### NO CONTEST IN EAST VICTORIA.

#### Mr. Carnegie Elected by Acclamation.

At the nomination of candidates to represent the electoral district of East Victoria in the Ontario Legislature, held, according to proclamation, in Dickson's hall, Fenelon Falls, on Monday last, Mr. J. H. Carnegie, who has represented the riding during the last three parliaments, was the only nominee; and the returning officer, Mr. W. J. Read, therefore declared him elected by acclamation. Consequently, there will be no contest here this time. There was no speech making at the nomination, except a few words said by the member, and the proceedings lasted a very short time.

#### Women's Institute.

The annual meeting of the East Victoria Women's Institute was held in Dickson's hall last Friday afternoon, May 29th, and was well attended. The secretary, Miss Nie, read the minutes of last meeting, which were adopted. The secretary's report showed a membership of forty, and a cash balance on hand of \$5.58. The election of officers for the ensuing year resulted as follows: President, Mrs. Dr. Gould; vice-president, Mrs. Moynes; secretary, Miss Nie; directors, Mrs. Townley, Mrs. Wm. Burgoyne, Miss Poulson and Miss Thurston; auditors, Miss Haskell and Mrs. D. Jewell. A vote of thanks was tendered Mrs. Fell, the retiring president, who had filled the office most acceptably for the past seven years, and much regret was expressed at her resignation. Mrs. Fell replied in a few well-chosen words, stating that she had only done what seemed her duty, and was sure her successor would prove herself to be quite as capable of filling the office satisfactorily. It was moved by Mrs. Gould, seconded by Miss Cullis, and carried unanimously, that the members of this institute much regret the loss of a valued member in the person of Mrs. R. J. Moore, who is shortly leaving town with her family to reside in Lindsay. Mrs. Moore made a suitable reply, expressing regret at leaving, and assuring all the members that she would look back on the Women's Institute meetings at Fenelon Falls as very happy and interesting events, and, as she is not to be very far away, she hoped to sometimes attend them in the future. The annual Guelph delegate's meeting is to be held at the Falls on June 25th, at which Miss Gray, of Toronto, and Miss Helen McMurchy, of Waterloo, are expected to give demonstrations in cookery.

#### Resolution of Sympathy.

At a meeting of Court Fenelon Falls No. 626, Canadian Order of Foresters, the secretary was instructed to transmit the following letter of sympathy to Mr. and Mrs. Andrew Torrance:

To Mr. and Mrs. Torrance,  
Fenelon Falls.

I am instructed by the unanimous resolution of Court Fenelon Falls No. 626, to write you expressing the deep sympathy felt by this Court for yourselves, in this hour of your affliction, on the occasion of the loss of our late brother and your son. That the Supreme Ruler of the universe may have you ever in His keeping is the sincere prayer of his brethren in this Court.

Yours in sympathy,  
HARRY LITTLETON,  
Rec. Sec.

#### Farm Drainage Demonstration.

The Department of Physics at the Ontario Agricultural College desires to announce the continuance of its previous offer of assistance to farmers in matters pertaining to drainage. For the past three years we have been authorized by the Minister of Agriculture to go out and assist any farmer in taking the level of his lands for drainage purposes, in planning the most advantageous systems of drains, and in calculating the grades and sizes of tile for the drains. A finished map bearing all the information is sent to the owner. This serves two purposes: first, it is used as a guide in constructing the drains; second, it may be preserved as a record of the exact location of every drain, so that if for any reason it should be necessary in years to come to find any drain, it could be done accurately at a moment's notice. The number of applications for assistance has increased very rapidly, so that we had many more than we could attend to. To enable us to meet this increased demand, the Minister of Agriculture has this year given us a special appropriation whereby we have been enabled to double our staff for this work. A new feature is being added: We have found in the past that frequently the neighbors in the vicinity of the farm being surveyed were interested and wished to observe the operations. This suggested the desirability of making these demonstrations public, and this will be done wherever possible. Anyone interested by this means we shall be able to instruct a much larger number in matters pertaining to drainage problems. Anyone wishing drainage surveying done should apply to Wm. H. Day, Department of Physics, O. A. C., Guelph. The only outlay connected with the work is the travelling expenses of the man, including meals, cartage of instruments and railway fare at one cent a mile each way. The Department has just issued a new pamphlet on "Farm Drainage Operations" which may be had on application.

Wm. H. Day,  
Lecturer in Physics.
