

PRISONER SHOTS THREE MEN

Startling Deed at Windsor of Man Arrested for Bicycle Stealing.

A despatch from Windsor says: Without a word of warning, Herman Martin, alias Kraft, a bicycle thief, pulled a big 38-calibre revolver out of his hip pocket as the officers were about to search him at police headquarters on Friday night, and fired five shots in quick succession, four of which took effect. George B. Quamby, caretaker of the City Hall, is the most seriously wounded, the bullet entering through the fleshy part of the arm and lodging in the back just behind the shoulder. Police Sergeant William Reid was shot twice.

One ball took off a piece of the finger of his left hand, and another hit him in the right shoulder, making a bad but not serious flesh wound. Policeman William Lister was shot through the right arm. That none of the officers were killed is little short of a miracle, as the shots were fired at a range of less than five feet.

Immediately after the shooting the prisoner ran out of the building and hid in McLain's lumber yard, close by, where he was captured a few minutes later by Policeman Frank Cade. Martin made no resistance.

TWO BIG FAILURES.

Member of One Firm Placed Under Arrest at Montreal.

A despatch from Montreal says: Two of the heaviest business failures that have occurred in Montreal for a long time were filed here on Saturday, in each case there being a very marked difference between the liabilities and assets of the insolvent firms. Israel Grossman went under with liabilities of \$85,815. It is estimated by the liquidators that his assets will be in the neighborhood of \$10,000, after taking out the secured creditors. After being in business for less than a year, Messrs. Shaer and Eliasoph, also assigned on Saturday. They had accumulated liabilities of \$34,023, and outside of their secured creditors their estate is appraised at about \$7,000. Mr. Eliasoph, the financial member of the firm, was arrested, charged with attempting to defraud his creditors. He pleaded not guilty and was liberated on \$1,000 bail.

STRIKE AT OWEN SOUND.

C. P. R. Dockmen so Decide by a Large Majority.

A despatch from Owen Sound says: The result of a ballot of the striking Canadian Pacific Railway through freight men taken on Sunday, was an almost unanimous decision to continue the strike and reject the offer made on Saturday night by the company of a scale of 16 cents an hour for day work and 18 cents an hour for Sunday and night work. The suggestion of some of the leaders that the men would accept this offer was turned down on Saturday night at a meeting in Victoria Park and again at a meeting in the Town Hall, where a ballot showed 115 against and 15 for the acceptance of the offer.

FATHER ATTACKED BOY.

Sad Case at Brantford Arising Out of Theft Charge.

A despatch from Brantford says: The police had a peculiar case to deal with on Saturday. On Friday night Messrs. Higginbotham & Cameron's Drug store was robbed. Suspicion fell on the fourteen-year-old boy employed at the store, and his detention followed. His father on being notified, went to the police

station, where he became so enraged that he lost his mental balance, making an attempt to kill the boy. Three constables had all they could do to subdue him, but not before he had done considerable damage at the police station. Only a couple of dollars were secured at the robbery.

BLINDED BY LIME.

Two Ottawa Children Victims of an Explosion.

A despatch from Ottawa says: Sparling Beach, the ten-year-old son of Mr. Beach of 275 McLeod street, had an eye burned out and the other injured, and his four-year-old sister, Annie Beach, had her eyes also burned in an explosion of lime. The boy and his sister were playing in the yard with a tomato can filled with lime, and wishing to see it boil, poured water into the can. Both children were leaning over it at the time, when it exploded in their faces, with the results stated. It is probable that the boy will eventually lose his sight, while the girl will probably recover the use of both her eyes.

B. C. RANCHES FIRESWEPT.

Settlers are Forced to Flee for Their Lives.

