Work on the canal is proceeding with a rush. One car load of lumber is on the ground and another expected this week. Several teams of horses have been busy hauling gravel for the lock.

Powles's Corner.

(Correspondence of the Gazette.)

The winter months in this part of Canada seem to be getting more severe, and we shall be wise if, in the future, we prepare for the worst. This winter will

teach farmers that it is a mistake to keep more cattle, especially milch cows, than they have feed for.

Last Monday evening Mrs. Jas. Powles received a sad message from Midland, stating that her sister, Mrs. Thos. Payne, was soon to be called away from this earth to a better life beyond.

Last Saturday Mrs. Wm. Cooper received information that her father, Mr. Edwin Worsley, near Zion, was so low that there was no hope of his recovery.

The hockey team here crossed sticks with the Red Rock team on the Fenelon Falls rink last Tuesday night, and resulted a little in favor of our team, the score being 5-4.

Mr. Norman Gillis started for the North-west last Tuesday, and Mr. Robert Cochran intends to start next Tuesday, and Mr. L. McGee about the last of this month. These young men have our very best wishes for their future prosperity wherever they decide to locate.

There will surely be a good demand for labor during the coming summer, with the Trent Valley Canal, the Grand Trunk Pacific and the road from Midland to Peterborough that the Grand Trunk Company intends to build. The farmers will also require quite a number of men, and if there is a big crop in Manitoba and the North-west Territories, a crowd of harvest hands will be needed. No doubt there will be a large immigration to Canada this season; and there is one class of people that should not be allowed to come; and that is the Italians, about ninety-eighty per cent. of whom carry knives.

Mr. Wm. Rettie is moving on to Mr. T. Hodgson's farm, south of the village.

Mr. S. Suddaby spent Monday in Fenelon Falls.

The basket social held by the Ladies' Aid of the Methodist Church was a decided success, a fair sum being realized.

Mrs. Wm. Hodge, of Lindsay, is visiting at Mr. Umphrey's.

Miss Jennie Suggitt, of Baddow, visited Miss Townsend over Sunday.

All the camps are breaking up for the season, Moore, Connell & Wiggins, in Galway, closed last week and have a large amount of logs ready for the next year's cut.

The many friends of Mr. M. Smith are sorry to hear of his illness. Mr. Smith is improving favorably under the care of Dr. Wilson.

Mr. S. Brisbin, a resident of Burnt River, was injured while working at Mitchell's Bridge on Friday last.

Owing to the condition of the roads, no service was held at Burnt River on Sunday last.

The Sow is Important.

In feeding swine for market, the whole structure must have as its foundation the brood sow. With proper methods here, the feeder will have strong, lusty pigs to begin with. By growing them on pasture as much as possible, they will remain strong and vigorous, and when the time comes for the final fattening on corn, he will have an animal with strong powers of digestion and assimilation, and capable of withstanding heavy forced feeding without developing any form of constitutional weakness.

Trees and Shrubs.

As a general thing, deep trenching or subsoiling, with liberal manuring, and then thorough culture if the trees and shrubs are growing in borders, or free watering if standing in the sod in seasons of drought, are the things needful for producing the best returns. Because these points are not better heeded three-fourths of all the trees and shrubs in private grounds are set out poorly, grow slowly and hardly make a decent showing in a lifetime.—E. A. Long.

Use Your Watch Right

What would you think of an engineer who ran his engine two or three years, night and day, without cleaning or oiling?

What would you give him for his machine after a few years of such use.

And yet you subject your watch—a far more delicate piece of machinery, to just this treatment.

Don't you think it would pay you to have it cleaned and oiled up once a year.
