The Fenelon Falls Gazette.

Friday, March 26th, 1909.

William the Pacemaker.

King Edward's visit to Germany a short time ago, and his conduct during that visit, called forth general expressions of approval, and in the estimation of the public clinched his claims to be known as "Edward the Pacemaker." He was considered to have done a great deal toward preventing any possible conflict between the two countries. The press despatches of the past week, however, have an extremely warlike tone. They indicate that a very appropriate title for the German Emperor would be "William the Pacemaker." According to the despatches, Britain must not only keep pace with, but must keep well ahead of Germany in building battleships of the Dreadnought class in order to avoid danger of an invasion by that nation. It is to be a Dreadnought marathon, which England is thought to be a trifle late in entering. Germany is making the pace.

Notwithstanding all the panicky talk, there are strong grounds for thinking that an invasion of England by Germany is not within the probabilities. The working class of both countries are in favor of peace. August Bebel, the leader of three million voters, announces that if the German authorities declare war, he will call out all the organized German workers. Such a strike would paralyze the troops, who could do nothing for lack of transportation and supplies. The organized British workmen would also go out on strike in the event of a declaration of war. The workers of all countries are comprehending that there is nothing for them in war. They do the actual fighting, and get nothing in return.

The New York Call in an article on this subject says: "The rulers of Europe have their spies at the meetings of the organized working classes and are hearing things that astonish them. They are learning that they are rulers who do not rule, and that the once despised working class is the real power."

How Buyers Are Fooled.

The following from the Orillia Packet under the above heading is an instance of the mistakes made by people who patronize outside dealers instead of those in their own locality. There are other towns besides Orillia that could furnish similar examples:

"In their advertisement on fourth page Messrs. McNab Bros. make a very interesting note of an incident in advertising which casts light on the system of alleged bargain-giving by which trade is attracted to Toronto. A certain washing machine, which has a large sale, and is called the "One Minute" machine, in recognition of its speed and ease of working, is advertised by one of the largest houses in Toronto as a \$12 article specially reduced for one day to \$9.95. The point is that this washing machine is offered every day in the year by Messrs. McNab for \$10. This is simply one instance in thousands, and the wonder is that so many buyers are gulled by such methods, which appear to work in a wide field, but would be neither profitable nor possible in a smaller town. So far as the PACKET can say (and we have given no little attention to the matter), Orillia dealers do strictly what they advertise, and when they quote a cut price honestly give it. In Toronto, as this and many other instances prove, it is widely different."

Good Prospects for Tourist Traffic.

Mr. Wm. Robinson, of Pittsburg, Pa., Travelling Passenger Agent of the Grand Trunk Railway, was at the Falls on Friday last, with the object of selecting the grounds and making arrangements for large camping parties who have heard of the many attractions of this section of the Kawartha Lakes district. Mr. Robinson was shown over the location, just out of the village along the river bank, best known as the old Greene & Ellis property, but now owned by Mr. John H. Randon. A party of forty glass blowers to take an annual outing will probably occupy this ground, which Mr. Robinson considered very suitable. He also inspected a site on Mr. Geo. Isaac's farm, on the west shore of Cameron Lake, which he was much pleased. He has this place in view for a party of seventy-five tourists who camped on Potato Island, near Waubaushene, last summer, and spent about \$3,500 in that vicinity. They bring a carload of camp outfit, and usually have a brass band of their own with them. Added to the usual tourist traffic, which has been increasing from year to year, and ought therefore to be quite large next season, a few parties like those mentioned would make things more than ordinarily lively around the falls during the coming summer.

Extending Its Operations.

The Lindsay Post says:—We are informed that it is the intention of the Otonabee Navigation Company to put a steamer on the route between Lindsay, Sturgeon Point and Bobcaygeon at an early date. This company recently purchased the steamer *Manita* from the Trent Valley Navigation Company, thus completing a line of daily boats between Bobcaygeon and Rice Lake. It is the company's purpose, we are informed, eventually to operate boats on the entire Trent waterway system, including Lake Simcoe, where a large boat will ply between Orillia, Barrie, Jackson's Point and Gamebridge. When this comprehensive programme is carried out the people of Lindsay and others ports along the waterway will have opportunities of visiting this beautiful chain of lakes and rivers that are now comparatively unknown to our citizens and to tourists.