A despatch from Kamloops, B. C., says: Hundreds of thousands of dollars in property have been destroyed and scores of ranchers forced to flee for their lives as the result of a disastrous bush fire that swept the country from Notch Hill as far east as Three Valley and south from Sicamous as far as Vernon. Among the losses are two large sawmills, the Carlin Mill, \$75,000, and the Carrigan Mill, on Salmon River, \$35,000. Several mill hands had to flee for their lives. Three large bush fires have been burning for several days and a gale soon brought them into contact. In Mara District the loss will be heaviest, for scores of ranch properties are completely devastated. On the main line of the C.P.R. fences and telegraph lines are destroyed for nearly twenty miles. West of Kamloops wires are down from high winds. Reports show that destructive fires are still burning in Spallumcheen Valley, near Enderby.

TO BUILD DIRIGIBLE AIRSHIPS

Scientific Department Has Been Created by the British Government.

A despatch from London says: The Government has taken an important step in recognition of the obviously growing seriousness of the problem of aeronautics from the national standpoint, by the creating of a new scientific department to study the problem in reference to Imperial defence. Prime Minister Asquith announced on Wednesday in the House of Commons that the work of devising and building dirigible airships had been divided between the army and the navy. With the view to ensuring that the highest scientific talent will be brought to bear on the task, the Government has requested the National Physical Laboratory to organize a special department for continuous investigations, experimental and otherwise, of the questions which must from time to time be solved in order to adequately guide the construction of airships. The investigations will be carried out under a special committee, of which Lord Rayleigh is president, and R. T.

Glazebrook, chairman. Several other prominent physicists are members. Adequate funds have been allotted for the work.

From a conversation with Secretary of War Haldane it was gathered that the Government's Defence Committee is resolved to try to place Great Britain in the forefront of the world in scientific investigation of aviation. The new department will exist for continuous research, and experiment with models, somewhat as warship designers do. The army and navy are experimenting with air vessels of all types, and will submit their problems to the committee, which will endeavor to discover sufficiently the causes of defects, and suggest remedies, which will be tested by the experimenters. The aim is to make the organization the most complete in the world. It is understood that the visit of Orville and Wilbur Wright to the War Office had a direct bearing on the new scheme.

LIGHTNING KILLS STUDENT

Another Was Seriously Injured on the Campus of Woodstock College.

A despatch from Woodstock, Ont., says: In the severe electrical storm which passed over the city late on Thursday afternoon lightning struck and killed James Merrigold, aged 15, of Hamilton. Edgar Knight, aged 18, of Burk's Falls, was also struck, and for a time it was thought that he was fatally injured. He revived, however, and at night was pronounced out of danger. Both young men were students of Woodstock College, and were on the campus when the tragedy occurred. An inter-year football match was in progress when the storm came up, about 5.30 o'clock, and a conference took place as to whether or not the game should be postponed.

Most of the boys, together with a number of spectators, took shelter under a tree on the campus.

When it was decided to postpone the game, all but Merrigold and Knight ran for the building. The two lads remained under the tree. The players had just reached the college building when a bolt struck young Merrigold and his companion. Seeing their plight, the boys rushed out and brought the lads in. Merrigold only lived a short time, and it was only by the utmost effort by the doctors that Knight's life was saved. The tree under which they were standing was not struck. The dead lad was a son of Robt. Merrigold, of Hamilton, formerly of this city.

\$3.45 to \$3.55. Bran—In bulk, \$23.50 to \$24.

LIVE STOCK MARKET.

Montreal, May 11.—Milkmen's strippers sold from 3½ to near 5c. per lb.; prime beeves sold at 5½ to 6c.; pretty good animals, 4½ to 5½c.; common stock, 3 to 4½c. per lb. Milch cows from \$25 to \$55 each. Calves from \$2 to \$8 each. The sheep were all shorn, and sold at 5 to 6c. per lb. Lambs, \$3.50 to \$6.50 each. Good lots of fat hogs sold at about 8c. per lb.

