took a knouting there one summer!"

All women know what it is to have violent pain; some take one thing and some another. Our advice is to place "The D & L" Menthol Plaster over the seat of the pain; it will do more to give you comfort than anything.

**NOT WHAT HE ASKED.**

In these days of individualism in thought and action the balance of decision tips more and more toward the personal. Even in the matter of spelling, the ego asserts itself in the face of tradition and history. "Bobby" is not the only person who constitutes himself the final court of appeal in the realm of orthography.

"So you go to school, do you, Bobby?" asked the minister.

"Yes, sir," answered Bobby.

"Let me hear how you spell 'bread.'"

"B-r-e-a-d-e."

"The dictionary spells it with an 'a,' Bobby."

"Yes, sir; but you didn't ask me how the dictionary spells it; you asked me how I spell it."

A Purely Vegetable Pill.—Parmelee's Vegetable Pills are compounded from roots, herbs and solid extracts of known virtue in the treatment of liver and kidney complaints and in giving tone to the system whether enfeebled by overwork or deranged through excesses in living. They require no testimonial. Their excellent qualities are well known to all those who have used them and they commend themselves to dyspeptics and those subject to biliousness who are in quest of a beneficial medicine.

The unhealthiest occupation in the world is that of the Sicilian sulphur miners. Out of 4,000 of these men, only 200 proved, on a recent examination, fit for military service.

They Never Knew Failure.—Careful observation of the effects of Parmelee's Vegetable Pills has shown that they act immediately on the diseased organs of the system and stimulate them to healthy action. There may be cases in which the disease has been long seated and does not easily yield to medicine, but even in such cases these Pills have been known to bring relief when all other so-called remedies have failed. These assertions can be substantiated by many who have used the Pills, and medical men speak highly of their qualities.

**WAR FOR WARMTH.**

There are various ways of keeping oneself from becoming benumbed by the cold, but perhaps not the least remarkable is that adopted by two soldiers of the first regiment on duty in a fortress on the Italian-French frontier on Mont Cenis. While going off duty towards their barracks they lost their way in a snow-storm, and when found by their comrades they were in a pitiful condition. On being carried to their barracks, they related how they had struggled for two days against the blizzard, and in order to keep themselves awake, and to counteract the effects of the cold, they unceasingly struck one another. At times they fought stubbornly for hours on end, which explained the reason for the exhausted state in which they were found.

**PREVENTION OF THE WHITE PLAGUE**

The prevention of Consumption and its cure in the early stages is a matter of fresh air and nourishment, but to secure nourishment you must have appetite, and nothing is better known to medical science to stimulate and invigorate the system than the active principles of **COD LIVER OIL**—the only drawback has been that it has hitherto been impossible to separate the really valuable elements of cod's livers from the nauseous oil or grease, which fact has largely offset the good derived from the alkaloids or active principles contained in the OIL.

"BRICK'S TASTELESS" is a preparation of the valuable alkaloids or active principles separated from the grease and combined with Phosphorus in the form of the Compound Syrup of Hypophosphites, the nutritious Liquid Extract of Malt, and the Bronchial Tonic and Sedative Fluid Extract of Wild Cherry Bark.

In all cases of wasting diseases or an enervated condition of the system immediate improvement and eventual cure follow its use.

**Get Your Roofs Shingled Right**  
It's Less Money and Less Work

**Tools A-Plenty**

You can put on a roof that will last a hundred years and be the right kind of a roof every minute. Or you can put on a ten-year roof that will probably leak after the first rain hits it, and keep leaking till it is rotted away.

Either roof will cost you about the same in money at the start. But the "Oshawa" shingled roof will be FIRE-PROOF—literally; and wind-proof—actually; and lightning-proof—positively. That's the hundred-year roof! And that "Oshawa"-shingled roof will be weather-proof for a century. We'll GUARANTEE in every way for a quarter-century—from now till Nineteen-Thirty-Two.

Guaranteed in writing for 25 years—and you needn't ever paint it, even! That's saying something, isn't it? What would your mill-man say if you asked him to guarantee cedar shingles for even ten years? He certainly would make remarks!

And even the best cedar-shingled roof will be leaking badly inside of ten years. Seven out of ten of them leak the first time it rains. No wood-shingled roof is fire-proof for a minute, and the first high wind that catches a loose shingle—whoosh! goes half your shingled roof over into the next township.

Yet cedar shingles cost you just about the price of these guaranteed "Oshawa" Shingles—28-gauge toughened steel, double galvanized—good and-wind-and-weather-proof and lightning-proof. Four-dollars-and-a-half a square buys "Oshawa" Galvanized Steel Shingles—ten feet by ten feet. Compare that with the present price of cedar shingles—how does it strike you? And you can put on these "Oshawa" Galvanized Steel Shingles yourself, easily, with no tools but a claw-hammer and snips. Simplest thing you know—can't get 'em on wrong. "Oshawa" Shingles lock on all four sides—whole roof is practically one sheet of double-galvanized steel, that never needs painting.

And GUARANTEED—don't overlook that. Guaranteed in writing, over the seal of a company with a quarter-million capital, guaranteed in plain English, without any ifs or buts, for 25 long years. That's the argument in a nutshell—cost the same as wood-shingles; fire-proof, water-proof, rust-proof, lightning-proof; easier to put on; and GUARANTEED. That's the "Oshawa" proposition! Tell us the measurement of any roof, and we'll tell you exactly what it will cost to roof it with less work and for less money.

Plenty of facts that concern your pocket-book come to you as soon as you ask for our free book, "Roofing Right." A post card will do to ask on.
