LIFE THROUGH FRIENDSHIP PINK PILLS

The Best Thing You Can Give the World Is a Good Life.

"Greater love hath no man than this life. Without the shedding of blood that a man lay down his life for his there is no pulting away of the things that debase and hinder; there is no salfriends."-John xv., 13.

It often seems that the laying down vation for humanity without the putor life is a particularly attractive ting of our blood and bone and sinew theme to people who have no lives into its service. worth laying down. They like to talk | Life is the only power that can make of the cross and the shame and the life. The new life of society can come

salvation of the world. In every one life. of us there is something that answers and thrills to the thought of sacrifice; given themselves gloriously.

Every normal man desires the salvation of the world, that is, the realiza-lity and spiritual health with which to tion of its highest possibilities, its per- live; every evil life means so much fection on the pathway of progress, and he asks, What does this mean, this laying down of a life for the lifting up of the world?

the salvation of the people in the world. the outgoing of all good qualities in If natural objects are defiled we have ourselves and their impartation to defiled them; if society is deranged it others. The contact and infusion with is people, persons, who have deranged character we cannot escape. They who

QUEER CHARITIES.

In the little town of Munsiedel, in

Bavaria, there exists one of the most

curious charitable foundations in the

world. One of the burghers, Christo-

pher Wanner, died in 1451, and left his

fortune for the establishment of a home

for aged poor. He attached, however,

the condition that every old man who

was taken in should wear a beard, and

the same cut of clothes and cap as he

himself used to wear. Consequently,

after the lapse of 450 years, the ancient

pensioners are still to be seen wander-

ing about the streets of Munsiedel in

the costumes of the fifteenth century.

Ont.

No sane mother would wish herself

shedding of blood, and they succeed in only by vital processes. Our lives, the satisfying their impulse for doing deep inner lives, are creating other these things by simply describing them. lives. Round Centerpieces

OUND and square centerpleces and teatable covers vie with each other for popularity. Matching sets of dollies of various sizes are in demand for use with centerpieces for luncheon decorations.

Some few buyers consider that there is a lessening demand for square pieces, and to confirm this they state that the round table now so much in vogue has been the cause for the increased interest

in the round centerpieces. Be this as it may, importers state that they find no falling off in the demand for the square centerpiece, which can assuredly be used on a round table with good effect if it be placed with the points toward the head and foot of the table and at the sides. Madeira embroidered centerpieces and

small table covers, as well as doilies worked in English eyelet designs, have been quite successful this season and bid fair to increase their popularity.

New Embroideries

VERY garment that a woman and child wears is, or should be, embroidered, if one follows the fashion of the hour.

This pretty custom of using handwork upon garments has taken a firm hold upon the women of America.

The detail of the embroideries used is so simple that any woman can do satisfactory work with little experience in

artistic needlework. Shadow embroidery is universally used on all sorts of thin material, both in white and colors, but this does not mean that French and eyelet embroidery are neglected.

"Pa!" "Yes?" "Where did the Wandering Jew wander?" "In his mind, I suppose, my son."

WILL CURE RHEUMATISM The Home

EVERY FORM OF DISEASE YIELDS TO THIS BLOOD BUILDING REMEDY.

. It is easy to make the statement that a medicine will cure rheumatism, but the rheumatic sufferer must have more than mere statements-he must have toth reasons and proof. Dr. Williams' Pink Pills cure all forms of rheumatism. Here is the reason: Rheumatism is a disease of the blood. Every dose of Dr. Williams' Pink Pills actually make new, rich, red blood. This new blood drives out the poisonous acid, lcosens the aching joints, and rheumatism is banished. Thousands have testified to the truth of these statements, and here 's further fresh proof. Mr. Raoel Montigny, of St. Jerome, Que., says: "For many years I was a victim of rheumatism and was almost a cripple. My work made it necessary for me to be on my feet a good bit of the day, but my limbs became so swollen and the pain so agonizing that I was forced to stop work. I tried remedy after remedy, but nothing gave me relief and I began to think I would never get better. At last I was persuaded to try

Dr. Williams' Pink Pills. In less than a month I noted a slight change in my condition. I continued the Pills any kind, and when done you have a for three months and at the end of this cake that is fit to serve on any occasion. time the swelling had disappeared; every pain and ache had left me and

Eyelet Work

YN WORKING a large eyelet it is sometimes necessary to cut the material in the center of the circle thus: mark a small cross in the center of the stamped eyelet, cut through the four arms of this cross a straight slash with sharp-pointed scissors, turn one of the cut sections back and under with the point of the needle and work over and over stitches around the edge to the next section, which should also be turned back and under, in the same manner described for the first section. Repeat until the four sections have

been turned back and the edge of the

eyelet covered with the over and over stitches. Remember, in making large or small eyelets, to take up on the needle, for each stitch, the least possi-

ble amount of material.