[The Gazette is assured that Fenelon Falls will not be overlooked when the Otonabee company take over the Lindsay-Bobcaygeon route, and that the town will be given a daily service.]

Assistance In Underdrainage.

Underdrainage will pay for itself in from one to three years. Perhaps no example in Ontario demonstrates this more conclusively than the drainage of "the Rittenhouse farm" at the Jordan Harbor, in the Niagara peninsula. Originally it was very wet, so much so indeed that often the crops were scarcely worth cutting. In 1906 Mr. M. F. Rittenhouse of Chicago gave it to the Government for an horticultural experiment farm. In 1907 it was underdrained, the lines of tile being laid about four and a half rods apart. In many places the subsoil was very heavy, so that the digging was hard and the cost high, about \$25 an acre. In 1908 on the part that was formerly the wettest it grew 65 bushels of oats to the acre, thereby practically paying for the drainage in one season; for the year previous the oats on the same land were not worth cutting.

The Rittenhouse farm was surveyed and the drainage system for it planned by the Department of Physics at the Ontario Agricultural College. Any farmer in Ontario who is contemplating underdrainage may on application have his farm surveyed, the drains planned, and the grades determined. A finished map containing this information and also the size of the tile advisable is sent to the owner as soon as completed. The only outlay connected with the survey is the travelling expenses of one man from Guelph to the farm, consisting of railway fare, meals and cartage of instruments. The railway fare is only one cent a mile each way for this work.

At the conclusion of each survey a drainage demonstration is held in the field, and simple practical methods of surveying a drain, determining its grade and securing a true bottom are demonstrated, and the benefits of drainage discussed.

Any one desiring a survey and plan should apply to Prof. Wm. H. Day, Department of Physics, O. A. C., Guelph. A large number of applications are already in for this season.

Fenelon Council.

Cameron, March 8th, 1909.

Council met in regular session, the reeve, Mr. J. T. Palmer, in the chair.

The minutes of the last meeting were read and passed without amendment.

A communication was received from W. Ellery, offering to pull and remove 24 stumps on his quarter line for \$12. Action on the above was deferred.

Tenders were received from the Lindsay Watchman-Warder and the Fenelon Falls Gazette for the township printing for the ensuing year; and, on motion of Messrs. Glaspell and Tolmie, the Gazette's tender was accepted. The following other motions were passed by the council:

Tolmie—Tompkins.—That G. Daniel's 1908 tax bill be received for the following: 17 pieces of cedar 16 feet long and 8 inches at top, and two stringers 16 feet for bridge on con. 4, opposite lot 16.

Tompkins—Parkins.—That the Hartley Telephone Co. be granted permission to build a line across con. 1; request for same made by G. Vanstone.

Glaspell—Tolmie.—That the collector be instructed to collect the outstanding taxes forthwith.

Parkin—Tompkins.—That we instruct the clerk to write for the different companies' prices for moulds for making cement culvert pipe.

Tompkins—Glaspell.—That this council authorize the reeve and clerk to sign the petition with regard to the responsibility of municipalities for certain accidents caused by non-repairs of the highways.

Parkin—Tompkins.—That we consider \$50 a fair price for the two pieces of road expropriated by the government for canal purposes near Rosedale, and direct the clerk to write to the department to that effect.

Glaspell—Tompkins.—That the auditors' report as read be adopted, and that they be paid \$8 each for their services.

Tolmie—Parkin.—That a by-law be now introduced for appointing pathmasters.

The by-law was given its usual readings and signed and sealed; Mr. Parkin in the chair.

Tolmie—Parkin.—That E. Kendall pay \$10 for the timber on the quarter line between lots 15 and 16, east half con. 5; Mr. Kendall to locate all lines at his own expense, and be responsible for any timber he cuts that is not on the quarter line; he to cut a good winter road thro' to the 5th con. line, with the consent of the party owning the land.

Parkin—Tolmie.—That Mr. T. Jewell, after getting the consent of the owner

of the land, and also of the ratepayers on E. Elford's beat, may clear off the scrub on the north side of the road at lot 16, con. 1.

Tompkins—Parkin.—That we instruct the clerk to make arrangements for the purchase of a gravel pit off the south part of lot 11, con. 8, and the council forbids any person taking gravel off the lake-shore road opposite lot 11, con. 8.

