**Not a Nauseating Pill.**—The excipient of a pill is the substance which enfolds the ingredients and makes up the pill mass. That of Parmelee's Vegetable Pills is so compounded as to preserve their moisture, and they can be carried into any latitude without impairing their strength. Many pills, in order to keep them from adhering, are rolled in powders, which prove nauseating to the taste. Parmelee's Vegetable Pills are so prepared that they are agreeable to the most delicate.

**BLOOD MAKING. TONIC TREATMENT**

**A Cure for Anæmia That is Showing Remarkable Proofs of Cures in Stubborn Cases.**

When the body becomes weak and run down, either from overwork, worry or severe illness, an examination of the blood would show it to be weak and watery. This condition is called anæmia, which is the medical term for "bloodlessness." The common symptoms are paleness of the lips, gums and cheeks, shortness of breath and palpitation of the heart after the slightest exertion, dull eyes and loss of appetite. Anæmia itself is a dangerous disease and may gradually pass into consumption. It can only be cured by treating its cause—which is the poor condition of the blood. The blood must be made rich and red, thereby enabling it to carry the necessary nourishment to every part of the body.

Dr. Williams' Pink Pills are the greatest medicine in the world for making new, rich blood and they have been curing anæmia and other blood diseases for nearly a generation, and are now recognized the world over as an invaluable household remedy.

Mrs. D. Estabrook, Brooklyn Road, N. B., says:—"My daughter Gertrude, who is now in her sixteenth year, was sickly from early childhood, we were constantly doctoring for her, but it did not seem to help her in the least. In fact as she grew older she seemed to grow weaker. She was always pale and listless, suffered from headaches, dizziness and palpitation of the heart. She did not rest at night, and would often toss and moan the whole night. Finally she had to discontinue going to school, and as she was continually taking doctors' medicine without benefit I grew discouraged, and feared we would lose her. Friends urged us to give her Dr. Williams' Pink Pills, and I finally decided to do so. By the time she had taken three boxes there was an improvement, and a little later she was able to return to school. From that on she grew stronger, had an excellent appetite, slept well at night, and is now as healthy a girl as you will see. I believe that Dr. Williams' Pink Pills saved her life, and as a mother I would recommend these pills to every family in which there are young girls.

All medicine dealers sell these pills, or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**A Wide Sphere of Usefulness.**—The consumption of Dr. Thomas' Eclectic Oil has grown to great proportions. Notwithstanding the fact that it has now been on the market for over thirty-one years, its prosperity is as great as ever, and the demand for it in that period has very greatly increased. It is beneficial in all countries, and wherever introduced fresh supplies are constantly asked for.

**THOUGHT IT FLIPPANT.**

The brave ship was wallowing in the waves that threatened to engulf her at any moment. Hastily the captain ordered a box of rockets and flares to be brought to the rail, and with his own hands ignited a number of them, in the hope that they would be seen and the passengers and crew rescued.

Amid the rockets' red glare a tall, thin, austere individual found his way with difficulty to the rail and spoke to the captain.

"Captain," said he, "I protest against this dare-devilishness. We are now facing death. This is no time for a fireworks display."

The Philosopher—"Tell me what a person reads and I can tell you what he is." The Dyspeptic—"Not always. There's my wife, for instance, she's always reading a cookery book." (The Philosopher confidentially—"Well?" The Dyspeptic—"But she's no cook!")

**HOUSES CATCH CONSUMPTION.**

Become Saturated With Various Disease Germs.

The Paris municipal council has just made the alarming discovery that some hundreds of houses in the working-class districts of the city are smitten with consumption. This means that they are literally dwellings of death, since anybody inhabiting one of them for any length of time is practically certain to catch the complaint.

That buildings can become saturated with disease germs after this fashion has long been known to medical men. "Cancer houses," for instance, were discovered by Mr. Semmes Smith in the Lincolnshire Fens, England, and elsewhere, which were literally eaten up with this most terrible of maladies. Another, instanced by Mr. D'Arcy Power, claimed as victims three tenants, who inhabited it one after another. It was then set light to by the landlord, and burnt all standing together with everything that it contained.

Plague, too, has been proved to infect certain dwellings after a like fashion. In one case, mentioned in a recent report of the Indian Commissioners, a large tenement house in Bombay was so badly diseased that it meant death to anyone rash enough to enter it. It was, therefore, boarded up, and remained empty for over a year. Then two families of vagrant beggars, numbering eleven persons in all, broke in, and took up their abode there without the knowledge of the authorities. Within a week not one of them was left alive.

Perhaps, however, the most extraordinary instance in point is afforded by the case of Amber, the ancient capital of Jeypore, which contracted leprosy so badly that no one would dwell within its walls who could help it, for fear of infection. So, eventually, Jay Sing, the then rajah, ordered a general exodus of all the inhabitants that were left alive.

The edict was duly carried out, and from that day to this the city has remained unpeopled, a prey to the loathsome disorder that recent experience has shown to still linger in its silent streets and deserted squares.

"A man feels that he is getting very classy," remarked the occasional philosopher, "when he takes a bath without waiting for Saturday night."

**ABOUT PAPERHANGERS.**

We don't know what it is to have a cyclone visit our home, but we don't believe it could make more muss about the place than the paperhangers do.

**How to Cleanse the System.**—Parmelee's Vegetable Pills are the result of scientific study of the effects of extracts of certain roots and herbs upon the digestive organs. Their use has demonstrated in many instances that they regulate the action of the liver and the kidneys, purify the blood, and carry off all morbid accumulations from the system. They are easy to take, and their action is mild and beneficial.

**SHE SQUINTED.**

"Thiquint," replied the pupil.

Pale, sickly children should use Mother Graves' Worm Exterminator. Worms are one of the principal causes of suffering in children and should be expelled from the system.

Looking up from his magazine, an Essex farmer said vehemently to his wife one night: "Do you know what I'd have done if I had been Napoleon?" "Yes," the woman answered. "You'd have settled down in Corsica, and spent your life grumbling about bad luck and hard times."

Holloway's Corn Cure is a specific for the removal of corns and warts. We have never heard of its failing to remove even the worst kind.

Some time ago an office boy, answering the telephone for the first time in his life, and not knowing how to use it, was told that, when the bell rang, he was to answer it. When, therefore, he heard it ring, he picked up the receiver and shouted: "Hello! Who's there?" The answer came back: "I'm one hundred and five." "Go on," said the boy. "It's time you were dead."
