

THE HARD WHEAT BELT

Professor Saunders Takes Exception to a Popular Notion.

A despatch from Ottawa says: Some interesting facts were brought out on Wednesday morning at the first meeting of the House Committee on Agriculture. Dr. Saunders, of the Experimental Farm, was on the platform, but now and then his opinions clashed with the preconceived notions of the members of the committee. Mr. Saunders, for example, takes no stock in the notion that the quality of wheat is deteriorating and that the hard wheat belt is steadily moving north. In Ontario, for example, he says that exhaustion of the soil might reduce the quantity, but it cannot affect the quality of the wheat.

Mr. Sexsmith (E. Peterboro') insisted that in his riding, where the red fife wheat was first grown,

the farmers used to raise 40 bushels of Spring wheat and now they only raised 15 per acre. The decrease, he said, could not be due to soil exhaustion, because the same field which now only grows 15 bushels of Spring wheat grew 40 bushels of Winter wheat to the acre. For the past ten years the average yield in Ontario has been 17 bushels per acre and in the West 19.

Comparing Ontario with the West, Dr. Saunders stated that just as good wheat can be grown in Ontario, at Ottawa for example, as anywhere in the Dominion, and the yield per acre is little less. Last year the average yield of wheat per acre in Saskatchewan was 14 bushels, in Manitoba 17, in Alberta 23. In Ontario the average for Spring wheat was 15.8 and for Winter wheat 23.6 bushels.

WILL EXTEND STEEL PLANT.

English Capitalists to Make Considerable Additions.

A despatch from Sault Ste. Marie, Ont., says: Manager Franz, of the Lake Superior Corporation which was recently taken over by English capitalists, on Saturday issued a statement that the company would immediately commence extensive additions to the open hearth furnaces at the Algoma Steel Plant in the Canadian "Soo." Other improvements are to follow fast, the intention being to make it the greatest steel concern in Canada. It is reported that the company will erect new blast furnaces and a structural steel plant.

TO VISIT DYING WIFE.

Belgian Workman Tramping Across Canada.

A despatch from Winnipeg says: Charles Rover, a Belgian workman, has arrived here, on a desperate tramp across Canada in the heart of winter, in the forlorn hope of working his way back to Europe to see his dying wife, who is a victim of consumption, and is appealing to him to come home and see her before she dies. He has no money, but is determined to comply with her wish, nevertheless, or perish in the attempt.

KILLED A POLICEMAN.

Nelson Dessler, of Berlin, Ont., Shot Officer at Olean, N. Y.

A despatch from Rochester, N. Y., says: Police Captain Timothy Hassett of Olean was shot and instantly killed by Nelson Dessler, a burglar, in that city early on Sunday morning. Before Hassett fell he sent two bullets into Dessler's abdomen, and on Sunday night it was believed the man would die before morning. Dessler is from Berlin, Ont., and has a lengthy police record.

600 JAVANESE KILLED.

Three Villages Buried Under 90 Feet of Earth.

A despatch from The Hague says: Six hundred Javanese were killed in a landslide which buried the villages of Tjiboebotham, Warensingeto and Telakbanjoe, according to a message from Pendajaloe, Java. A part of the Mount Kent-

jana slid down on the villages, covering them under 90 feet of earth.

CASHIER ARRESTED.

Twelve-Hundred-Rollar Robbery at St. John, N. B.

A despatch from St. John, N.B., says: One of the most sensational robberies that ever had St. John for its scene, took place on Friday at the noon hour, when, according to his statement, W. Herbert Downey, billing clerk with the C. S. Sims Company, brush manufacturers, was attacked while alone in the office, choked into insensibility, and left lying alone on the floor. Twelve hundred dollars in cash was stolen from the office, the money having been intended to pay wages. The story had an equally sensational sequel on Friday when the money was found in a box under Downey's desk near where his feet would rest as he worked at the typewriter. The discovery was promptly followed by Downey's arrest in his boarding house. Downey when put under arrest made no statement, but during the afternoon and before the money had been found he told a most circumstantial story of how he had been set upon from behind and choked.

DROWNED IN OIL TANK.

Sarnia Man's Fatal Slip at the Imperial Refinery.

A despatch from Sarnia says: A well known and popular Sarnian, William Lowrie, met a tragic death between one and two on Friday morning by drowning in one of the great underground oil tanks at the Imperial Oil Refinery. There was a depth of 12 feet in the tank, and the young man had evidently descended to turn a windlass, when he slipped and fell about 10 feet before being engulfed in the oil. His absence was noticed and the body was found by workmen an hour later. Dr. Hayes tried artificial respiration without success.

WAS 115 YEARS OLD.

Indian Dies Near Brantford - Retained Faculties to Last.

A despatch from Brantford says: The death has been reported to the Indian authorities here of John Silversmith, a resident of Tuscarora Township, in his 115th year. Deceased retained all his faculties until recently. He was a basket-maker.

THE WORLD'S MARKETS

REPORTS FROM THE LEADING TRADE CENTRES.

