

NEWS OF THE NEIGHBORHOOD

Norland.

Correspondence of the Gazette.

The Methodist church here held a Pie Social on Tuesday, instead of an entertainment. Games were played, and afterwards the pies were sold. The amount taken in was \$16.85.

An alarming event took place here last week when Mr. Fred. Gunn was taken suddenly with cramps. His grandmother, Mrs. H. Gunn, with whom he is living, went for his wife, who had just gone to her father's a few hours before. While going she met Mr. Frank Goddard and she asked him to go in and stay while she was gone. He went in but could find nobody. The sewing machine had been placed against the door. When Mrs. H. Gunn and Mrs. Fred Gunn and her father, Mr. Thomas Cooper, returned they found Fred in bed and an empty laudanum bottle on the table. They at once sent for Dr. Austin and Fred's mother, Mrs. Weaver, and his brother George. When Dr. Austin arrived he put a pump in his patient's throat to pump out his stomach, but failed to find any laudanum.

The friends of Mr. Wilson will be glad to hear that he is recovering.

Correspondence of the Gazette.

District Notes.

Hastings fire brigade will hold a big celebration on July 1st.

The Firstbrook box factory at Penetanguishene was burned on Tuesday of last week, and a large number of men are thrown out of employment. The factory will be rebuilt.

Rev. F. H. Battersby, of Young's Point, who was recently ordained deacon of St. John's Church, has been appointed to the mission of Cardiff and Monmouth, Haliburton county. The Rev. C. R. Spencer, of Essonville will take charge of Young's Point.

The body of Edward Deaman, who has been missing since the night of Tuesday, December 10, was taken from the river at Peterboro on Thursday morning at 10.30 o'clock at Point St. Charles, 300 or 400 yards below the C. P. R. bridge, from which he is supposed to have fallen.

Peterboro Examiner: One of the boilers in the basement of the Nicholls Hospital exploded on Wednesday afternoon with a very loud report, and considerably damaged the furnace and pipes nearby. Timbers near at hand were wrenched, but no damage was done the floor, although it was considered rather wonderful that it should have escaped.

Saturday morning's Klondike flier had an immense crowd of farmers bound for Lindsay. At almost every flag station a stop had to be made to take on good sized crowds, which had gathered from the country round about, to come to town. One of the train hands was overheard to say that it was as bad as one of the rush days to the Lindsay Central fair.—Post.

Kenneth Randal, of the Lindsay hockey team, was acquitted of the charge brought against him of having maliciously struck Switzer, of the Midland team, with his stick during a game at the Lindsay rink a short time ago. Police Magistrate Jackson, after hearing and considering a large amount of evidence, decided that the blow, which almost destroyed one of Switzer's eyes, had been accidental.

His Honor Judge Harding on appeal has quashed the conviction made by Police Magistrate Moore against Jeremiah Twomey, of Fenelon Falls, for refusing to supply a meal to some members of the Cobocok Hockey Club. His Honor holds that Mr. Twomey's conduct was only reasonable, and that under the circumstances, he had a valid excuse for not being able to furnish a meal within the time limit. R. J. McLaughlin, K. C., acted for Mr. Twomey, and I. E. Welden for the Crown.

Ten years ago a good factory, 30 x 60 was built here to manufacture butter and cheese, at a cost of \$240. The building was first-class and the machinery the best obtainable. The factory has had a hard struggle to keep going, but has closed the past year or two. The directors having tried to dispose of it, found the hand cream separator had displaced the factory method, so decided to sell out the whole property. A Peterboro firm bought the machinery for \$300, and the factory, which could be converted into a good dwelling, is now being offered for sale. The shareholders will not realize much on their stock when obligations are all met.—Oakwood Corr. Post.

The Lindsay Post asks for the co-operation of all lovers of nature in using their influence to prevent the wholesale slaughter of our birds. It is the recognized sport of many of the youths of the town to go out into the country and kill everything they can find. Squirrels, even, one of the most harmless and the most pretty animals of the whole animal creation, are not safe from destruction at the hands of these young vandals. Revolvers, air guns and catapults are the weapons used, and so destructive are they in the hands of the maliciously inclined that unless some protective measures are taken the rural districts will be deprived of so much of their charm by the killing of birds of song and beautiful plumage.

Use Your Watch Right

What would you think of an engineer who ran his engine two or three years, night and day, without cleaning or oiling?

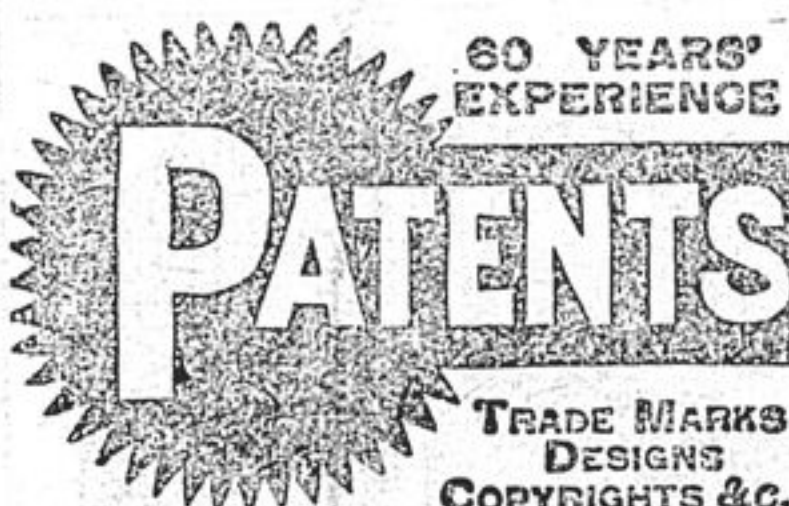

What would you give him for his machine after a few years of such use.

And yet you subject your watch—a far more delicate piece of machinery, to just this treatment.

Don't you think it would pay you to have it cleaned and oiled up once a year.
