THE GAZETTE'S BRANCH.**

**Rev. Dr. Linscott's Suggestive Questions  
on the Sunday School Lesson for  
July 4th, 1909.**

Paul's Second Missionary Journey.—  
Antioch to Philippi. Acts xv: 36 to  
xvi: 15.

Golden Text.—Come over into Mace-  
donia and help us. Acts xvi: 9.

Verse 36.—Is it generally necessary  
to follow up any good work which we  
have commenced if we would make it a  
success?

Verses 37-39.—Would it have been  
wiser if Barnabas had first consulted  
Paul in the matter of taking Mark?

Barnabas was a relative of Mark; are  
we as good judges of the fitness of our  
relatives for an office as we are of the  
fitness of others? Why?

Why is nepotism in government ap-  
pointments looked upon with suspi-  
cion?

Had Paul, probably, good reason for  
objecting to taking John and Mark with  
them? (See Acts xiii: 13.)

If a man shows lack of courage, or  
tact, or faithfulness, in one position,  
does that disqualify him in any meas-  
ure from getting another, or from  
success when in another position?

If both Paul and Barnabas had been  
duplicates of the man Jesus, would  
there have been this quarrel between  
them, and how would the matter likely  
have been settled? (This question  
must be answered in writing by mem-  
bers of the club.)

When two Christians fall out, is one  
or both always to be blamed?

Verses 40-41.—Did the dispute be-  
tween these men work out for good, as  
it resulted in two missionary depu-  
tations instead of one?

By any process of reasoning can you  
conclude that God was back of this dis-  
pute between these two godly men, so  
as to better work out his purposes?

Chap. xvi: 1-3.—Should ministers, and  
other Christians, be on the lookout for  
young men who are fitted for the  
ministry, the same as business men are  
for good salesmen?

What can you say for or against Paul  
circumcising Timothy, in view of the  
decision of the council at Jerusalem?  
(See Acts xv: 1-29.)

In matters of habit, or ceremony, or  
non-essentials, is it well for us to give  
way to the views of others, sinking our  
own preferences when we can accom-  
plish good by so doing? For example  
you may oppose wearing "pig-tails" in  
this country, with wisdom, and yet to  
refuse to wear one in China may be  
great folly.

Verses 4-5.—What were the "decrees  
... of the elders which were  
at Jerusalem," and are these binding  
upon the church to-day? (See Acts  
xv: 28-29.)

Is a church better with or without an  
elaborate creed?

What did Jesus teach which is not  
included in righteousness, and the con-  
stant vision of God?

Will a church sound "in the faith,"  
always be a magnet to draw others to  
it?

Verses 6-8.—Why did the Holy Spirit  
forbid them to preach in Asia and  
Bithynia, and would they have sinned  
had they done so?

When we are hindered providentially  
from doing certain good works, is that  
the Holy Spirit hindering us?

Verses 9-10.—How many methods does  
God adopt in leading us?

Does God in every emergency give us  
some sure guidance as to what we ought  
to do?

Was this vision just as clear a call  
from God, as though he had spoken  
personally?

Verses 11-12.—Does God direct the  
course of the Christian with absolute  
certainty, notwithstanding wind or sea?

Verse 13.—What is one of the first  
things an earnest Christian looks out  
for, when he moves into a new com-  
munity?

Are women generally in the majority  
as earnest Christians?

Verse 14.—Are busy women generally  
more spiritual than those who have but  
little to do?

Should all girls be taught to earn  
their own living?

Is it easier for God to open the heart  
of an industrious person than that of an  
idler?

Verse 15.—If a person is inhospitable,  
or stingy, is that a sure sign of ungod-  
liness?

Lesson for Sunday, July 11th, 1909.  
Paul's Second Missionary Journey.—  
The Philippian Jailer. Acts xvi: 16-40.

Tea is more susceptible to foreign in-  
fluences than even butter. This is why  
it should never be exposed to the air or  
sold in bulk form. The sealed lead  
packets of "Salada" Tea preserve the  
tea in all its native goodness. Insist  
upon "Salada."

Norwood Register: The men employ-  
ed in the lumber camp of Mr. John  
Winters in Hastings County had quite a  
thrilling experience during a recent  
thunderstorm. The building in which  
the men were sleeping was struck by  
lightning. Michael Candon, of Deseronto,  
had his eyebrows and back of his  
head burned. Joseph Paul, of Belleville,  
had his arm and face burned. William  
Andrews had an ear burned. Thos.  
Flanagan and Chas. Sedgewick were  
both badly shaken up, though they  
escaped without any serious injuries.  
Not a particle of glass was left in any  
of the windows in the building. The  
blankets on the bed occupied by the  
two Andrews boys were scorched  
brown. How the men ever escaped with  
their lives is beyond comprehension.

**Potato Blight.**

The number of inquiries received at  
the office of the Department of Agricul-  
ture regarding the potato blight makes  
some information along this line appear  
opportune. The late blight or downy  
mildew of potatoes is a very destructive  
disease, causing more or less damage  
every year, but is generally worse when  
damp weather prevails during late sum-  
mer and early fall.