Smith, the railroad agent at a subthe life of a dignified gentleman walting for a train, by pulling him from in front of a through train on another track. The dignified gentleman lost all his dignity for a moment and was much confused, but not so much so as to forget that something was due to the agent. Following a grateful impulse, he thrust his hand into his pocket. and, drawing it forth, exclaimed:

"Man, you've saved my life; here's half a dollar." "Oh, I never take payment for a thing like that," answered Smith, as he turned to attend to the duties of the

moment. "But man, you must; you saved my life. Have a cigar, anyway."

COULD TAKE A JOKE.

Benevolence twinkled out of Mr. Good sorts eyes and smiled at you from his lips. Consequently he was marked down as legitimate prey by every tramp who saw him.

A particularly healthy specimen of the sons-of-rest fraternity accosted him one day and pleaded for money for a night's lodging. Goodsort noticed his healthy look and said:

"Well, look here, my man. What would you say if I offered you work?" "Bless yer life," came the reply, wouldn't mind a bit. I can take a joke same as most people."

BEST COALITY.

A benevolent gentleman attempted to converse with the motherly old lady who sat next to him in the railway barriage. He discovered that she was very deaf, and the conversation was established by shouting.

"You are very deaf, aren't you, ma-Lonevolence.

"I am so," was the reply, "and haven't been able to do a thing for it." "Have you ever tried electricity?" shouted the 12nd-hearted man.

"Yes," she said, nodding vigorously, "I was struck by lightning last sum-

CAKES.

Experiment for Cake Makers .- When you are baking a cake try putting it in the cold oven and lighting but one burner, half way turned on. You will find this method not only saves gas and a heated kitchen, but your cake will be evenly baked and free from all burn.

Birthday Cake.—First make a plain cake in three layers, with boiled frosting. On the top layer before the frosting cools sprinkle generously some coated caraway seeds, different colors, purchased at a confectionery store for 3 cents, over the sides and edge, then get the red roses for candle holders for 3 cents with candles to match. The name is spelled out with the small red cinnamon drops for 5 cents.

Quick Cake Filling .- Take one pound of good maple chocolate creams and crush them one by one with your fingers and place them on the hot layer until it is covered, then place on another layer and cover same as before. The remaining chocolate creams may be melted and used for icing. For a chocolate or maple filling this has no equal, and besides it is always ready for use. By using the creams it does not take as long to bake will keep your kettle clean inside. a layer cake as it does to bake cake of Chocolate Cream Cake.—Two cups

granulated sugar, one cup butter, one I felt better in every way. I was cup milk, two and one-half cups flour, completely cured and once more able whites of seven eggs, three teaspoonfuls to go about my work with ease. Dr. of baking powder, one teaspoon vanilla. This is all put together and beaten three minutes exactly. Bake in two layers twenty to twenty-five minutes. Filling: One cup of sliced dates, one-quarter cup of granulated sugar, rind and juice of one lemon, two tablespoons of orange juice, two tablespoons of hot water. Boil until it thickens; when cool spread between layers.

BAKING.

break the yeast cakes into small pieces | three inches long. Then tie in the midin one-half cup of lukewarm water. Add | die and you have a little brush which one tablespoonful of sugar and put in a will clean your grater in a minute's warm place. If the yeast is good it will time. It is worth having and does not rise to top of cup in less than ten min- spoil your broom in the least.

Baked Beans .- To bake beans without barboiling, soak over night in plenty of water with a little baking soda. Drain, add fresh water, season as usual, bake slowly three or four hours, adding hot water to barely cover as they become | nome-made mixture said to be

New Bread.-Take one large potato and grate it. Then take three tableurban station in a Western city, saved spoonfuls of flour and one of salt and one of sugar. Then pour one quart of The Philadelphia and New York Newsboiling water over the contents. Let cool and then stir in the yeast. This will make three large loaves when baked.