Prices of Cattle, Grain, Cheese and Other Dairy Produce at Home and Abroad.

Toronto, Feb. 23.—Flour—Ontario wheat 90 per cent. patents, \$3.90 to \$4 in buyers' sacks outside for export. Manitoba flour, first patents, \$5.60 on track, Toronto; second patents, \$5, and strong bakers', \$4.90.

FIFTEEN VILLAGES VANISHED

Have Been Wholly or Partially Destroyed by Earthquake in Western Persia.

A despatch from Teheran, Persia, says: The Governor of Burujurd, a town in southwestern Persia, has sent out agents to investigate the damage wrought by the earthquake of January 3. This was the disturbance that was registered by seismographs around the world, but the exact location of which was determined only on Wednesday.

The meagre reports that have reached Teheran indicate that the devastation was particularly severe in the mountainous region between Burujurd and Luristan province. Fifteen villages are known

to have been wholly or partially destroyed, and it is estimated that the total number will undoubtedly be more than fifty.

Some villages disappeared completely, and no trace can be found of the hamlets of Bahrem and Leben. It appears that not a single soul belonging to these communities was left alive, and only the rivers, mountains and broken valleys remain to tell the tale of this fearful convulsion of nature.

The fact that there were no foreign Consuls anywhere in the neighborhood accounts for the delay of a month in the receipt of the news here.

B. C. HAS SURPLUS.

One Million and a Half Dollars to the Good.

A despatch from Victoria, B. C., says: In the budget address to the legislature on Wednesday night Finance Minister Tatlow showed a surplus of a million and a half. The revenue for the next fiscal year would reach six millions, and the expenditure five and a half millions, of which nearly three millions would be for public works, the largest in the history of the province. The public debt had been reduced from \$11,000,000 to \$9,000,000 within a year. The minister proposed still a greater development, when the A. B. C. route, as the minister styled the Alberta and British Columbia grain route would in the near future be in operation, and the Panama Canal completed.

DIED ON LONDON STREET.

Tragic End of Capt. A. W. Porte, of Oakville.

A despatch from London, Ont., says: Capt. A. W. Porte, of Oakville, former managing director of the Toronto Biscuit Company, dropped dead in front of the residence of his sister, Mrs. George Brickenden, Queen's Avenue, at 6 o'clock on Thursday evening. Mr. Porte was walking with a young lady and was apologizing for walking slowly. "My heart is bad and it is dangerous for me to walk rapidly," he said. With these words he pitched forward dead. Capt. Porte was one of the best known citizens of London before his removal to Toronto 12 years ago. He was about 60 years of age.

WASHWOMAN'S FORTUNE.

An Estate of \$42,300, the Savings of Twenty Years at the Tub.

A despatch from North Adams, Mass., says: What economy will do was illustrated here on Thursday, when the inventory of the estate left by Mrs. Ann Collins, a washwoman, was filed in the Probate Court. It is valued at \$42,300. Mrs. Collins was left a widow and penniless, with six children, twenty years ago. She supported the family and saved her competence from her earnings at the washtub.

THE ICE GAVE WAY.

Four Rhode Island Children Drowned While Skating.

A despatch from Norwood, R. I., says: While skating hand in hand on Sand Pond on Wednesday night four children were drowned when the ice gave way, another was barely saved and several persons who attempted to rescue them narrowly missed being engulfed in the icy waters. The children drowned were: Ranghilda, Lillian and Amel Hanson and Joseph Johnson. All were under fifteen years of age.

HILL RAILWAYS IN MANITOBA.

Bill to Authorize Great Northern Lines Before the Legislature.

A despatch from Winnipeg says: A bill introduced in the Legislature foreshadows the construction of another transcontinental railroad by the Hill interests. The bill is for the incorporation of the Great Northern Railroad in Manitoba, and one clause asks for power to construct a line from Winnipeg west to Brandon, thence to Elkhorn, and to the westerly boundary of the Province. Five years is given to commence construction and ten years for completion. It is believed that the bill means Hill is preparing for his invasion of Canada on an extensive scale.

WATCHED THE OPERATION

Long Island Veterinary Surgeon Saw His Own Appendix Removed.

A despatch from New York says: Dr. Edward J. Robbins, a veterinary surgeon of Bayshore, Long Island, refused to take ether when he had his appendix removed last week. He remained quiet throughout the operation, and just four days after it he drove five miles to his home. The following day he was attending to his practice. The case is believed to be without a parallel.

Dr. Robbins drove over to the sanatorium of Dr. William H. Ross at Brentwood, five miles from his own home. Dr. Ross and Dr. Haven prepared to operate, and

as the nurse approached the patient with the ether cone he calmly waved her aside.

"There's nothing the matter with your heart, old man," Dr. Ross, who is an old friend, assured him.

"I know it, but I'm going to cut the ether out, because I want to see the operation," said Dr. Robbins.

"You may paint on a little cocaine if you wish."

This was done and the operation proceeded steadily, without interruption from the patient, whose head was propped up so he could see every move of the surgeons.
