FRAMES TESTED.**

When your eyes trouble you,  
cause you pain or head-  
ache or if your glasses re-  
quire changing or you  
need new glasses, go to

**DR. M. B. ANNIS,**  
Eyesight Specialist.  
(over Neill's shoe store),

**Lindsay - Ont.**  
Satisfaction guaranteed. Charges mod-  
erate.

## HOW TO SAVE MONEY ON FOOTWEAR.

There are different  
ways of economis-  
ing in footwear.

To buy cheap,  
badly made shoes  
is not economy.

But to buy good  
shoes—high class  
shoes, is economy.

It is impossible  
to use high grade  
materials for cheap  
shoes and make  
money.

And it's also im-  
possible to use the  
best machinery and  
employ the best  
workmen, because  
it wouldn't pay to  
do either. When you buy cheap shoes you  
buy cheap material and cheap workmanship.

But when you buy **ARNOLDS'** shoes you  
buy the highest grade shoes it's possible to  
make.

You buy the best materials obtainable,  
labor of the highest skilled workmen and  
the very latest and up-to-date methods for  
making high grade shoes.

**J. L. ARNOLD.**

## For Spring and Summer

Our Stock is now complete. We have the  
newest and best in

**SUITINGS, PANTINGS, AND  
FANCY VESTINGS.**

We will be pleased to have you call and see these goods.

**TOWNLEY BROS.**

**ANY KIND OF SHOE**

you set out for, in all  
the latest styles. We're  
having things very  
much our own way this  
season and the stock  
is winning friends every  
day. All you need then  
is to come in, buy, and  
go away happy. If you  
see a well dressed foot

it's sure it's been to our place.

**Robson & Son.**

## BANK OF MONTREAL,

HEAD OFFICE - MONTREAL.  
ESTABLISHED 1817. INCORPORATED BY ACT OF PARLIAMENT.  
CAPITAL - \$14,400,000.00. REST - 12,000,000.00  
ASSETS OVER \$183,000,000.

### SAVINGS BANK DEPARTMENT.

Deposits taken of \$1 and upwards, which can be  
withdrawn on demand.

**R. M. Hamilton, Mgr. Fenelon Falls Branch.**

### Gold Found At Cochrane.

The discovery of a placer mining area,  
fifteen miles by five, near Cochrane, or  
150 miles northwest of Cobalt, is the  
latest mining news from the north. From  
three to four hundred men stampeded  
from Cobalt to Cochrane on Saturday  
and Sunday, and more are preparing to  
follow. One man came down to Cobalt  
and reported that \$75 per pan was be-  
ing secured. This man had \$1500 in  
nuggets.

Peterboro Times:—Within the next  
week or ten days the Provincial Govern-  
ment will put the steamer "Maya" in  
the Trent waters to protect the fish by  
preventing illegal methods in fishing.  
Capt. Hunter, of Belleville, was in the  
city in connection with the matter, and,  
from the information gained, the "Maya"  
will make a fine addition to the Trent  
fleet. It will patrol the whole Trent  
waterway from Healey's Falls to Lake  
Simcoe. It is a sixty footer, trim and  
fast as has been doing duty on the Bay  
of Quinte. It will be placed on flat cars  
at one of the lake shore towns and  
brought to Peterboro.

Don't forget the Burnt River Minstrel  
Troupe Concert on Saturday, May 15th,  
in the Orange Hall, Burnt River.

Any person who drinks 25c tea and  
once tastes 30c "Salada" will see that  
it is not only finer in flavor, but that, as  
one pound makes many more cups, it is  
economical to use.

### Dried Beet Pulp.

Dried beet pulp is comparatively a  
new article on the market and is the  
dried residue in beet sugar manufac-  
ture. It comes from the sugar factory  
through an operation briefly as follows:  
The beets are washed, then shredded  
into small, round strips and placed in  
large upright cylinders, through which  
hot water is forced, dissolving out the  
sugar. This liquor is drawn off, and the  
pulp, containing about 92 per cent  
of moisture and 1 per cent of sugar, is  
conveyed to large presses, which re-  
duce the moisture to 82 per cent. It is  
then put into large kilns and thorough-  
ly dried by direct heat. The drying  
process lasts about thirty-five minutes,  
and the resulting product is sacked and  
ready for shipment. After extracting  
the sugar from the liquor which has  
been drawn off there is a residuum  
molasses, containing about 50 per cent  
of sugar, and a certain amount of this  
product is mixed with the fresh pulp,  
then dried and sold under the name of  
"dried molasses beet pulp."

### Working the Butter.

For working the butter some form of  
table worker is best to use. The but-  
ter bowl and paddle never give as  
good results, because the butter will  
almost invariably be greasy owing to  
the sliding motion of the paddle over  
the butter, says a dairy authority. The  
table workers commonly used are of  
two kinds—one having a stationary  
bed and a roller, either corrugated or  
smooth, arranged so that it can be  
passed back and forth over the sur-  
face of the butter; the other having a  
movable bed, revolving on a center,  
usually under two corrugated rollers.  
Both of these forms will do good work  
if the operator understands their use.

Perhaps there is hardly a more gen-  
eral favorite in the line of dairy prod-  
ucts than cottage cheese, and that this  
favor has a solid basis appears from  
the following conclusions of the Min-  
nesota experiment station:

Pound for pound, cottage cheese pre-  
pared with cream compares favorably  
in composition and digestibility with  
beef and other meats. One hundred  
pounds of skim milk and four pounds  
of cream, containing 20 per cent fat,  
will make from fifteen to sixteen  
pounds or more of moist cottage  
cheese. At 2 cents per quart for skim  
milk and 35 cents per quart for cream,  
cottage cheese would cost about 11  
cents per pound and compares very  
favorably in nutritive value with  
meats at the same price per pound.

Where skim milk can be procured at  
a low cost, cottage cheese is one of  
the most economical foods that can be  
used. The addition of cream to cot-  
tage cheese favorably influences both  
its nutritive value and its palatability,  
without increasing the cost above that  
of average meats.

Upon the farm where milk is pro-  
duced cottage cheese is one of the  
cheapest foods that can be used. Un-  
der such a condition it is more econom-  
ical to use cottage cheese made with  
cream than it is to make the cream  
into butter and purchase meat. Cot-  
tage cheese supplies a large amount of  
protein and fat in a very digestible  
and palatable form.

### A Farm Cheese Room.

The accompanying illustrations show  
a homemade curing room. A ven-  
tilator should be arranged at the top  
to allow warm air to pass out. A good

EXTERIOR OF CHEESE CAVE.

curing room can be made by simply  
digging a cave in a clay bank where  
the soil is stiff enough to prevent car-  
ving in. The famous Roquefort cheese

INTERIOR OF CHEESE CAVE.

of France is cured in natural deep  
caves where the temperature and mois-  
ture are nearly always the same.—  
American Agriculturist.

### Harder on Them.

"He failed in business three times."  
"That must have been hard on him."  
"Oh, I don't know. He wasn't one  
of his own creditors."

1836 THE BANK OF 1909

**British North America**

73 Years in Business. Capital and Reserve Over \$7,000,000.

**Have You a  
Bank Account?**

The money is safer in the  
Bank than in your house or  
pocket.

A Checking Account pro-  
vides a safe and convenient way  
of paying your bills, as  
each check issued returns to you as a receipt.

A Savings Account keeps growing all the time, with  
Interest compounded at highest current rates.

Fenelon Falls Branch,

**W. A. Bishop, Manager**
