

ATTENDED BY FIVE DOCTORS

BUT GOT NO RELIEF UNTIL HE USE DODD'S KIDNEY PILLS.

Wonderful Cure of A. F. Richard, Who was Tortured by Rheumatism and Kindred Pains, Sets Kent County Talking.

St. Ignace, Kent Co., N. B., Nov. 22—(Special).—After being tortured for four years with Backache, Rheumatism, Stiffness of the Joints and Pains in the Loins, and getting no relief from five doctors whom he called in, Mr. Antoine F. Richard, a well-known farmer living near here, is spreading the good news that he is once more a well man, and that he owes his cure to Dodd's Kidney Pills. Speaking of his wonderful cure, Mr. Richard says:

"I was a helpless man in July, 1907. For four years I had endured the greatest torture from Backache, Rheumatism, Stiffness of the Joints and Pains in the Loins. I had dark circles under my eyes, my head ached and I was often dizzy. I was attended by five doctors, but not one of them could help me.

"Then I began to use Dodd's Kidney Pills and after the first few doses I began to improve. I used four boxes in all and now I am working every day on the farm a well man. I owe my wonderful cure to Dodd's Kidney Pills and nothing else."

There is no case or kind of Kidney Disease that Dodd's Kidney Pills will not cure.

SENTENCE SERMONS.

Sorrow is the teacher of sympathy. There are no saints without service.

Most remorse comes from despising rebuke.

The good lives are always looking to better ones.

Burning thoughts never come from hot heads.

Nothing feels the lack of exercise quicker than piety.

He who fears to be called a coward is sure to be a fool.

The holiness that seems to hurt you cannot help the world.

Religion is out attempt to discover the meaning of life.

He has a share in a good deed who cheers another on to it.

Temptation may be good discipline, but it makes poor diet.

No one dies of spiritual indigestion from swallowing his spite.

The larger the heart the more it feels the power of little hands.

The surest way to an empty heart is to nurse an envious mind.

Flattery is simply a way of boasting of our power to fool others.

The more a man knows the less he is ashamed of his ignorance.

The religious life is the only way into the knowledge of religious truth.

The people who are going nowhere are always in a rush to get there.

Some who talk with unction on working for sinners are but working the saints.

Folks who sit down in a soft place hope that it is an elevator and find it is a glue pot.

Life is likely to lose all humor when you get into the habit of ridicule and cheap wit.

He who believes only in the things he can see never sees anything worth believing in.

It is easier to write a volume on psychology than it is to get to know a man so as to really help him.

Some people get so little out of religion because they are so anxious to get so much for themselves.

It is easy to plug your enemy full of mud and set him up before you in a sermon.

THE PERFUMER'S ART.

Women Now Demand Subtle Blending of Perfumes.

"Women are strangely fickle in their choice of perfumes," says a famous London chemist. "Tired of the scent of single flowers, they are now demanding subtle blendings. But the fashion in scents is undying. More than \$500,000 is now-a-days to be made from the evolution of one new perfume.

"Perfumery has risen to be an art. Beautiful music and lovely pictures strike their note upon the senses; so does a delicate blending of odors. In the evolution of a new perfume I play upon a certain number of harmonious notes.

"Large sums of money are often spent upon preliminary laboratory work. Here"—he produced a tiny fragrant pot 2 inches high—"is the perfume essence derived from half a ton of violets. It is worth \$200. Our flower basis for laboratory experiments includes also jasmine, rose, orange blossoms, and cassia—a French flower produced solely for perfumery. To these are added vegetable odors—the seed of musk plant, tonquin bean, vanilla bean, cloves, and the distillation of complete plants, such as lavender and rosemary.

"When delicate blends from these have been obtained in special laboratories we have to procure animal substances to keep the odors from evaporating, such as natural musk from the musk deer, castor from the beaver, and ambergris from the whale.

"An art in itself is the coloring of the perfume when it has been obtained. Pure vegetable colorings chiefly are used. The cult of perfumes has so advanced that a woman with a rose tinted gown now demands, as a matter of course, a haunting rose odor, and a violet costume correspondingly has a violet perfume."

WATER GAUGE BURST.

