

# NEWS OF THE NEIGHBORHOOD

## Bu. y's Green.

*(Correspondence of the Gazette.)*

Service will be held at the usual hour at St. Peter's church on Easter Day. The Rector, the Rev. W. H. A. French, desires all the members and friends to come out to church, as he intends to be there if he has to walk to the church, and nothing but the barrier of an impossibility will prevent the service taking place. Sermon and Holy Communion will be given. The Rev. Pierre de Lom, F. R. C. S., will assist the Rector and preach for him if within the bounds of possibility; so let the news be advertised and circulated far and wide.

## Haliburton

*(Correspondence of the Gazette.)*

In looking over the various items of news in your newsy little paper, I notice the absence of any remarks in connection with our progressive little burg. This, I presume, is owing to the fact that but few of us trouble ourselves to make known through the columns of the press the claims of this portion of Ontario. I am well aware that many persons living in the frontier towns far to the south are in blissful ignorance of our exact geographical position. For the information of those I may, at some future time, dilate on the beauties of our lakes, rivers, mountains and magnificent scenery, the position we occupy with regard to the equator, our great elevation above the level of the sea, etc., etc.

The village is considered by many visitors as one of the most charming holiday resorts that Ontario can furnish. Of course in the winter season business does not move with that "vim" which is noticeable in the other seasons. The mills are closed and the hum of the saws is quiet until winter gives place to spring. Lumbering operations are carried on here very extensively by Laking Bryan & Austin Bros. The cut this year is expected to be in advance of any previous year. Our merchants, too, are doing a good trade. Of course they are all conscientious men, and sell goods at a reasonable figure. We have two up-to-date medical practitioners, who take the greatest possible interest in looking after the health of the citizens. The education of the juvenile portion of the population is looked after by two teachers. The leading religious denominations are all represented here, viz. Anglican, Baptist, Presbyterian and Methodist, and the congregations are punctual and attentive.

The accommodation of the travelling public is looked after by Mr. McKenzie, formerly of Kinnmount, but now of the Grand Central, and Mr. Watt, of the "Watt House," which is a large airy building commanding an excellent view of the wharf and railway station. Our barber is a very fine fellow, and takes great pains in shaving all who favor him with a call. The post office department is presided over by our esteemed postmaster, Mr. Dover, and his accomplished assistant.

Our branch of the Sterling Bank which is under the care of Mr. Borrett, its able and obliging manager, may be numbered among the flourishing institutions of the place.

There are numerous other trades and occupations carried on here, but being uncertain as to the fate of my communication on its arrival at the office, I shall for the present draw to a close. Of course your "devil" or some other personage may consign this MS. to the waste paper basket and hence to the flames. In that case you may never hear from me again.

## POCAHONTAS.

### Powles' Corners.

*(Correspondence of the Gazette.)*

The snow is not going away as fast as we would like it to. This year it appears to be something like sticking plaster; but everybody thinks it will all be gone by the first of June.

Dr. R. M. Mason has made a couple of professional calls out to Mr. Jas. Fell's, as he is expecting an increase in the number of his horses.

It takes only 86 representatives from Ontario to see after the affairs of this Province at Ottawa; but Premier Whitney proposes to give Ontario 106 representatives in the Local House. Had he determined to cut down the number instead of increasing it, it would have been far better for the people's pockets. In one way and another, from the township council to the Federal House, we are about represented to death.

Mr. A. Hore has been building a very neat and substantial veranda for Messrs. Cullis & Lane. Mr. H. is a good mechanic and gives good satisfaction.

Mr. John S. Brown delivered five or six fat cattle last Tuesday to Mr. Paul Oulotte, of Fenelon Falls.

Some of the cellars in this vicinity have a considerable quantity of water in them. The ratepayers in this school section will now know how the water found its way into the basement of the school-house about two or three years ago. Some of the ratepayers accused the care-taker of letting the water run in, so that he would get the job of taking it out again, which occupied two days at 50 cents a day. The trustees can have the dollar back again if they want it.

Mr. Bert Sims, of Owen Sound, is home on a visit to his parents.

A number of farmers in this locality are going to try the seed pea experiment, and are getting a quantity from Squire & Flavell, of Lindsay.

### District Notes.

The two-year lease of Mr. William Baker, of Lindsay, a former resident of Fenelon Falls, was run over and killed by a freight train at Lindsay on Friday last.

The Wood Products Co., of Toronto, are establishing a plant at Haliburton, and will employ a large number of hands. Mr. J. M. Chalmers, of the Lindsay Planing Mill, has been awarded the contract for supplying material for fifteen dwellings for the employees. A carload of material will be shipped this week, it is said.—Post.

Lindsay will have THREE daily papers after May 1st. The Watchman-Warder will issue a daily, to be called the Daily Warder, the newly-organized Free Press Publishing Co. will get out a daily, as well as a weekly, and the Evening Post is already there. Truly, it never rains but it pours.

And yet you subject your watch—a far more delicate piece of machinery, to just this treatment.

Don't you think it would pay you to have it cleaned and oiled up once a year.