Baked Rice.-A little more than cover the bottom of a quart baking dish with rice, wash clean and fill basin nearly to the top with milk; add one-half cup of sugar and a pinch of salt, and grate a little nutmeg on top. Place in a moderale oven and bake until rice is nice and soft. Convenient to make when baking bread, as it usually bakes in about the same time.

Graham Bread .- To one quart of graham flour, one teacup of rye flour, one teacup of wheat flour, half teaspoon of salt, two or three tablespoons (according to taste) of molasses, and a piece of butter size of a walnut. Add one and a half pints of lukewarm water in which a cake of yeast has been dissolved, and mix all thoroughly together. Set in a moderately warm place, free from drafts, to rise. When well risen, add one tablespoon of wheat flour. Knead well; place in pans and set to rise. When well risen bake in a moderately quick oven. About fortyfive minutes will be sufficient to bake. mixed over night use half cake of yeast

PASTRY.

Schaum Tarte.-Whites of six eggs, beaten; two cups of sugar, two teaspoons of vanilla; two teaspoons of vinegar. Serve with fresh fruit, whipped cream. This cake must be baked in a spring cake

Saye Time Making Pie.-Thoroughly mix two cups of lard with six cups of flour and a little salt, then put in a jar, cover tightly, and set in a cool place. When making a pie use for two crusts (medium) one cupful of mixture and moisten with two scant tablespoons of water. This can be mixed up some morning when there isn't much to do.

Dried Currant Pie.-Some day when tlam?' untimately bellowed he of the you wish a new dessert try a dried currant pie. This recipe was originated by a woman one year when fresh fruit was scarce. It proved a great success and was so delicious that it was called for many times afterward. Carefully pick over and wash one pound of Zante currants. When the currants are ready for use pour cold water over them and drain | prompt reply.

il off just before putting them into a pan lined with piecrust. Cover the fruit with slices of currant jelly (grapes or apple jelly will do as well); cover with the top crust and place in the oven. The heat in baking makes the wet currants swell up like fresh fruit and melts the jelly into a delicious fruit syrup, thus making a fine substitute for a fresh fruit pie.

CANDY.

Peppermint Wafers.—Two cups of sugar, two-thirds cup of water, one-thirds teaspoon of peppermint. Cook till it hairs, then stir till thick enough to drop on buttered tins or paper.

Molasses Taffy .- One cup of brown sugar, two cups of New Orleans molasses, one tablespoon of butter, one tablespoon of vinegar; boil, but do not stir too much. Cook until brittle when dropped into cold water. Then pour into greased tins. Let it stand until it can be handled comfortably. Cover the hands with flour or butter and pull the candy until it is too stiff to be worked any longer, then place on a board and cut or break into small picces.

USEFUL HINTS.

Wash Bottles with Gravel .- For washing bottles and long neck vases use a sniall amount of bird gravel. One package will last a year, as it can be rinsed several times.

Keep Crust from Kettle.-Keep an oyster shell in your teakettle and you will not be troubled with a crust forming on the bottom or sides. The oyster shell attracts the particles to itself. Try it. It

Useful Ice Pick .- Take an ice pick, break off the sharp point, and make it smooth and round. You can use it to run the dishcloth around in milk bottles, to clean corners of the roasting pan, to pull staples up out of the straw matting, to clean window corners and any place where a scrub brush will not reach.

To Remove Dust from Rugs .- To clean a rug perfectly free from dust, turn wrong side up and scrape hard all over with anything that has a hard, smooth, straight edge; the dust is loosened and falls from the carpet to the floor, where it can be swept up. Use a small piece of board about one and a half feet long and one-half foot wide.

To Clean Wood.—If your kitchen table or your bread board is discolored, and scrubbing with soap does not whiten it, take a piece of bathbrick, wash the board with hot, soapy water, and then rub it thickly with the bathbrick. Then use a good scrub brush and more hot water, give a thorough scrubbing, rinse it in clean water, and if possible put it out in the sunlight to dry. Fine sand used instead of a bathbrick will usually, in conjunction with soap and water, remove the obstinate stains.

Make a Grater Cleaner.-Don't waste time cleaning your nutmeg grater with a fork or a toothpick when it is easier done. When you buy a new broom take a few straws here and there until you have a little bunch, and cut them off Yeast Test .- To test compressed yeast, even on both ends, making them about