Toronto, May 13.—The demand for butcher cattle was so strong that everything of fair quality and weight sold readily at from \$5 to \$5.50. Stockers and feeders rose from 25 to 50 cents. Heavy feeding steers were selling from \$5 upwards. Milkers and springers, active demand for best grades, but common unsaleable. Calves, firm and unchanged. Sheep and lambs, firm and unchanged. Hogs, \$7.40 to \$7.50 fed and watered, and \$7.15 to \$7.25 f.o.b.

DROWNED AT GALT.

Two Students Went Out in Canoe and Upset.

A despatch from Galt says: The first drowning accident of the season in the Grand River occurred about 2 o'clock on Friday afternoon. The victim was Carl Stahlschmidt, son of Mr. W. Stahlschmidt of Preston. Clarence Goodfellow, son of Mr. B. Goodfellow, Galt, had a narrow escape. All went well until just

back of the collegiate, when the canoe capsized. Goodfellow was able to swim, but Stahlschmidt was not. The former made a heroic attempt to save his companion's life. He grasped him and held him above the water for some time. Finally Stahlschmidt in his struggles carried Goodfellow down twice, and the latter was compelled to release his hold. He swam to the shore completely exhausted, and had to be assisted up the bank. Stahlschmidt sank immediately. The body was recovered at 6 o'clock.

TOWN IN ALGOMA BURNED.

Only a Few Buildings Are Left in Chelmsford.

A despatch from Chelmsford says: Chelmsford was visited on Tuesday night by the most disastrous fire in the history of the town. Practically the whole town, with the exception of two hotels and two churches, was burned to the ground. The fire started in the dwelling above Pyne Bros. general store by the explosion of a gasoline lamp at 10.15 p.m. At 12.30 the whole business block was a mass of ruins. The burned buildings include Pyne Bros.' general store, J. David's pool-room and barber shop, J. Large's general store, Dumas' shoe store, Cayen's bake shop, the Methodist church, and other buildings, including stables and outhouses. A conservative estimate of the total loss is \$30,000, with little insurance. There was no fire protection in the town.

BURNED IN PRAIRIE FIRE

Theodore Bruning, a Saskatchewan Farmer Lost His Life.

A despatch from Moose Jaw says: The body of Theodore Bruning, a farmer, who lived about eighty-five miles south of Moose Jaw, reached the city on Thursday morning. He had lost his life in a prairie fire which started near Limerick on Monday, and bore westward with terrible rapidity. Bruning's own place was well protected and he rushed over to help save the place of a neighbor by starting a back fire. The main fire came on so rapidly, however, that before he could get to a place of safety the flames were upon him. The unfortunate man lived through the night, but died Tuesday morning. He was 38 years of age, and had been in the country less than a year, coming

from Minto, N. D. He was starting farming on a large scale, having two sections of land. He leaves a widow, but no family.

The latest reports from the burned districts to the south and southwest of the city confirm the worst fears respecting the serious nature of the damage done. Many settlers lost nearly everything they possessed. One of the heaviest losers was H. Cathcart, who had a thrashing outfit, a stable, a shed, and much machinery destroyed, making a total loss of \$5,000. Henry Bates lost considerable grain, his implements and a large new barn, making a total loss of about \$3,000. J. Downey lost two cars of lumber, which he had just removed to his farm to erect new buildings.

MILITIA CAMPS MUST BE DRY

Stringent Orders Have Been Issued to Commanding Officers.

A despatch from Ottawa says: As a result of a conference of the Dominion Alliance and the Moral and Social Reform Council with Sir Frederick Borden and the Militia Council recently regarding camps of instruction, Colonel Lessard, Adjutant-General, has sent out the following letter to the various militia officers:—"In view of the near approach of the dates for the camps of instruction this year, I have the

honor by direction to inform you that the Minister wishes you to take all possible precautions to prevent the sale of liquor in camps, in officers' as well as in all other messes and canteens, even to members of the same, it being contrary to law. I am to state that the Minister will hold you as well as all other commandants personally responsible that the law is not broken, and that no spirituous liquor whatever is sold in the camp."
