

The Dearth of Labor.

The unemployed in Toronto parade the streets carrying a black flag to further emphasize the fact that they are out of work; and this would therefore be a most opportune time for the emigration agents and for the traffickers in human lives to explain where that great dearth of labor we heard so much about two months ago, existed. The cry of the unemployed is now being heard from coast to coast; and we therefore deem it our bounden duty to call the attention of our ultra-patriots, who have so long been consumed with a burning desire to develop the "vast, unlimited resources of our grand and glorious heritage," that their opportunity has at last arrived; that their prayer is heard, and all that is now necessary is for them to hurry along with the developments. We are convinced from their continual screechings that the field is here, and are also very truly and sorrowfully convinced that the laborers are here to do all the developing that is to be done.—*Labor's Realm.*

Disease Among Pigeons.

In reading about the diseases that pigeon flesh is heir to, it is no wonder that a good many people are deterred from embarking in an enterprise where such a handicap is against them. Poultry Item truly observes. They would, however, think differently if they could be assured that pigeons naturally are most vigorous, hardy and strong birds. And when common sense and regular and intelligent management are given them the question of disease need be no stumbling block whatever.

Preparing Fattening Food.

Where soft food is used extensively for fattening purposes the food is heated in large cast iron cook kettles holding from 100 to 150 gallons. These kettles are made specially for cooking food for stock and are supplied by all poultry supply and farm implement houses. A lot of food cooked in one of these covered kettles will keep hot from ten to twelve hours after the fire under the kettle is out.

LEARN DRESSMAKING BY MAIL

In Your Spare Time at Home. Or Take a Personal Course at School.

To enable all to learn, we teach on cash or installment plan. We also teach a personal class at school once a month—class commencing last Tuesday of each month. These lessons teach how to cut, fit and put together any garment, from the plainest shirt waist suit to the most elaborate dress. The whole family can learn from one course. We have taught over 7,000 dressmakers and guarantee to give \$500 to anyone who cannot learn between the ages of 14 and 40. You cannot learn dressmaking as thorough as this course teaches it if you work in shops for years. Beware of imitations, as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada, and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address

SANDERS DRESS CUTTING SCHOOL
31 Erie Street, Stratford, Ont., Canada.

WANTED AT ONCE—We have decided to instruct and employ a number of smart young ladies to teach our course in Dressmaking, having one teacher for the six nearest towns where they live—age 20 to 35. Those who have worked at dressmaking or like drawing preferred. Please do not apply unless you can devote your whole time. Address, **THE SCHOOL.**

INTENDING PLANTERS OF NURSERY STOCK.

Should either write direct to us or see our nearest agent before placing their order. We guarantee satisfaction. Prices right. Fifty years' experience. Extra heavy stock of the best apples.

KEEP YOUR FEET DRY.

This is the cold-catching season. Colds are dangerous customers. Nearly all colds are caused by wet feet. Keep your feet dry with a pair of good rubbers. And when buying the rubbers, select them from my stock—a stock that has value for every cent of the money you spend, and variety to make selection easy and satisfactory.

J. W. BRYANS,
Successor to Geo. Martin,
FENELON FALLS.