Tolmie—Glaspell.—That W. Parkin be instructed to put up notices, and give a contract for re-building bridge opposite lot 14, con. 4; the same to be done to his satisfaction.

Parkin—Tompkins.—That the following bills be paid: W. H. James, culvert on his beat, \$7; W. H. Powles, postage and stationery, \$3.17; Jas. Fell, tiling on lot 15, con. 8; J. W. Ray, M. H. O., services in 1906-7-8, \$30; Standard Bank for Free Press, \$50; M. Maybee, use of Orange hall for to-day's meeting, \$2.

The meeting then adjourned.
J. B. POWLES,
Township Clerk

St. James Church Services.

Sunday—Fifth in Lent, March 28th.

Morning—"The Scoffers."

Evening—"The Brazen Serpent."

Palm Sunday, April 4th.

Morning—"Lost Opportunity."

Evening—"The Things that belong to Peace."

Good Friday, April 9th.

Evening—"The Crucifixion."

Easter Sunday, April 11th.

Morning—"The Resurrection."

Evening—"Theories Concerning the Resurrection."

Sunday after Easter, April 18.

Morning—"The Power of the Resurrection."

Evening—"Truth and Falsehood."

Week-night services will be held on Tuesdays, when the Acts of the Apostles will be dealt with.

Personals.

Mr. M. T. McEachern, who is attending McGill College, Montreal, is in town this week.

Mr. Bruce McDougall, who has been in Saskatoon for about a year, returned to his home at the Falls on Monday.

Mr. Geo. H. McGee is home from Collins' Inlet for a few days.

Mrs. Lord entertained the Sabbath School workers of St. Andrew's at the Manse on Wednesday evening.

Mr. Grattan Graham has been spending a few days at his home at the Falls. He will return to Toronto on Monday to resume his studies at Toronto Medical College.

Mr. Stanley Ellis, who has spent the past year at Filmore, Sask., returned to the Falls on Wednesday.

Rev. W. H. A. French attended the ceremonies in connection with the enthronement of the recently elected Bishop of the Diocese.

CURLING.—In the President vs. Vice-President games on Monday and Tuesday the rinks of Vice-President, J. H. Stanton, won over the rinks of the President, Dr. Sims, by a total of ten shots.

Leave your order with Johnstone for pastry in time for Saturday's delivery.

GONE TO INGERSOLL.—Mr. Findlay McDougall, who has sold out his business here to Mr. John Copp, has gone to Ingersoll, where he has bought out a general grocery business. Mr. McDougall's family will follow as soon as he can arrange for their accommodation. The Gazette joins with a large circle of friends in wishing Mr. McDougall every success in his new field of action.

S. A. IMPROVEMENTS.—Mr. Thos. Lane has just finished repapering and kalsomining the S. A. Hall on Bond street. A commodious stable, with shed attached, has also been built for the convenience of people from the country.

ST. ANDREW'S.—The pastor will occupy the pulpit at both services next Sabbath. The subject of the evening's discourse is "The Lord's Second Coming." Rev. J. H. Henderson, of Minden, exchanged pulpits on Sunday last with Mr. Lord, who returned on Tuesday after holding mission services and administering communion to the congregations in that neighborhood.

Miss Washburn will visit Cobocok on April 1st and 2nd with a complete assortment of Spring Millinery.

METHODIST CHURCH.—The special Evangelistic Meetings which have been in progress this week have been remarkable both in the interest, attendance and results which have been realized. The choir has rendered splendid service in leading the singing, while Miss Hazel Jones has sung in a sweet, effective manner the Gospel story. Rev. C. E. Cragg, B.D., is giving straight, strong, gripping talks to men and women. Come to night and every night. The meetings will continue until Tuesday night next, including special services on Sunday.

At a meeting of the Forest, Fish and Game Protective Association, held at Bobcaygeon a couple of weeks ago, the following resolution was passed unanimously, viz.: "That the secretary of this association notify the surrounding game and fish wardens, requesting them to co-operate with one another and that they write the secretary of this association if they know or even suspect any violation of the Fish and Game Act in this district." A meeting of wardens, Messrs. Archie Bradshaw, of Lindsay, I. Toole, of Onemee, J. Clarkson, of Lakehurst, and G. Nicholls, of Bobcaygeon, took place on the 13th inst. Some others, who are interested in the protection of fish and game, met with them, and the question was discussed, and full co-operative plans arranged for the wardens' work.
