Get Off the Earth.

William H. Taft, during his presi-
dential campaign, was asked what a
man was to do if he were out of work,
no work in sight and starving. Wil-
liam H. Taft replied, "God knows."
William H. Taft might have truthfully
answered, "Get off the earth." The
out-of-work in a large city might as
well go and hang himself as to con-
tinue to live a life of absolute misery.
His clothes become thin, he gets hun-
gry, he gets the rheumatism and be-
comes consumptive. He becomes un-
fit to work, and can only drag out a
useless existence doing odd jobs for a
dime, and spending his days looking
for steady work which will never be
thrown his way.

In all large cities rents are rising.
Society is horrified at the tales of over
crowding in the slums. But out-of-
works, and even those who earn a dol-
lar and a quarter a day, cannot expect
to choose large houses as places of re-
sidence, where their children can play
in a private yard on real green grass.

We are so busy making money and
hoisting the price of necessities in or-
der that our neighbors may know how
rich we are, that we forget that our
wealth is another man's poverty. The
other man is shoved down and out,
and might as well get off the earth,
for all the ordinary business man cares.
—Cotton's Weekly,

Natural Gas for Lindsay.

Mr. R. H. Leary, of Peterborough, rep-
resenting American capitalists, at a pub-
lic meeting at Lindsay a few days ago
asked for a franchise for the use of the
streets for gas mains. The company
proposes to secure 6,000 acres of land
in the vicinity and spend \$50,000 in
boring for gas. After discussing the
matter the following resolution was
passed:

"That this public meeting of citizens
endorse the proposition submitted by
Mr. Leary, of Peterboro, and ask the
town council to take it into considera-
tion and, if they see their way clear, to
grant the franchise asked."

Commenting on the proposition the
Post says:

"The gas proposition submitted to
the meeting of citizens on Wednesday
evening is so eminently fair that it is
difficult to see how the meeting could
have done otherwise than endorse it,
and still less is it discernible how the
council can turn it down.

There is no bonus asked for, neither
do the promoters ask for exemption from
taxation. They simply ask that in the
event of success in their search for gas
they shall be permitted to run their
pipes through the streets to enable
them to supply our people with a means
of heating their homes at a very much
cheaper rate than it can now be done,
and to supply manufacturers with fuel
that will cause more and more of them
to come among us.

It is undeniable that the way to make
Lindsay a prosperous city is to present
inducements to manufacturers to locate
amongst us, and it is pleasing to know
that our citizens are fully cognizant of
this fact, and that they are ready to
welcome any means which may have a
tendency to bring it about.

HEAVY PORKER.—A couple of years
ago Mr. Geo. D. Isaac bought from Mr.
T. Isaac for shipment a sow that weighed
660 lbs. This was the heaviest ever
put on the scales here up to a few days
ago, when a four-year-old Tamworth sow
sold by Mr. James Thurston to Mr. Geo.
Isaac, and weighing 665 lbs., broke the
record. The price paid was five cents a
pound, netting Mr. Thurston \$33.25.
Who can beat it?

Minden Echo: An event which seemed
miraculous occurred at Robertson Bros.
camp last Sunday evening. One of the
brothers, George, who had been spend-
ing Sunday at his home in the village,
was retiring for the night, and took two
swallows of what he thought was cough
medicine, since it was on the place
where the cough medicine usually sat;
but, finding he had made a mistake, he
lit a lamp, to find that he had taken ac-
onite, which of course he knew was dead-
ly and quick poison. The camp was soon
aroused, and mustard and lard caused
immediate vomiting, which saved his
life. Medical aid was soon had, and all
that remains now is the memory of a
close shave.
