## The Fenelon Falls Gazette

Friday, Oct. 30th, 1908.

### The Result.

The return to power of the Laurier administration on Monday was generally regarded as a forgone conclusion by both Conservatives and Liberals, but its return by a majority of fifty was scarcely looked for by anyone. However, as the late Sir John A. Macdonald once said, an election is just a little more uncertain than a horse race, and Sir John was generally right. Both sides rather expected more or less of a landslide to the Conservatives in Ontario and the Maritime provinces, but any sliding that was done had a tendency the other way, except in Nova Scotia. At the time of dissolution the Government had a majority of 64 out of a total of 214 seats. The new administration will have about fifty majority in a House with 221 seats. The seven new seats have been added to the western provinces since last election. Following is the latest revised edition of Monday's results:

	Liberal	Con.
Ontario	38	48
Quebec	52	11
Nova Scotia	12	6
New Brunswick	11	2
Prince Edward Island	3	1
Manitoba	2	8
Saskatchewan	8	1
Alberta	4	3
British Columbia	2	3
	132	83

Elections yet to be held—6.

### Victoria and Haliburton.

The re-election of Col. Sam Hughes, like the return of the Laurier Government, surprises no one very much. When Dr. Wilson entered the contest he was a comparative stranger to seventy-five per cent. of the electors, and for him to make an effectual canvas of such a large constituency in the short time at his disposal was a physical impossibility. The only disappointing feature of the whole thing was the vote in Fenelon Falls. Every elector in the village knows the doctor and respects him as a man of integrity, ability and culture. Many of them owe their lives or their dear ones' to his professional skill; and yet there were barely more than half of them expressed a preference for him as their representative at Ottawa over a man who has no more regard for them after he has got their votes than he would have for so many cattle. Verily, some, at least, of the people of Fenelon Falls have reason to be ashamed of themselves for the treatment they gave one of their honored fellow-citizens on Monday. But it is to be remembered that there has been a great change in the village electorate during the past four years, and especially since the destruction of the Sandford factory, nearly all the employes in which voted for the Liberal candidate in 1904.

The following are the majorities in this constituency, as far as obtainable up to the present time:

The council met at the town hall, Bobcaygeon, on Monday, October 19th; the reeve, E. Tiers, Esq., in the chair, and councillors G. Brooks, W. Green, W. Hetherington and John Mitchell present. ### Harry K., 216 1/2

Dr. Cowan arrived in town Monday with the good horse, Harry K., from Montreal, where the stallion has won considerable fame on the DeLorimer park track. Harry K. went away practically a green horse and returned after winning three races within a week, with a mark of 2:16 1/2, and with a reputation that secured many tempting offers for the horse. Mr. Lee, of Fenelon Falls, the owner of the horse, refuses to sell, however, and Harry K. will race on the grand circuit this winter. Dr. Cowan was in great humor this morning when seen by the Warder man and was enthusiastic about the race. He is of the opinion that Harry K. has got it in his legs to win a good many more races. "There's a thousand dollars that looks good for Harry K.," he said, handing the reporter a program of the winter meet of the Montreal Driving Club, and indicating the 2:17 pace, for a \$1,000 purse, "and I think the horse will be entered in the race." When asked if the stallion had suffered from the hard and numerous races Dr. Cowan said that, with the exception of a slight cold, the animal was in the pink of condition. Harry K. had to race against the best in the land at Montreal. One horse, the "doc," said, had to travel six days to get to Montreal; and was entered against the Lindsay horse. The son of Keswick ruled favorite at every betting stand after the first race. George Curtis, who handled the reins over Harry K., had to drive against some of the best men at the business and handled the local horse in great style.—Watchman-Warder.

A scow containing thirty thousand brick, bound for Bobcaygeon, is stuck in the river off Riverside cemetery. It was shipped from Mr. S. J. Fox's brickyard in tow of the steamer Maple Leaf, and had only gone that distance when it was obliged to stop owing to the low water. Unless something unusual happen, the scow will in all probability be anchored there until spring.—Post.