The effects of the disease are not  
noticed until late summer. The first  
indications of the disease is the appear-  
ance of small brown patches on the  
leaves, most frequently at the margins.  
These soon become black and the leaf  
curls. In severe attacks the leaves and  
stems become black and decayed in a  
short time, emitting a very disagreeable  
yet characteristic odor. If the brown  
spots on the under side of these leaves  
are examined when the disease is active,  
a delicate white mildew growth will be  
observed, especially around the margins.  
This is the stems of the fungus, and on  
them are borne minute seeds called  
spores, which float about in the air and  
are carried by the wind to all parts of  
the field. Moisture is necessary for the  
germination of these spores, consequent-  
ly when wet weather prevails the disease  
flourishes.

The disease will spread to the tubers  
and manifests itself by producing brown  
dead patches just under the skin. Potatoes thus affected seldom keep, and the  
spread of the disease is supposed to be  
due to the use of seed thus diseased.

The treatment is to spray with Bor-  
deaux mixture, beginning about the  
tenth of July and keeping the vines covered  
with bordeaux until danger of in-  
fection is over, which will be about the  
middle of September. It will require  
four to six sprayings to accomplish this.  
As preventive measures, plant early  
maturing varieties; burn or otherwise  
destroy diseased tops and tubers.

It has been pointed out by a con-  
temporary that two years ago the  
people of Rochester, N. Y., decided  
they were not getting all that was  
possible to be obtained from the use of  
their school buildings. Presumably  
they have some school buildings that  
they are not ashamed to look in the  
face, and they figured it out that it was  
a great waste of money and of opportu-  
nity to lock them up eighteen hours  
in every twenty-four and four months  
in every year. So a league of civic clubs  
was formed. Eleven societies, from  
booblocks to clubmen, undertook to  
establish social centers in these school  
buildings. Presently the buildings, in-  
stead of being empty after school hours  
and during holidays, became gathering  
places of all sorts and conditions of  
men, where they might either amuse or  
instruct themselves. The importance  
of the work thus carried on is indicated  
by a remark attributed to Governor  
Hughes of New York, who went to  
Rochester to see for himself, and who  
said: "I am more interested in what  
you are doing and in what it stands for  
than anything else in the world." Come  
to think of it, it is a great waste of  
money and opportunity to have so many  
school buildings lying unused so great a  
part of the time, when there is so much  
good work that might be done.

**House and Lot for Sale.**

Part Lot 4, North of Francis and East  
of Colborne Street, Fenelon Falls.  
20tf WM. GOLDEN, JR.

**County of Victoria.**

APPLICATIONS will be received by  
the undersigned until Monday, July  
19th, 1909, for the position of

**Caretaker of the Court House  
and Grounds, Lindsay,**

which includes the running and man-  
agement of the Central Steam Heating  
Plant. An applicant must on the date  
named have certified qualification as a  
Stationary Engineer, or be the holder of  
a certificate from any Association of  
Stationary Engineers in Ontario, the  
Dominion Minister of Marine, or as a  
Locomotive Engineer, and, if appointed,  
secure the qualifying certificate.

Must be a resident of the County of  
Victoria.

write or wire

L. E. TELFORD, 131 Shuter street.  
Phone, Main 8066. Toronto.

**Fall Fairs.**

Following are the dates of fall fairs  
to be held in this district:

Bobeageon	Sept. 29 30
Beaverton	Oct. 5 6
Fenelon Falls	Oct. 6 7
Haliburton	Sept. 30
Keene	Oct. 5 6
Kinmount	Oct. 10 11
Lakefield	Sept. 28 29
Lindsay	Sept. 23 24 25
Oakwood	Sept. 27 28
Orrilla	Sept. 23 24
Woodville	Sept. 16 17

**Haliburton.**

Dr. Giles and family have removed to  
Oshawa. Haliburton has thereby lost  
one of the most popular of its citizens  
in social and in political affairs and a  
friend of the needy. He has practised  
medicine in Haliburton some twenty  
years with a fellow-feeling of sympathy  
prominent in his character, and it is  
with much regret that we announce his  
departure from us.

With a wind blowing a gale the Meth-  
odist church was last Thursday burned  
to the ground in a very few minutes.  
The fire was not discovered until it was  
under good headway, getting started  
underneath the church. The gasoline  
underneath the church, a few seats and one  
tank, organ, stove, a few seats and one  
or two other small articles were saved.  
It was only through strenuous efforts on  
the part of the citizens that the  
neighboring buildings were saved. The  
Presbyterian church is used for the  
services at present.—Minden Echo.

TO GET RID OF ANTS.—This is the sea-  
son of the year when the housewife is  
pestered with ants coming into the  
kitchen, pantry and cellar. To rid the  
house of them is sometimes very diffi-  
cult. A hot solution of alum is recom-  
mended (one pound to three pints of wa-  
ter.) Pour this into any cracks or crev-  
ices there may be around the pantry or  
kitchen. Two table-spoonsful of carbolic  
acid to a pint of water may be used in  
the same way. Then pour oil of penny-  
royal on a large piece of cotton-batting,  
tear it into little bits and spread about  
the kitchen and dining-room where the  
ants are usually seen, or fresh penny-  
royal leaves may be spread about the  
infested places.—Ex.

**MARRIED.**

NEWMAN.—McCORMACK.—At Fenelon  
Falls, by the Rev. W. H. A. French, on  
Wednesday, June 30th, 1909, Mr. Her-  
bert L. Newman, of Somerville, to Miss  
Margaret J. McCormack, of Kinmount.
