

Makes Broiling Easy

It is much more convenient to do your broiling by lifting this Key Plate, than to lift the cover or use the broiler door. You have more room and get the meat directly over the coals.

Notice the Low Warming Closet, a special feature of this year's "Peerless Peninsular" Ranges.

Daylight Oven, Adjustable Damper, Removable Grate Bars, Thermometer in oven—are only a few of the conveniences you should ask about.

Step in at any time and go over the "Peerless Peninsular" Ranges. Glad to explain their improvements to you.

Distribution of Seed Grain and Potatoes.

By instruction of the Hon. Minister of Agriculture, a distribution is being made this season of samples of superior sorts of grain and potatoes to Canadian farmers for the improvement of seed. The stock for distribution has been secured mainly from the Experimental Farms at Indian Head, Sask., and Brandon, Man. The samples consist of spring wheat, oats, barley, peas, Indian corn (for ensilage only) and potatoes. The quantity of oats sown is 4 lbs., and of wheat or barley 5 lbs., sufficient in each case to sow one-twentieth of an acre. The samples of Indian corn, peas and potatoes weigh 3 lbs. each. A quantity of each of the following varieties has been secured for this distribution:

OATS.—Banner, Danish Island, Wide-Awake, White Giant, Thousand Dollar, Improved Ligowo, all white varieties.

WHEAT.—Red varieties, Red Fife (beardless), Chelsea, Marquis, Stanley and Percy (early beardless), Preston, Huron and Pringle's Champion (early bearded), White varieties, White Fife (beardless), Bobs (early beardless).

BARLEY.—Six-rowed.—Mensury, Odessa and Mansfield. Two-rowed.—Invincible and Canadian Thorpe.

FIELD PEAS.—Arthur and Golden Vine. **INDIAN CORN** (for ensilage).—Early sorts, Angel of Midnight, Compton's Early and Longfellow; later varieties, Selected Leaning, Early Mastodon and White Cap Yellow Dent.

POTATOES.—Early Varieties, Rochester Rose and Irish Cobbler. Medium to late varieties, Carman No. 1, Money Maker, Gold Coin and Dooley. The later varieties are, as a rule, more productive than the earlier kinds.

Only one sample can be sent to each applicant; hence, if an individual receives a sample of oats, he cannot also receive one of wheat, barley, peas, Indian corn or potatoes. Lists of names from one individual, or applications for more than one sample for one household, cannot be entertained. The samples will be sent free of charge through the mail.

Applications should be addressed to the Director of Experimental Farms, Ottawa, and may be sent in any time from the 1st of December to the 15th of February, after which the lists will be closed, so that the samples asked for may be sent out in good time for sowing. Applicants should mention the variety preferred, with a second sort as an alternative. Applications will be filled in the order in which they are received, so long as the supply of seed lasts. Farmers are advised to apply early to avoid possible disappointment. Those applying for Indian corn or potatoes should bear in mind that the corn is not usually distributed until April, and that potatoes cannot be mailed until danger from frost in transit is over. No postage is required on mail matter addressed to the Central Experimental Farm, Ottawa.

WM. SAUNDERS,
Director of Experimental Farms.

Telephone Meeting.

The annual meeting of the Burnt River Telephone Company, Ltd., was held at Burnt River, on December 1st. The attendance of shareholders was very good, but more might have attended. Mr. J. R. Mark was appointed auditor, and reported as follows: "To the Burnt River Telephone Co., Gentlemen: I hereby beg to report that I have this day examined the books of the company, have examined the vouchers and compared them with the accounts and found them correct." On motion the report was adopted and filed.

The Secretary reported an indebtedness on capital account of \$480.75 against which there are 12 shares of stock subscribed for and not paid, leaving net debt \$368.00 of which \$100 was taken at the meeting, and a surplus on revenue account of \$41.85.

It was moved by Mr. S. Suddaby, seconded by J. E. Mark, that the line fees for shareholders owning their own telephones be six dollars per year.—Carried.

Moved by Mr. Suddaby, seconded by Mr. Wilson, that if after making due exertions to raise funds by the sale of capital stock, there shall not be enough raised to pay off indebtedness, then the directors be authorized to borrow sufficient for that purpose and pledge all surplus revenue for payment of same until it be paid.—Carried.

The directors elected were Messrs W. Fell, Josiah Flett, J. H. Brandon, Yeoman Smith, A. B. Townsend, John Hodgson and Dr. R. S. Frost.

Mr. J. R. Mark moved, seconded by Mr. Wilson, that a vote of thanks be given the directors for the able and energetic manner in which they have conducted the affairs of the company.—Cd. The meeting then adjourned.

The secretary of the company states that, while the surplus earnings of the company for the eleven months during which their line has been in operation, appear small, the prospects are good for the future.

Fenelon Council Minutes re Rose dale Mine By-Law.

The clerk of Fenelon township sends us this week a report of the minutes of the special meeting of the Fenelon council, held on August 31st, which is the so-called secret meeting referred to in Mr. F. A SHOOTING ACCIDENT.—On Saturday last two village boys, Jimmie Northey (second son of Mr. W. Northey) and Ronald McIntosh, went down to the plains with a 22-calibre rifle. While returning home, and when they had nearly reached the village, McIntosh was handling the loaded rifle when it "went off," and the bullet entered Northey's leg a short distance above the knee, and back of bone. The injured boy walked without assistance to Dr. Johnstone's office, where Drs. Wilson and Johnstone succeeded, after some little trouble, in locating and removing the bullet. Jimmie was then carried home, where he will have to remain for some time. The injury is not of a serious nature, being entirely in the flesh, but if the bullet had touched either the main artery or the bone, both of which it narrowly missed, there might be a different story to tell.

BORN.

CORBETT.—At Fenelon Falls, on Wednesday, Nov. 11th, 1908, the wife of Mr. William Corbett, of Jacob's Island, of a son.

Muskrats have become so numerous along the Trent Canal from Nassau to the lift lock at Peterboro that Superintendent McClelland has given orders for their extermination, as there is danger of their injuring the canal banks.

Two prisoners in Lindsay jail, Fred. Mallory and William Brooks, escaped from that institution on Saturday afternoon last, a few minutes after two o'clock. The two men were being marched from their cells to the wood yard, where they were to cut some wood. They walked quickly, and when they turned the corner of the wood shed, were some little distance of their guard, who, when he came up to the corner, found that the prisoners, in the very brief time they had been out of his sight, had made their escape by mounting a woodpile, and from the top of it getting over the wall. The fugitives got clear away, but were recaptured at the little village of Pefferlaw, in York county, on Tuesday and brought back to Lindsay jail that night.