C. P. R. Fireman Badly Scalded.

C. P. R. fireman, Geo. H. Duffus, who lives in Robertson Street, Fort William, while on his engine near Westford happened with a nasty accident. The water gauge of the locomotive burst and scalded the left side of his face and head terribly. "It so happened," said Duffus to our representative, "that I had a box of Zam-Buk in my pocket, which I used for a sore on my lip, and when I had recovered from the first shock of the accident, I produced the balm and had it applied freely to the scalded parts. At the time I applied it I was suffering acute agony, but within a wonderful short time Zam-Buk gave me ease. I was able to continue my journey, and upon reaching home I obtained more Zam-Buk and continued the treatment. It acted wonderfully well, and in a few days had the wound nicely healing. I don't know anything so fine as a healer of burns, scalds, cuts, and similar injuries which workers are so liable to; and in my opinion a box of Zam-Buk should be kept handy in every worker's home."

For burns, cuts, scalds, bruises, eczema, piles, ulcers, ring-worms, itch, salt rheum, bad leg, festering sores, chapped places, cold-sores, frost-bites, and all skin injuries and diseases, Zam-Buk is beyond doubt a most marvellous cure.

Druggists and stores sell at 50 cents a box and the Zam-Buk Co., Toronto, will mail a box, post free, upon receipt of price, to any of our readers.

Bingoo—"Things have gone so badly with me that I have had to compel my wife to make her own dresses." Kingley—"Too bad. How does she look?" "Daggers!"

Thos. Sabin of Eglinton, says: "I have removed ten corns from my feet with Holloway's Corn Cure." Reader, go thou and do likewise.

AND FIGURES DON'T LIE.

Johnny came home the other night in high glee, wearing the arithmetic medal.

"What is that for?" asked his mother.

"That's the prize for doing examples," said Johnny. "I did this one: 'If our new baby weight eleven and a half pounds, and gains an ounce each day'—'cause you told Mrs. Smith she did yesterday—'how much will she weigh when she's twenty years old?' And the answer was, four hundred and sixty-six pounds. And the teacher said I earned the prize."

WINDY.

A breezy man may be all right, but preserve us from the one who is a regular bag of wind.

HUSTLE UP.

Get on the job,
Defy the mob,
Don't smoke a cob
And shirk.
Knock out your foe,
Step on his toe,
Get up and go
To work.

Man makes his way
By making hay,
And one to-day
Kills sorrow
That otherwise
Would dim your eyes
And cloud your skies
To-morrow.

POULTRY.

We call the attention of our readers to the advertisement of Gunn, Langlois & Co., Montreal, which appears elsewhere in this paper. If you have any poultry to place on the market during the holiday season, take their advice and communicate with them before rushing goods to market. It is a good plan to write to these people if you have eggs, butter, poultry or honey to dispose of at any time, as they are known to be a very reliable house.

DOMESTIC TRAGEDY.

"So they have quarreled!"
"Yes."
"Can there be a reconciliation?"
"I fear not. The disregard of each other's feelings was too great. She thought nothing of using his razor to sharpen lead pencils and he insisted on using her manicure set to draw corks."

A Liniment for the Logger. — Loggers lead a life which exposes them to many perils. Wounds, cuts and bruises cannot be altogether avoided in preparing timber for the drive and in river work, where wet and cold combined are of daily experience coughs and colds and muscular pains cannot but ensue. Dr. Thomas' Electric Oil when applied to the injured or administered to the ailing, works wonders.

WHEN THE SHOE PINCHES.

"Women can stand pain far more heroically than men. I know it by experience."

"What, are you a doctor?"
"No, a shoemaker."

Mrs. Robert E. Peary, more than nine years ago, favorably commented on Murine Eye Remedy after its application in her Family for Eye Troubles resulting from Measles and Scarlet Fever, and later recommended to the famous Explorer, the Man who now returns home as the Discoverer of the North Pole. An Always Ready Pill.—To those of regular habit medicine is of little concern, but the great majority of men are not of regular habit. The worry and cares of business prevent it, and out of the irregularity of life comes dyspepsia, indigestion, liver and kidney troubles as a protest. The run-down system demands a corrective and there is none better than Parmelee's Vegetable Pills. They are simple in their composition and can be taken by the most delicately constituted.

There must be something wrong with the vision of some people who do their duty as they see it.

Mother Graves' Worm Exterminator has no equal for destroying worms in children and adults. See that you get the genuine when purchasing.

THE LAW'S UPHOLDER.

Witness—"I saw the prisoner committing the assault."

Recorder—"What did you do?"

Witness—"I hit him behind the ear, seized him by the throat, put my knee into the middle of his back, and dragged him to the floor."

Much so-called originality is merely undetected imitation.
